Republic of the Philippines National Urban Assessment Asian Development Bank,2014-08-01 The Urban Operational Plan (UOP) 2012-2020 of the Asian Development Bank (ADB) supports ADB developing member countries (DMCs) in expanding their urban economies, improving environmental sustainability, and making pro-poor investments through a 3E approach (Economy, Environment, and Equity). This case study on the Philippines is based on thematic areas of the National Urban Sustainability Assessment framework for developing strategic policy options and targeted investments in the urban sector. This publication shows how the framework acts as a tool for conducting rapid urban assessments at both

national and urban region levels for DMCs.

Intelligent Computing Kohei Arai, 2023-08-31 This book is a collection of insightful and unique state-of-the-art papers presented at the Computing Conference which took place in London on June 22-23, 2023. A total of 539 papers were received out of which 193 were selected for presenting after double-blind peer-review. The book covers a wide range of scientific topics including IoT, Artificial Intelligence, Computing, Data Science, Networking, Data security and Privacy, etc. The conference was successful in reaping the advantages of both online and offline modes. The goal of this conference is to give a platform to researchers with fundamental contributions and to be a premier venue for academic and industry practitioners to share new ideas and development experiences. We hope that readers find this book interesting and valuable. We also expect that the conference and its publications will be a trigger for further related research and technology improvements in this important subject.

Philippine Materials in International Law Raul C Pangalangan, 2021-11-15 This is a collection of international law materials relating to the Philippines: excerpts of treaties and declarations; international judicial and arbitral decisions; and Philippine constitutional clauses, statutes and Supreme Court decisions. Today new theories abound, calling for comparative perspectives that look at international law through the lens of national and regional practice. This book engages with that challenge at a concrete level, e.g., how Marcos's human rights abuses were litigated abroad but never in Philippine courts, and how victim claims for reparations are, ironically, blocked by the Philippine Government citing the Filipino people's competing claims over Marcos's ill-gotten wealth. It retells Philippine history using international law, and re-examines international law using the Philippine experience.

Philippines: Urban Sector Assessment, Strategy, and Road Map Asian Development Bank, 2012-05-01 This publication documents the current assessment and strategic investment priorities of the Government of the Philippines and the Asian Development Bank (ADB) in the country's urban sector. It highlights sector performance, priority development constraints, government plans and strategies, past ADB support and experience, support of other development partners, and future ADB support strategy. The road map covers four main support areas: (i) preparation of a loan for the Philippine Solid Waste Management Sector Project in 2012 or 2013; (ii) future technical assistance (TA) and lending activities---to be discussed with the government---that may include a sector project for markets and transport terminals, which could further include land and sea transport facilities; (iii) projects of the Urban Development and Water Division of ADB's Southeast Asia Department, which may support flood control and the efforts of communities to mitigate the effects of climate change; and further (iv) stand-alone policy and advisory TA or capacity development TA, to promote performance-oriented governance and overall strengthening of urban sector agencies, depending on requests from the government.

International Conference on Road Traffic Signalling, 30 March-1 April 1982, Venue, the Institution of Electrical Engineers, London, U.K. Institution of Electrical Engineers. Computing & Control Division, 1982 Spine title: Road traffic signalling.

Fundamentals of Traffic Engineering Ricardo G. Sigua, 2008 The book covers basic concepts that a senior civil engineering student is expected to understand thoroughly. It is also written as a handy self-contained reference or easy guide for practicing traffic and transportation engineers. Only through a firm grasp and systematic application of basic knowledge and theories could we truly come up with credible and effective solutions to our transport problems and traffic woes. There is nothing more gratifying than having the field of traffic engineering help build communities characterized by efficiency, order, and safety.

Climate Emergency in the Philippines Kristoffer B. Berse, Juan M. Pulhin, Antonio G. M. La Viña, 2024-05-18 This book provides a snapshot of the manifestations of the climate emergency in the Philippines from a wide array of disciplines including physical sciences, social sciences, arts and humanities, management, and law. Researchers and faculties at the University of the Philippines contributed to this compilation, where each chapter provides policymakers and the public a clear picture of why climate change must be confronted with a sense of urgency and near-desperation. Divided into three main parts, the first one zeroes in on climate-vulnerable sectors such as water, food and agriculture, health, and coastal communities in the Philippines to introduce readers to the current pressing impacts of the climate emergency. The second part presents case studies of local experiences from the country's three island regions, namely, Luzon, Visayas, and Mindanao, and it situates the readers in different environments and contexts. The third part features transdisciplinary responses to the climate emergency, including salient challenges in relation to planning, financing, communication, and education. The concluding chapter highlights eight areas for action to tackle the climate emergency. Each chapter comes with an overview and a Summary for Policymakers, which provides clear guidance for action to be taken by both local and national policymakers.
