Perspectives in Politics and Discourse Urszula Okulska, Piotr Cap, 2010-06-16 The volume explores the vast and heterogeneous territory of Political Linguistics, structuring and developing its concepts, themes and methodologies into combined and coherent Analysis of Political Discourse (APD). Dealing with an extensive and representative variety of topics and domains – political rhetoric, mediatized communication, ideology, politics of language choice, etc. – it offers uniquely systematic, theoretically grounded insights in how language is used to perform power-enforcing/imbuing practices in social interaction, and how it is deployed for communicating decisions concerning language itself. The twenty chapters in the volume, written by specialists in political linguistics, (critical) discourse analysis, pragmatics, sociolinguistics, and social psychology, address the diversity of political discourse to propose novel perspectives from which common analytic procedures can be drawn and followed. The volume is thus an essential resource for anyone looking for a coherent research agenda in explorations of political discourse as a point of reference for their own academic activities, both scholarly and didactic.
