IDP Research Division

The Book of Major Sins in Islam IDP Research Division, 2019-01-04 Bear in mind that what you view in this world is either good or bad, clear or vague, a lust followed by sorrow or sins followed by gloom. Therefore, you have to reject a perishable joy or lust, a binding condemnancy, an inevitable sorrow, and a grievous affliction. Judge yourself before being judged by Allah, the Lord of the Universe. Remember that the one who will be prosperous, is the one who washes away the filth of his sins by repentance while repentance is available, awakes and gets out from the place of sins to the fort of guidance before repentance and apology are of no avail. May Allah safeguard us with His sleepless eyes and keep us away from faults and sins for He is the All-Hearing, the Nearest. Islam Cenap Çakmak, 2017-05-18 This expansive four-volume encyclopedia presents a broad introduction to Islam that enables learning about the fundamental role of Islam in world history and promotes greater respect for cultural diversity. One of the most popular and widespread religions in the world, Islam has attracted a great deal of attention in recent times, particularly in the Western world. With the ongoing tensions in the Middle East and a pervasive sense of hostility toward Arab Americans, there is ever increasing need to examine and understand Islam as a religion and historical force. *Islam: A Worldwide Encyclopedia* provides some 700 entries on Islam written by expert contributors that cover the religion from the birth of Islam to the present time. The set also includes 16 pages of color images per volume that serve to illustrate the diverse expressions of this important religious tradition. Each entry begins with a basic introduction, followed by a general discussion of the subject and a conclusion. Each entry also features a further readings list for readers. In addition to supplying a comprehensive, authoritative overview of Islam, this work also specifically addresses many controversial related issues, including jihad, violence in Islam, polygamy, and apostasy.

The Concept of Sin in Judaism, Christianity and Islam Christoph Böttigheimer, Konstantin Kamp, 2024-11-04 It is asserted by Judaism, Christianity and Islam alike that sin is a central part of human life. Where sin comes from, however, is answered differently in the respective religions. While both the Bible and the Qur'an agree that there was a kind of fall of Adam at the beginning of human history, this fall is interpreted solely in classical Christian theology in terms of an original or ancestral sin. Moreover, the classical doctrine of original sin is becoming increasingly called into question in today's Christian theology. This example already shows that the concept of sin is anything but clear. What does sin mean? Is sin primarily a violation of God's commandments? Or does the term sin refer to a radical corruption of man's nature? How does sin relate to man's redemption, toward which all three religions aim? The book *The Concept of Sin in Judaism, Christianity and Islam* addresses these and related questions. It analyzes how sin has been understood in the three religions in the past and the present and points out similarities and differences.

Accusations of Unbelief in Islam Camilla Adang,Hassan Ansari,Maribel Fierro,Sabine Schmidtke,2015-10-20 The present volume—the first of its kind—deals with takfir: accusing one’s opponents of unbelief (kufr). Originating in the first decades of Islam, this practice has been applied intermittently ever since. The nineteen studies included here deal with cases, covering different periods and parts of the Muslim world, of individuals or groups that used the instrument of takfir to brand their opponents—either persons, groups or even institutions—as unbelievers who should be condemned, anathematized or even persecuted. Each case presented is placed in its sociopolitical and religious context. Together the contributions show the multifariousness that has always characterized Islam and the various ways in which Muslims either sought to suppress or to come to terms with this diversity. With contributions by: Roswitha Badry, Sonja Brentjes, Brian J. Didier, Michael Ebstein, Simeon Evstatiev, Ersilia Francesca, Robert Gleave, Steven Judd, István T. Kristó-Nagy, Göran Larsson, Amalia Levanoni, Orkhan Mir-Kasimov, Hossein Modarressi, Justyna Nedza, Intisar A. Rabb, Sajjad Rizvi, Daniel de Smet, Zoltan Szombathy, Joas Wagemakers.

The Essentials of Ibadi Islam Valerie J. Hoffman,2012-05-22 Ibadi Islam is a distinct sect of Islam, neither Sunni nor Shi’ite, that emerged in the early Islamic period and remains active today in small pockets of North Africa and as the dominant sect of Oman. Despite its antiquity, it has often been misunderstood and remains little known. Seeking to redress this gap and to introduce this Islamic school to the non-Arabic-speaking world, Hoffman offers the first book-length overview of Ibad.i theology published in English. Beginning with a concise overview of Ibadi history, Hoffman delineates the movement’s role in the development of Islamic thought, tracing its distinctive teachings and literary history. In the second section, she provides annotated translations of two complementary modern Ibadi theological texts. This unique volume elucidates Ibadi religious and political thought by allowing its tradition to speak for itself. The Essentials of Ibadi Islam gives readers, specialists and nonspecialists alike, a rare opportunity to understand the major teachings of Ibad.i Islam.

Origins of Sin Nora Franklin,AI,2025-02-14 Origins of Sin explores the concept of sin across major world religions like Christianity, Islam, Judaism, Hinduism, and Buddhism, examining its historical evolution and enduring influence on morality. It delves into how different faiths conceptualize sin, highlighting both shared themes and theological divergences.

Intriguingly, the book reveals how the concept of sin functions as a mechanism for social control and personal accountability, and how societal shifts, such as the Reformation and the Enlightenment, reshaped religious thinking about sin. The book presents a structured analysis, beginning with an introduction to core concepts of sin in various religions, then assessing the moral implications of these definitions, and finally examining the evolution of sin in secular ethics and modern legal systems. One significant point is how secular ethical frameworks have adopted elements of sin-based thinking, influencing legal systems and individual moral reasoning. This approach provides a unique lens for critically examining moral assumptions and fostering thoughtful discussions about ethics in an increasingly diverse world.

On Theocratic Criminal Law Bahman Khodadadi,2024-09-25 On Theocratic Criminal Law explores the roots and structures of the criminal law system of the world's most prominent constitutional theocracy, the Islamic Republic of Iran. While discussing the processes of forced de-westernization and de-modernization which occurred in the wake of the Islamic

Revolution, this work examines how the Islamic conception of civil order and polity has been established within the legal and theological framework of the Iranian Constitution. The book engages in a process of 'rational reconstruction' of Iranian theocratic criminal law and offers a critical analysis of the way criminal law functions as the centrepiece of this mode of political domination. It illuminates how this revelation-based, punitive ideology functions, how the current Islamic Penal Code (IPC) mirrors prevailing Shiite jurisprudence, and ultimately, from what sort of fundamental defects theocratic criminal law in Iran is suffering. This work provides a critical assessment of the criminalization and sentencing theories that have stemmed from the shariatization (Islamization) of all law in the wake of the Islamic Revolution of 1979. By embarking upon a typology of punishment in Shiite Islamic jurisprudence and the Iranian Islamic Penal Code the book then provides a systematic critical analysis of the three types of punishment stipulated in the Iranian Penal Code, namely ta'zir, hadd, and qisas. It also explores the jurisprudential principles and dynamic power of Shiite Islam not only as a driving force behind political and social change but as a force that has been capable of forging a whole theocratic legal system.

Islam on Trial Chawkat Moucarry, 2022-03-31 In an age of increased globalization, Islam has found itself in crisis. In this book, he provides non-Muslims with a foundation for understanding Muslim faith and practice, while offering insight into the complex relationship between Islam, culture, and politics. The author addresses key controversial theological issues and highlights shared common ground between Christianity and Islam. He challenges members of both religions to engage in genuine dialogue, built on mutual understanding and respect, and to work together for the common good of their societies.
