**Christian G. Meyer**

A Long Way Up Evans G. Valens, 1966 When she was Eighteen, a candidate for the U.S. Olympic skiing team, Jill Kinmont was injured during a race and has been paralyzed ever since. That was in 1955. This biography describes the effect of her accident, how she changed, and with what courage she sought a new life as a teacher.

The Other Side of the Mountain Evans G. Valens, 1988 An accident in 1955 during the last qualifying race before the U.S. Olympic ski team tryouts left 18-year-old Jill Kinmont paralyzed from the shoulders down. This is the story of how she struggled from complete helplessness to leading a meaningful life.

The Cinema of Isolation Martin F. Norden, 1994 Filmmakers have often encouraged us to regard people with physical disabilities in terms of pity, awe, humor, or fear as Others who somehow deserve to be isolated from the rest of society. In this first history of the portrayal of physical disability in the movies, Martin Norden examines hundreds of Hollywood movies (and notable international ones), finds their place within mainstream society, and uncovers the movie industry's practices for maintaining the status quo keeping people with disabilities dependent and in their place. Norden offers a dazzling array of physically disabled characters who embody or break out of the stereotypes that have both influenced and been symptomatic of society's fluctuating relationship with its physically disabled minority. He shows us sweet innocents like Tiny Tim, obsessive avengers like Quasimodo, variations on the disabled veteran, and many others. He observes the arrival of a new set of stereotypes tied to the growth of science and technology in the 1970s and 1980s, and underscores movies like *My Left Foot* and *The Waterdance* that display a newfound sensitivity. Norden's in-depth knowledge of disability history makes for a particularly intelligent and sensitive approach to this long-overlooked issue in media studies.

**Why Johnny Can't Tell Right from Wrong** William Kilpatrick,1993-09 A hard-hitting and controversial book, WHY JOHNNY CAN'T TELL RIGHT FROM WRONG will not only open eyes but change minds. America today suffers from unprecedented rates of teenage pregnancy, drug abuse, suicide, and violence. Most of the programs intended to deal with these problems have failed because, according to William Kilpatrick, schools and parents have abandoned the moral teaching they once provided. In WHY JOHNNY CAN'T TELL RIGHT FROM WRONG, Kilpatrick shows how we can correct this problem by providing our youngsters with the stories, models, and inspirations they need in order to lead good lives. He also encourages parents to read to their children and provides an annotated guide to more than 120 books for children and young adults.

Popular Stories and Promised Lands Roger C. Aden,2007-07-25 Popular culture stories--found in comic strips, TV programs, magazines, and movies--gain their popularity by evoking our desires and anxieties. Aden offers a well-constructed argument that creating a sense of place (and with it a sense of personal identity and community) serves as an important enticement for many popular cultures works. . . . Aden handles contemporary theory deftly and] does an excellent job of identifying many of the tensions present in 20th-century America. --Quarterly Journal of Speech Stories encountered at the movies, on television, and in popular magazines are treated as reflections of the popular culture. . . . Believing that the American experience has been guided by a 'normative narrative' or 'grand narrative' that constitutes the 'American dream, ' Aden holds that stories can be used to extract the 'rules' of a narrative, determine the direction, and identify conceptions of the 'promised lands' for a culture. --Critical Studies in Mass Communication

Ski Films Bryan Senn,2022-05-02 Skiing in movies, like the sport itself, grew more prevalent beginning in the 1930s, when it was a pastime of the elite, with depictions reflecting changes in technique, fashion and social climate. World War II saw skiing featured in a dozen films dealing with that conflict. Fueled by postwar prosperity, the sport exploded in the 1950s--filmmakers followed suit, using scenes on snow-covered slopes for panoramic beauty and the thrill of the chase. Through the free-spirited 1960s and 1970s, the downhill lifestyle shushed into everything from spy thrillers to beach party romps. The extreme sports era of the 1980s and 1990s brought snowboarding to the big screen. This first ever critical history of skiing in film chronicles a century of alpine cinema, with production information and stories and quotes from directors, actors and stuntmen.
