**Understanding the Transgenerational Legacy of Totalitarian Regimes** Elena Cherepanov,2020-11-23 Understanding the Transgenerational Legacy of Totalitarian Regimes examines the ways in which the cultural memory of surviving totalitarianism can continue to shape individual and collective vulnerabilities as well as build strength and resilience in subsequent generations. The author uses her personal experience of growing up in the former Soviet Union and professional expertise in global trauma to explore how the psychological legacy of totalitarian regimes influences later generations' beliefs, behaviors, and social and political choices. The book offers interdisciplinary perspectives on the complex aftermath of societal victimization in different cultures and discusses survivors' experiences. Readers will find practical tools that can be used in family therapy, cognitive-behavioral therapy, and peace building to recognize and challenge preconceived assumptions stemming from cultural trauma. This book equips trauma-minded mental health professionals with an understanding of the transgenerational toxicity of totalitarianism and with strategies for becoming educated consumers of cultural legacy.

**Complex Borderline Personality Disorder** Daniel J. Fox,2022-01-02 There's no one-size-fits-all treatment for borderline personality disorder (BPD)—especially for people with coexisting conditions. BPD rarely occurs alone. In this guide, internationally recognized BPD expert Daniel J. Fox offers a breakthrough understanding of what he calls complex borderline personality disorder (C-BPD), a form of BPD that is complicated by the presence of comorbid conditions. With this book, readers will find a tailored approach to managing their symptoms based on the presence of coexisting conditions such

as depression, anxiety, trauma, and more.

**Women and Borderline Personality Disorder** Janet Wirth-Cauchon, 2001 A superb, up-to-date feminist analysis of the borderline condition. . . . Characterized by stereotypically feminine qualities, such as poor interpersonal boundaries and an unstable sense of self, borderline diagnosis has been questioned by many as a veiled replacement of the hysteria diagnosis. . . . Wirth-Cauchon includes narratives from women exhibiting the theoretical underpinnings of the borderline diagnosis. . . . The author is rigorous in her analysis, and mainstream academics and diagnosticians should take note lest they create yet another label that disregards the contradictory and conflicting expectations experienced by so many women. Includes an excellent bibliography and a wealth of good reference. Highly recommended.-Choice This book contributes to a rich, feminist interdisciplinary theoretical understanding of women's psychological distress, and represents an excellent companion volume to Dana Becker's book titled *Through the Looking Glass*.-Psychology of Women Quarterly Wonderfully written. . . . [The] argument proceeds with an impeccable and transparent logic, the writing is sophisticated, evocative, even inspired. This work should have enormous appeal.- Kenneth Gergen, author of *Realities and Relationships* Impressive in its synthesis of many different ideas . . . both clinicians and people diagnosed with BPD may find much of value in Wirth-Cauchon's thoughtful and provoking analysis.-Metapsychology At the beginning of the twentieth century, hysteria as a medical or psychiatric diagnosis was primarily applied to women. In fact, the term itself comes from the Greek, meaning wandering womb. We have since learned that this diagnosis had evolved from certain assumptions about women's social roles and mental characteristics, and is no longer in use. The modern equivalent of hysteria, however, may be borderline personality disorder, defined as a pervasive pattern of instability of self-image, interpersonal relationships, and mood, beginning in early adulthood and present in a variety of contexts. This diagnosis is applied to women so much more often than to men that feminists have begun to raise important questions about the social, cultural, and even the medical assumptions underlying this illness. Women are said to be unstable when they may be trying to reconcile often contradictory and conflicting social expectations. In *Women and Borderline Personality Disorder*, Janet Wirth-Cauchon presents a feminist cultural analysis of the notions of unstable selfhood found in case narratives of women diagnosed with borderline personality disorder. This exploration of contemporary post-Freudian psychoanalytic notions of the self as they apply to women's identity conflicts is an important contribution to the literature on social constructions of mental illness in women and feminist critiques of psychiatry in general. Janet Wirth-Cauchon is an associate professor of sociology at Drake University.

*Healing the Ravaged Soul* Sue Magrath,2017-01-26 Why does God hate me? How can I believe in a God who has allowed my suffering? These are just two of the difficult spiritual questions that survivors of child sexual abuse struggle with. In addition, survivors often have mixed feelings about the church because of perceived judgment and indifference, their own shame, or their discomfort with certain aspects of worship. Of the many after-effects of sexual abuse, spiritual wounds are the least talked about, yet they are central to adult survivors who seek to heal and find faith and meaning in their lives. With grace and gentleness, this book seeks to answer survivors' spiritual questions and address some of the common misconceptions that often develop when young victims attempt to understand what has happened to them. *Healing the Ravaged Soul* explores the origins of their spiritual issues with clear psychological insights and guides survivors on a spiritual journey toward healing, wholeness, and a deeper relationship with God.

Psychic Hooks and Bolts Maria Pozzi Monzo,2018-05-08 'In this book it is made plain that complex and powerful understanding can take place in brief work. The baby's development is carried forward, the family re-groups differently, and understanding brings a change in behaviour.'- Lisa Miller, from the Foreword. 'This book focuses on young children as old as five and the parents and siblings who live with them. It wants to explore deep, unconscious connections between children and parents, especially in those cases where symptomatic behaviours develop and turn a potentially pleasant and satisfying family life into hell.' - This fascinating and comprehensive work is divided into two parts. The first gives the theoretical background to the subject, outlining the main theories of the pioneering Melanie Klein, Wilfred Bion and Donald Winnicott. The second part deals with the clinical cases that illustrate issues such as post-natal depression, separation difficulties, eating problems, bereavement and loss, learning disabilities and hyperactivity.

*The Freedom Trap* Dr Craig Hassed,2017-07-01 In many ways we have never been more 'free'. We are freer to follow our dreams, set goals and live the life we choose. Yet mental health issues are sky-rocketing. Anxiety and depression are rife and more people feel overwhelmed by daily living. We are more addictive, distracted and pressured. This is a world that increasingly seems to breed discontent. So, is all our so-called freedom nothing more than a trap of our own making? Are we, as the saying goes, simply decorating the cage that keeps us imprisoned? Does everything that flies under the banner of

freedom actually promote it? What can we do to change the status quo? The Freedom Trap is an inspiring call for clear thinking and a fresh appraisal of what our freedoms mean and can become. In this challenging, confronting and eye-opening look at what freedom actually is — examined from philosophical, psychological, political, social, legal, ethical, scientific, historical and neurological perspectives — mindfulness expert Associate Professor Craig Hassed explores how we can alleviate our burdens (our worries, regrets and material desires) and find a life of peace, happiness and harmony — true freedom. Including practical thinking steps to help further your understanding of what freedom really means, this book is essential reading for anyone who has ever thought ‘there has to be more to life than this’.

Disability Histories Susan Burch, Michael Rembis, 2014-12-30 The field of disability history continues to evolve rapidly. In this collection, Susan Burch and Michael Rembis present essays that integrate critical analysis of gender, race, historical context, and other factors to enrich and challenge the traditional modes of interpretation still dominating the field. Contributors delve into four critical areas of study within disability history: family, community, and daily life; cultural histories; the relationship between disabled people and the medical field; and issues of citizenship, belonging, and normalcy. As the first collection of its kind in over a decade, Disability Histories not only brings readers up to date on scholarship within the field but fosters the process of moving it beyond the U.S. and Western Europe by offering work on Africa, South America, and Asia. The result is a broad range of readings that open new vistas for investigation and study while encouraging scholars at all levels to redraw the boundaries that delineate who and what is considered of historical value. Informed and accessible, Disability Histories is essential for classrooms engaged in all facets of disability studies within and across disciplines.

*New Feminist Stories of Child Sexual Abuse* Paula Reavey, Sam Warner, 2003 Child sexual abuse is a multifaceted event, interpreted in many different ways, in many different contexts. In *New Feminist Stories of Child Sexual Abuse*, contributors

try to untangle some of the complex ways in which stories of child sexual abuse are translated through and into personal, professional and social politics. The first section of the book explores the cultural and political landscape of child sexual abuse in Western and non-Western contexts. It examines the ways in which radical aspects of feminism can be undermined in Western cultures and how Westernised ideologies of childhood, sex and gender have been used to structure discussions about child sexual abuse across the world. The second section traces the effects of these wider cultural and political narratives through the various contexts in which child sexual abuse is theorised and around which interventions in the lives of women are structured. It provides insights into how traditional approaches to understanding harm can be challenged and reworked in practice, using alternative therapeutic models based on feminist post-structuralist agendas. Reworking earlier feminist analyses, *New Feminist Stories of Child Sexual Abuse* asks pertinent questions about how child sexual abuse is produced, rather than merely represented, in the ways we speak about it.

**Who Gets Sober? And Who Struggles To Get Sober?** Roy Nichols, 2022-08-01 Who Gets Sober and Who Struggles to

Get Sober? explores why some who attempt to get and live sober find sobriety so elusive and difficult. Eighty nuanced questions are asked and discussed from the perspective of the fundamental question: why did you relapse? This book identifies those ways in which a person is vulnerable to a relapse. Then that person can choose to study and address those vulnerabilities and lower the possibility of a relapse. These eighty nuanced questions about relapse are an excellent diagnostic tool for those who relapse, for sponsors of the still struggling alcoholic, and as an assessment tool for alcohol and drug treatment programs.

**The Oxford Handbook of Dialectical Behaviour Therapy** Michaela A. Swales, 2018-10-25 Dialectical behavior therapy (DBT) is a specific type of cognitive-behavioral psychotherapy developed in the late 1980s by psychologist Marsha M. Linehan to help better treat borderline personality disorder. Since its development, it has also been used for the treatment of other kinds of mental health disorders. The Oxford Handbook of DBT charts the development of DBT from its early inception to the current cutting edge state of knowledge about both the theoretical underpinnings of the treatment and its clinical application across a range of disorders and adaptations to new clinical groups. Experts in the treatment address the current state of the evidence with respect to the efficacy of the treatment, its effectiveness in routine clinical practice and central issues in the clinical and programmatic implementation of the treatment. In sum this volume provides a desk reference for clinicians and academics keen to understand the origins and current state of the science, and the art, of DBT.

The Danger Model Madelaine Caritas Longman, 2019-10-23 This is poet's poetry, written with keen attention to inner harmonies and the see-saw of words. In an era of Instagram-driven micro-poetry, aka 'Like Poems,' all flimsy and whimsy, The Danger Model is an actual book crammed with actual poems. A vivid, fearless re-visiting of beloved free verse tropes, from dense, manic prose poems to singing, call-and-response, otherworldly hymns. A generous book, The Danger Model hardly feels like a first book. Rather the opposite - a collected works by a senior poet. Quebec Writers' Federation Concordia University First Book Prize jury

Destiny of Detours Amy Allison, 2017-07 This story follows a young woman's life journey from conception into her sixties. It is a story of fear, shame, hope, and redemption. Anyone who has encountered addiction and/or mental illness in their lives, either themselves or others around them, may be able to relate. This book is also for all who get discouraged by what is dealt to them as they search for meaning in their lives. The story is of a Midwestern girl born in the 1950's. The negative behavior demonstrated to her by her parents were etched upon her impressionable mind. She had no self-esteem and struggled as an adult to glean validation for herself whenever possible. As an adult, she blindly felt her way through the labyrinth of her life, with no sense of direction, purpose, and certainly no moral compass. She fell victim to her own knee-jerk reactions and ran into road-blocks constantly. She often had to re-route her derailed life in trying to regain her balance and momentum. Hers was a destiny of detours.
