Historia de la Literatura Universal I Martín de Riquer Morera,José María Valverde Pacheco,2024-05-08 La célebre Historia de la literatura universal es la más completa y lúcida síntesis que existe en castellano sobre las literaturas de todas las épocas, desde sus más remotos orígenes hasta las puertas del siglo XXI. Con una prosa ágil y un sugestivo espíritu crítico, Martín de Riquer y José María Valverde ofrecen un análisis profundo de los principales escritores y obras, al tiempo que conforman una visión global de los distintos movimientos y acontecimientos literarios. En este primer volumen, tras una inmersión en las literaturas orientales que han encontrado proyección sobre Europa (sánscrita, hebrea y árabe), se analizan las obras legadas por Grecia y Roma, para abrir paso a la Edad Media y el Renacimiento europeos, hasta la época barroca.

Literatura 1 "un Enfoque Constructivista" Maribel Martínez,Maribel Martínez Hernández,2006 The fundamental purpose of this book is to create in the student a closeness with general culture through language and artistic creativeness, being that this can provide a vision acquired completely through subjects for this degree. We can also assure you that this book is constructive, like what is expected and required for this subject, being that its methodology contains all of the essential ingredients for this focus.

Literatura Universal Baez Pinal, Gloria Estela, Herrera Lima, María Eugenia, 2020-11-04 El propósito de esta obra es que, a través de la lectura analítica, el estudiante reconozca el valor de las grandes obras de la literatura universal para que logre afinar su sensibilidad estética y enriquecer su visión del arte.

Mito y epopeya, I Georges Dumézil, 2016-03-07 Mito y epopeya es el resultado de los estudios comparativos de Georges Dumézil, dividido en tres tomos. La obra refiere la idiosincrasia, la teología y la mitología comunes en los pueblos indoiranios, griegos, latinos, germanos y celtas y expone su hipótesis de trifuncionalidad (los sagrado, la fuerza física y la abundancia) presente en el esquema cultural común a estos pueblos, según Dumézil, la cultura indoeuropea. El estudio tuvo como principales resultados: determinar la forma en que dichas culturas se plasmaron dentro de un corpus mitológico, y contribuir en el aún tortuoso conocimiento de la historias de los pueblos antiguos.

La fiesta del nacimiento de nuevos sentidos. Ensayos sobre narrativa latinoamericana Fajardo Valenzuela, Diógenes, 2014-08-13 El rasgo interdisciplinario de los estudios literarios de nuestro tiempo ocasiona que sean cada vez más escasas las lecturas en donde la literatura es la base de la argumentación. En los textos que reúne *La fiesta del nacimiento de nuevos sentidos. Ensayo sobre narrativa latinoamericana*, se ve que no se trata de renunciar a esas otras disciplinas, sino de darles el lugar que les corresponde en los estudios literarios, de tal suerte que, para el crítico, la referencia histórica no invalida el texto de la novela, las modas teóricas no sustituyen el placer de leer, y la sólida construcción del argumento no atenúa el valor pedagógico del texto.

Teoría de la literatura Antonio Regalado González, 1931

La Guerra de la Independencia en la cultura española Joaquín Álvarez Barrientos, 2009-12-01 Este libro es el relato fragmentario y crítico, en forma de mosaico, de las interpretaciones y representaciones que desde muy pronto se hicieron de la Guerra de la Independencia. Desde 1808 hasta el presente año existe una continuidad en su consideración como momento histórico de máxima relevancia, como episodio que cambió nuestra historia y sirvió para aglutinar y dar visibilidad a tendencias y fenómenos políticos e ideológicos que estaban latentes al menos desde los años ochenta del siglo XVIII. Por ello, se ha querido atender más a cómo se pensó, interpretó y utilizó la guerra que a cuestiones estrictamente contemporáneas de ella o con ella relacionadas, sin dejar por ello de lado determinados elementos internos o inmediatamente posteriores a los hechos bélicos. Así, tienen cabida en estas páginas cuestiones como la relación entre la disputa ideológica y la construcción de la ciudadanía, la trayectoria del mito colectivo o la figura del «pueblo», como agente o sujeto histórico y político. El objetivo perseguido no es hacer una historia de la Guerra de la Independencia ni de su interpretación, sino favorecer

acercamientos diferentes y parciales que propicien análisis novedosos y se centren en disciplinas, aspectos y ámbitos concretos y variados, de modo que se pueda reflexionar sobre cómo los hechos del pasado —en este caso, los relativos al conflicto armado— cambian de significado según el contexto en que se piensa sobre ellos, según quiénes lo hagan, qué valores defiendan o quieran promocionar y en función del público al que se dirigen.

Mito y epopeya, III Georges Dumézil,2016-07-07 La historia romana de los primeros siglos de mediados del siglo VIII a mediados del IV a.C., se presenta hoy como una obra novelesca en el sentido más preciso del término. Al margen de la historia regia preetrusca, en la que en estudios anteriores se ha destacado la humanización de antiquísimos mitos indoeuropeos como prerromanos, el autor estudia aquí los relatos que se refieren a los siglos V y IV a.C.: la guerra contra los etruscos de Veyes y las vidas de tres héroes, Camilo, Curiolano y Publícola.

Historia de la literatura romana Carl Winter,2025-07-01 Brillante representante del conjunto de filólogos alemanes dedicados al estudio de los clásicos, Ernst Bickel tiene entre sus mayores logros la Historia de la literatura romana. Exhaustiva, concienzuda y rigurosa, esta obra se convirtió tras su publicación en un referente para el estudio de las letras latinas. Su valor y su vigencia en lo fundamental están fuera de toda duda, ya que su metodología, su erudición y su desarrollo de la materia la convierten en una de las mejores guías para introducirse en la cultura del mundo romano antiguo.

Antología de la Literatura Española: Siglos XVIII y XIX Barbara Mujica,Eva Florensa,2008-10-01 Antología de la Literatura Española: Siglos XVIII y XIX challenges traditional concepts of eighteenth- and nineteenth-century Spanish literature by providing exciting new material never before available in modern editions. It includes examples of popular dramatic genres, such as the sainete and the zarzuela usually excluded from anthologies, and recognizes the contributions of women writers such as Gertrudis Hore, Carolina Coronado, Gertrudis Gómez de Avellaneda, Rosal'a de Castro, Concepción Arenal, Cecilia Böhle de Faber (Fernán Caballero), and Emilia Pardo Bazán. Siglos XVIII y XIX dashes the commonplace that there was little novelistic activity during the eighteenth century through the inclusion of selections from a wide range of fiction. In addition, it incorporates fascinating new research on the theoretical basis for the development of the novel during the 1700s. This anthology also challenges the notion that the baroque withered after Calderón. Examples from the works of transitional poets and playwrights illustrates that baroque styles and themes continued to be popular throughout much of the century. In the area of nineteenth-century literature, Siglos XVIII y XIX is the first anthology to provide a truly balanced view of the political, social, and literary debates of the period. It includes ideological prose by a wide variety of thinkers: conservatives as well as liberals, Neo-Catholics as well as Krausists. Unlike other collections on the market, this volume gives a thorough account of the development of the historical novel and of the novela de costumbres contemporáneas

during both the first and second halves of the century. While in their critical introductions the editors avail themselves of the very latest research, they avoid modern (and often inaccurate) terminology, preferring the terminology used by nineteenth-century theorists themselves.
