Alan Booth,Ann C. Crouter,Anastasia Snyder

Romance and Sex in Adolescence and Emerging Adulthood Alan Booth,Ann C. Crouter,Anastasia Snyder,2015-12-07 In this classic edition top scholars in family research examine the nature and origin of adolescents' contemporary patterns of sexual and romantic relationships, from the evolutionary roots of these behaviors to policies and programs that represent best practices for addressing these issues in schools and communities. The text offers interdisciplinary expertise from scholars of psychology, social work, sociology, demography, economics, human development and family studies, and public policy. Adolescents and young adults today face very different choices about family formation than did their parents' generation, given such societal changes as the rise in cohabitation, the increase in divorce rates, and families having fewer children. This book examines these demographic trends and provides a backdrop against which adolescents and emerging adults form and maintain romantic and sexual relationships. This book addresses such questions as: *What are the ways in which early family and peer relationships give rise to romantic relationships in the late adolescent and early adult years? *How do early romantic and sexual relationships influence individuals' subsequent development and life choices, including family formation? *To what extent are current trends in romantic and sexual relationships in adolescence and emerging adulthood problematic for individuals, families, and communities, and what are the most effective ways to address these issues at the level of practice, program, and policy? Ideal as a supplement in graduate or advanced undergraduate courses on interpersonal (romantic) relationships, adolescent development, human sexuality, couples and/or family and conflict, sociology of children and youth, family therapy taught in human development and family studies, clinical or counseling psychology, social work, sociology, communications, and human sexuality this book also appreciated by researchers and clinicians/counselors who work with families and adolescents.

Well, that is what is being offered to each of us. This book takes the reader through that very love story, from the initial glow of attraction and the first date, to courtship, and finally marriage. With each chapter firmly based in the book of Revelation and thoroughly examined in the perspective of the Bride of Christ, Wayne Skinner shows the incomparable love of Jesus—our Bridegroom—through His sacrifice for His Beloved.

Gendered Modernisms Margaret Dickie, Thomas Travisano, 2016-11-11 Thirteen original essays on Gertrude Stein, H. D., Marianne Moore, Edna St. Vincent Millay, Laura (Riding) Jackson, Elizabeth Bishop, Muriel Rukeyser, and Gwendolyn Brooks demonstrate how these women expand the social, textual, and political boundaries of modernism. The collection places these poets in the context of their times, examining the conditions that helped shape their vivid and diverse poetic careers and reconsidering some of the assumptions that have led to their exclusion from the main narratives of modernist poetry. Ultimately, the aim is to enlarge the literary history of the movement—for gendered, modernism extends backward to the first years of the century, and forward to the beginnings of postmodernism in the 1960s.

Romancing Yesenia Masha Salazkina, 2024-08-06 This book considers the unexpected and mostly unexamined popularity of the Mexican film *Yesenia* (Alfredo B. Crevenna, 1971) in the Soviet Union. Set during the Second Franco-Mexican war, this unassuming movie melodrama was based on a successful television series, itself an adaptation of a popular women's romance graphic novel, a genre that was extremely common in mid-century Mexico. Screened in the Soviet Union in 1975, *Yesenia* became the highest grossing film in the history of Soviet film exhibition, unsurpassed by any movie, foreign or domestic. Based on ticket sales alone, it was seen by an astounding 91.4 million viewers in only the first year of its release. *Yesenia's* popularity in the socialist bloc, largely unbeknown to its Mexican producers, continued for decades after its initial release as the film migrated from cinemas to television screens and video. Boosted by its success with Soviet audiences, the film enjoyed a similarly spectacular exhibition history in China in the late 1970s, when the country was opening itself up to more international media, paving the way for other Mexican and Latin American productions broadcasted on Chinese television in decades to follow. Approaching this period retrospectively, cognizant of more contemporary developments in the global media, I conceive of this episode in film history through a framework of television culture whose increasing impact, I argue, shaped both the film's Mexican production and its subsequent reception within the Socialist bloc. I also argue that *Yesenia's* popularity carved out a crucial node within the global circuit of cultural and industrial networks, further enabling Latin American media's transcontinental reach--Provided by publisher.

Women of Words in Le Morte Darthur Siobhán M. Wyatt, 2016-10-05 Offering a new reading of Malory's famed text, *Le Morte Darthur*, this book provides the first full-length survey of the alterations Malory made to female characters in his source texts. Through detailed comparisons with both Old French and Middle English material, Siobhán M. Wyatt discusses how Malory radically altered his French and English source texts to create a gendered pattern in the reliability of speech, depicting female discourse as valuable and truthful. Malory's authorial crafting indicates his preference for a certain "type" of female character: self-governing, opinionated, and strong. Simultaneously, the portrayal of this very readable "type" yields characterization. While late medieval court records indicate an increasingly negative attitude towards female speech and a

tendency to punish vociferous women as “scolds,” Malory makes the words of chiding damsels constructive. While his contemporary writers suppress the powers of magical women, Malory empowers his enchantress characters; while the authors of his French source texts accentuate Guinevere’s flaws, Malory portrays her with sympathy.

The Romance of Libraries Madeleine Lefebvre, 2005-11-17 In the halls of knowledge, amidst the towering stacks of books, more than just facts and fiction await. The Romance of Libraries is a collection of true accounts of emotional attachments formed in and with libraries and the library field. Madeleine J. Lefebvre has gathered personal narratives from around the world from people who work in or use libraries. From the very young to those in their nineties, these people share their tales of love. While most accounts are about romances that developed in a library setting, some are about romances with libraries themselves. Loosely arranged by context, the stories—happy, sad, or bittersweet—share an over-arching theme of the transformative and emotive power of libraries in our lives. Lefebvre's underlying message is that the physical library can play a role in our affections that the virtual library never can.

Spanish Women in the Golden Age Alain Saint-Saens, Magdalen Sánchez, 1996-02-13 The history of women in early modern Spain is a largely untapped field. This book opens the field substantially by examining the position of women in religious, political, literary, and economic life. Drawing on both historical and literary approaches, the contributors challenge the portrait of Spanish women as passive and marginalized, showing that despite forces working to exclude them, women in Golden Age Spain influenced religious life and politics and made vital contributions to economic and cultural life. The contributors seek to incorporate the study of Spanish women into the current work on literary criticism and on the intersection of private and public spheres. The authors integrate women into subfields of Spanish history and literature, such as Inquisition studies, the Spanish monarchy, Spain's economic and political decline, and Golden Age drama. The essays demonstrate the necessity and value of incorporating women into the study of Golden Age Spain.

Teaching the Italian Renaissance Romance Epic Jo Ann Cavallo, 2018-12-01 The Italian romance epic of the fifteenth and sixteenth centuries, with its multitude of characters, complex plots, and roots in medieval Carolingian epic and Arthurian chivalric romance, was a form popular with courtly and urban audiences. In the hands of writers such as Boiardo, Ariosto, and Tasso, works of remarkable sophistication that combined high seriousness and low comedy were created. Their works went on to influence Cervantes, Milton, Ronsard, Shakespeare, and Spenser. In this volume instructors will find ideas for teaching the Italian Renaissance romance epic along with its adaptations in film, theater, visual art, and music. An extensive resources section locates primary texts online and lists critical studies, anthologies, and reference works.

From the Forest Sara Maitland, 2013-10-29 An insightful, beautifully written study of how nature has influenced popular fairy tales like Rapunzel and Little Red Riding Hood—pairing 12 modern retellings with detailed histories of Northern European forests. Fairy tales are one of our earliest cultural forms, and forests one of our most ancient landscapes. Both evoke similar sensations: At times, they are beautiful and magical, at others—spooky and sometimes horrifying. Maitland argues that the terrain of these fairy tales are intimately connected to the mysterious secrets and silences, gifts, and perils. With each chapter focusing on a different story and a different forest visit, Maitland offers a complex history of forests and how they shape the themes of fairy tales we know best. She offers a unique analysis of famous stories including Rapunzel, Hansel and Gretel, Snow White, Little Red Riding Hood, Rumpelstiltskin, and Sleeping Beauty. Maitland uses fairy tales to explore how nature itself informs our imagination, and she guides the reader on a series of walks through northern Europe's best forests to explore both the ecological history of forests and the roots of fairy tales. In addition to the twelve modern retellings of these traditional fairy tales, she includes beautiful landscape photographs taken by her son as he joined her on these long walks. Beautifully written and impeccably researched, Maitland has infused new life into tales we've always thought we've known.

The Challenge of Periodization Lawrence Besserman, 2014-02-04 In these essays some of today's leading literary scholars

and cultural critics re-examine major writers, genres, and themes in relation to their traditional period affiliations. The essays cover a broad range of writers and periods from the Middle Ages to the present, grouped in two main areas: Chaucer and Medieval and Renaissance studies (Larry D. Benson, Heiko A. Oberman, Lee Patterson, and Aldo Scaglione), and English and American literary history (Sanford Budick, H. M. Daleski, Denis Donoghue, Robert J. Griffin, Geoffrey Hartman, J. Hillis Miller, Jerome McGann, and Helen Vendler). In addition to shedding new light on a specific author, each essay also refines or reinvigorates critical approaches to specific periods. The analyses illuminate and clarify our understanding of what are traditionally but problematically called the Medieval, Renaissance, Enlightenment, Romantic, Modern, and Postmodern eras in European cultural history.

The Evolution of Arthurian Romance Beate Schmolke-Hasselmann,1998-05-28 This 1998 study serves as a contribution to both reception history, examining the medieval response to Chrétien's poetry, and genre history, surveying the evolution of Arthurian verse romance in French. It describes the evolutionary changes taking place between Chrétien's *Eric et Enide* and Froissart's *Meliador*, the first and last examples of the genre, and is unique in placing Chrétien's work, not as the unequalled masterpieces of the whole of Arthurian literature, but as the starting point for the history of the genre, which can subsequently be traced over a period of two centuries in the French-speaking world. Beate Schmolke-Hasselmann's study was first published in German in 1985, but her radical argument that we need urgently to redraw the lines on the literary and linguistic map of medieval Britain and France is only now being made available in English.

The World's Greatest Idea John Farndon, 2010-10-07 Where would humanity be now without fire, vaccinations, farming ... or wine? A great idea is one that has changed the path of human civilisation. But which is the greatest of them all? John Farndon, author of the bestselling *Do You Think You're Clever?*, has set out to find the answer. A distinguished panel of experts agreed on a list of 50 ideas, and each chapter of *The World's Greatest Idea* sees Farndon explore the argument for a different one. The candidates are intriguingly varied: Electricity grids enable us to power our cities, but then sewers allowed those cities to grow. Without the wheel, modern civilisation would be pretty much impossible, but take away Logic and we'd lose the essential structures for rational thought ... But then what would be the point of all of this without the idea of romance? *The World's Greatest Idea* is an enthralling voyage of discovery through the most powerful intellectual, social, scientific and creative brainwaves humans have ever had. They are ranked in the book determined by a public vote on www.theworldsgreatestidea.com But will you agree with the verdict?
