**Girls with Bright Futures** Tracy Dobmeier, Wendy Katzman, 2021-02-02 For those who couldn't stop reading about Lori Loughlin and Operation Varsity Blues, this suspenseful thriller about the lines moms are willing to cross to get their kids into college is for you.—Refinery29 Book Club Winner.—Real Simple, Book Club Selection A thriller for the post-college-admission-scandal age.—PopSugar Named a Most Anticipated Book of 2021 by Parade Magazine, Newsweek, POPSUGAR, Refinery29, Brit + Co, and more! Three women, three daughters, and a promise that they'll each get what they deserve... College admissions season at Seattle's Elliott Bay Academy is marked by glowing acceptances from top-tier institutions and students as impressive as their parents are ambitious. But when Stanford alerts the school it's allotting only one spot to EBA for their incoming class, three mothers discover the competition is more cutthroat than they could have imagined. Tech giant Alicia turns to her fortune and status to fight for her reluctant daughter's place at the top. Kelly, a Stanford alum, leverages her PTA influence and insider knowledge to bulldoze the path for her high-strung daughter. And Maren makes three: single, broke, and ill-equipped to battle the elite school community aligning to bring her superstar down. That's when, days before applications are due, one of the girls suffers a near-fatal accident, one that doesn't appear to be an accident at all. As the community spirals out of control, three women will have to decide what lines they're willing to cross to secure their daughters' futures...and keep buried the secrets that threaten to destroy far more than just college dreams. The perfect book club read with a suspense bite, *Girls with Bright Futures* combines the college admissions scandal with the edge of *Big Little Lies*, the snark of *Class Mom*, and the schadenfreude of watching the elite implode.

Clinical Preventive Services for Women Institute of Medicine, Board on Population Health and Public Health Practice, Committee on Preventive Services for Women, 2011-10-27 Women suffer disproportionate rates of chronic disease and disability from some conditions, and often have high out-of-pocket health care costs. The passage of the Patient Protection and Affordable Care Act of 2010 (ACA) provides the United States with an opportunity to reduce existing health disparities by providing an unprecedented level of population health care coverage. The expansion of coverage to millions of uninsured Americans and the new standards for coverage of preventive services that are included in the ACA can potentially

improve the health and well-being of individuals across the United States. Women in particular stand to benefit from these additional preventive health services. Clinical Preventive Services for Women reviews the preventive services that are important to women's health and well-being. It recommends that eight preventive health services for women be added to the services that health plans will cover at no cost. The recommendations are based on a review of existing guidelines and an assessment of the evidence on the effectiveness of different preventive services. The services include improved screening for cervical cancer, sexually transmitted infections, and gestational diabetes; a fuller range of contraceptive education, counseling, methods, and services; services for pregnant women; at least one well-woman preventive care visit annually; and screening and counseling for interpersonal and domestic violence, among others. Clinical Preventive Services for Women identifies critical gaps in preventive services for women as well as measures that will further ensure optimal health and well-being. It can serve as a comprehensive guide for federal government agencies, including the Department of Health and Human Services and the Center for Disease Control and Prevention; state and local government agencies; policy makers; health care professionals; caregivers, and researchers.

Olivia's academic and magical performance has been spectacular, so the school wants to recommend her for the position of "King's Pupil," a prestigious and coveted title that will afford her special privileges and duties even at her young age. However, accepting the title means saying goodbye to the Academy, leaving the school life and friends she has grown to know and love behind to enter private tutoring. As the dragon searches for some kind of compromise from the unbending Phyllis, he discovers there may be a better angle to approach the problem from, and a much more important problem that needs to be solved.

Why Do They Act that Way? David Allen Walsh, Nat Bennett, 2004 This practical, accessible, science-based guide explores the natural developmental changes in the teen brain and how they affect behavior--and what parents and teachers can do about the challenging problems that arise as a result.

**African American Girls and the Construction of Identity** Sheila Walker, 2020-07-07 In *African American Girls and the Construction of Identity*, Sheila Walker closely examines socioeconomic class and explores the way it shapes how African American girls experience race and gender in the process of their identity formation. While all the girls who participated in the two-year study are African American, their lives are racialized and gendered in significantly different ways, in both public and private spaces. Affluence is not a guaranteed protection against the identity-damaging effects of racism, and poverty is not necessarily a risk factor for an irresolute identity. By examining identity through the lens of class, Walker provides researchers, educators, and parents a more in-depth appreciation of what is a very complex, multi-layered phenomenon.

**Women and the War on Boko Haram** Hilary Matfess, 2017-11-15 For over a decade, Boko Haram has waged a campaign of terror across northeastern Nigeria. In 2014, the kidnapping of 276 girls in Chibok shocked the world, giving rise to the #BringBackOurGirls movement. Yet Boko Haram's campaign of violence against women and girls goes far beyond the Chibok abductions. From its inception, the group has systematically exploited women to advance its aims. Perhaps more disturbing still, some Nigerian women have chosen to become active supporters of the group, even sacrificing their lives as suicide bombers. These events cannot be understood without first acknowledging the long-running marginalisation of women in Nigerian society. Having conducted extensive fieldwork throughout the region, Hilary Matfess provides a vivid and thought-provoking account of Boko Haram's impact on the lives of Nigerian women, as well as the wider social and political context that fuels the group's violence.

Prevention of Violence Against Women and Girls Tamsin Bradley, Janet Gruber, 2021-09-16 Prevention of Violence Against Women and Girls argues that women and girls are vulnerable across all areas of society, and that therefore a commitment to end violence against women and girls needs to be embedded into all development programmes, regardless of sectorial focus. This book presents an innovative framework for sensitisation and action across development programmes, based on emerging best practices and lessons learnt, and illustrated through a number of country contexts and a range of programmes. Overall, it argues that SDG 5 can only be achieved with a systematic model for mainstreaming an end to violence against women and girls, no matter what the priorities of the particular development programme might be. Demonstrating how the approach can be applied across contexts, the authors explore cases from the energy sector, health and humanitarian intervention, and from countries as varied as South Sudan, Myanmar, Rwanda, Nepal, and Kenya. Drawing on nearly three decades of experience working on gender, health, and violence against women programmes as both practitioners and academics, the authors present key lessons which can be used by students, researchers, and practitioners alike.

When she arrives for the interview, a lone girl the same age as Gretchen, Helly Danaher, sits in a chair waiting with a forlorn face. As things begin to unfold the girls quickly realise this is no ordinary job offer. This is the Dassindale mansion, home of the notorious vampiress the Countess Bernadene Dassindale, who's only prerogative is to become the most powerful vampire to rule the underground at the expense of young blood. Together, Gretchen and Helly begin a fight for survival, friendship and trust, as they desperately try to find a way to escape the Countess's clutches and embark on a journey they never would have expected in this lifetime, or indeed...in this world.

**Count Girls In** Karen Panetta,Katianne Williams,2018-08-01 Maybe you have a daughter who loves cooking, soccer, and musicals. Maybe she's a social butterfly, an athlete, a fashionista, and a humanitarian who wants to change the world. Be honest—do you think, Well, she's clearly not a math and science kid? Do you assume that certain classes and careers won't appeal to her? Count Girls In challenges these assumptions and presents a totally different way of thinking: there is a place for all girls and young women—not just the science fair winners and robotics club members—in science, technology, engineering, and math (STEM) fields, if we can keep their (and our) minds and options open and meet them where they are. To succeed in STEM fields today, girls don't have to change who they are. A girl who combines her natural talents, interests, and dreams with STEM skills has a greater shot than ever before at a career she loves and a salary she deserves. Count Girls In encourages parents and other adults to raise authentic young women who have the confidence to put STEM to work in a way that best serves them and their passions. The authors, both STEM professionals, present compelling research in a conversational, accessible style and provide specific advice and takeaways for each stage of schooling, from elementary school through college, followed by comprehensive STEM resources. This isn't a book about raising competitive, test-acing girls in lab coats; this is about raising happy, confident girls who realize the world of opportunities before them.
