

Lead Me Follow Me Or Get Out Of My Way

James Dunnigan

Lead Me, Follow Me, Or Get Out of My Way Mark R. Shulman, 2012 This monograph explains why robust civil-military relations matter and discusses how they are evolving. Part I examines the jurisprudence that has reshaped civil-military relations. The author maintains that since the Vietnam era, the U.S. Supreme Court has hewn the armed forces from general society in order to create a separate -- and more socially conservative -- sphere. Part II argues that the nation's polity is in decline and that the increasingly politicized armed forces may force a change in government. Part III asks, Where do we go from here? This monograph attributes a thinning of civilian control over the military to specific legal and political decisions. They explain some of the most important implications of this transformation and offer proposals about how to improve that critical relationship for the sake of enhancing the effectiveness of the armed forces and the vitality of the republic. This monograph goes on to examine briefly the evolving great power politics, the effects new technologies have on long-standing distinctions and borders, and the relative rise of non-state actors including al Qaeda -- three sets of exogenous factors that inevitably drive changes in the civil-military relationship. In the end, this monograph points to a more ambitious enterprise: a complete reexamination of the relationship between force and society.

The Twelfth Wonder of the World Jerry L. Rhoads, 2017-08-31 Poetry is so personal. It is hard to convince readers to take the time to feel the words, not just read them. The Eighth Wonder of the World presents something we all possess and don't realize its value. So for this fifth book, The Twelfth Wonder of the World, to resonate with the buyer/reader, a love of poetry will initially be the reason it sells. After that, it will be the value to each reader as they capitalize on the wonders we all possess. The series of Wonders of the World poems are to relate all humans on Earth to a common denominator. The mind (eighth wonder) and the soul (ninth wonder) are our human metaphysical commonalities, whereas the heart (tenth wonder) and the brain (the eleventh wonder) are physical commonalities to all of us as individuals. And finally, the spirit (twelfth wonder), our infinite energy, is what each of us are metaphysically, for the infinite trip from here to there, the final wonder.

Game Changer Fergus Connolly, Phil White, 2017-09-05 Team sports like football, basketball, soccer, and rugby are hugely popular the world over, on both college and professional levels, and such popularity means that they are big business. Very big. Broadcasting rights alone bring in billions: ESPN paid \$5.6 billion to broadcast college football playoffs for twelve years; Turner Sports/CBS shelled out \$10.4 billion to show the national college basketball tournament through 2024; and the most

recent NBA TV deal came in at a cool \$26.4 billion. As the rewards for winning have increased, it's no surprise that sports team budgets have followed suit. Sure, the athletic program at the University of Texas brought in \$161 million last year, but the Longhorns also spent \$154 million over the same period. Fifteen other college athletics program also racked up over \$100 million in annual expenses. But that's child's play compared to the outgoings at the world's most valuable soccer team, Manchester United, which spent more than \$500 million in 2015. The trouble is that all this spending often fails to yield better results. Teams in all sports have tried just about every gimmick to "hack" their way to better performance. But as they've gotten stuck in stats, mired in backroom politics, and diverted by the facilities arms race, many have lost sight of what should've been their primary focus all along: the game itself. In *Game Changer*, Fergus Connolly shows how to improve performance with evidence-based analysis and athlete-focused training. Through his unprecedented experiences with teams in professional football, basketball, rugby, soccer, Aussie Rules, and Gaelic football, as well as with elite military units, Connolly has discovered how to break down the common elements in all sports to their basic components so that each moment of any game can be better analyzed, whether you're a player or a coach. The lessons of game day then can be used to create valuable learning experiences in training, evaluate the quality of your team's performance, and home in on what's working and what isn't. *Game Changer* also shows you how to expand training focus from players' physical qualities to advance athletes technically, tactically, and psychologically. Connolly's TTPP Model not only helps players continually progress but also stops treating them like a disposable commodity and instead prioritizes athlete health. Bringing together the latest evidence-based practices and lessons from business, psychology, biology, and many other fields, *Game Changer* is the first book of its kind that helps coaches, athletes, and casual fans:

- Create a cohesive game plan that improves performance through defined objectives, strategies, and tactics
- Put statistical analysis and technology into context so teams can bypass the hype and get meaningful results
- Identify dominant qualities to maximize during training and limiting factors to improve
- Create realistic, immersive learning experiences for individual players and the entire team that deliver defined outcomes
- Structure player development with a new, holistic model that puts athlete health first and helps reduce the chance of injury and burnout
- Balance training load so that all players are fresh and ready to play at their best in competition
- Rethink coaching and organizational leadership and enhance communication, group dynamics, and player interaction
- Create a winning team culture

Wisdom of the American Bandito Sreechinth C, One of the highly respected war generals in the US history, George S Patton was the first to lead the tank forces in World War I. Patton, the pioneer of tank warfare, was the crucial officer in commanding the US Seventh Army during the World War II following the Allied invasion of Normandy and was key in detaching Germany from the Nazis. This tough, strict disciplined general was often referred as the "Old Blood-and-Guts" by his fellow men. However, George Patton's impudent actions and mercurial temper drag him to many controversies during his

career. This book 'Wisdom of the American Bandito: George S. Patton Quotes', have the biggest collection of commanding words of this legendary general

Smart Is Not Enough! Alan C. Guarino, 2007-06-30 The Information Age is OVER -- In business today, it is all about TALENT! Smart Is Not Enough explains the core issue of 21st century business. Forget technology - Forget outsourcing TALENT is the #1 challenge in your organization. Whether you're a CEO or an entry level college grad; whether you manage a staff or not, this book is for you. It can help in career planning, in developing your management strategy, or just help you understand the playing field in business today. Author Alan Guarino explains the full gamut of cutting-edge talent management, from how to find it, develop it, deploy it and lead it, to his South Pole Theory of hidden talent talent as a solution for the shortage of critical talent in the business world of the 21st Century. The South Pole Theory explains that traditionally, corporations biased their talent searches towards those who performed at the top of their academic classes. Yet, some of the most successful executives and business leaders weren't good students themselves. Grades aren't the only predictor of success in the real business world. This book shares techniques for finding those determined, dedicated go-getters who fall through the cracks when we judge them solely on academics. To compete in business today, top companies need to cultivate every available source of talent. This book shows business leaders how to find and capitalize on this special pool of talent-- the future versions of people like Paul Orfalea, founder of Kinkos, Wayne Huizenga of Blockbuster Video, and many others. Alan Guarino (Marlboro, NY) is CEO and co-founder of the executive search firm Cornell International. His firm is now owned by Adecco, the largest recruiting company in the world.

Putting Meaning Into Your Moments Robert Hoff, 2022-11-03 God bless the churches that hear the truth, obey the truth, and teach the truth to others! But there are some churches that seem to be competing with the world to see who can

self-destruct first! Hoff, in his book, *Put Meaning Into Your Moments* calls them the New Age church. He defines their errors as corruption and shows how their leaders are like King Saul, who was afraid of the people and did what they demanded. Entertainment-oriented church programs are like new movies that attract people into a theater. After they've seen it a few times, they lose interest. Kids who were initially attracted by drums and amps are now losing interest in the church. Let's just say it, Liberal Christianity does not last. It's a fraud! The message of the cross of Jesus Christ has the power of God in it, and the New Age church isn't preaching it! They're just making stuff up. Hoff suggests the problem is with their view of the Bible as an inaccurate narrative of creation, sin, and self. To them, Jesus is a two-thousand-year-old senior who knows nothing about cell phones, so how could He know anything about people today. It would be hard to prove this, but people who used to attend church are, no doubt, still yearning for what they didn't find when they were there. The largest church in the world would be the reassembling of these precious souls. If you can imagine yourself overcoming the frustration that is currently stifling your effect on the world around you, then *Put Meaning Into Your Moments* is your kind of book.

Pearls of Wisdom Mamutty Chola, 2019-07-09 The book — *Pearls of wisdom* presents a historical and panoramic view of human civilization. It is a compilation of quotes /sayings of prophets, philosophers, thinkers, poets, emperors, politicians and business tycoons; on various aspects of human lives; be it religions, ethics, morals, business, principles of governance, evolution of science and technology, besides quotes on Nature, Earth, Soul, Love, Beauty, Human Minds, Human Hearts, and Eyes. There are quotes about the qualities of animals; like Dog, Horse, Lion and their influence on human lives. There are in all 26 sections chapters as reflected in the Index. On perusal of these quotes following facts emerge: 1) The human race loves to live in peace. The religions, though was intended to achieve peace in society, have unfortunately been one of the main reasons for wars, crimes, destruction, and genocides because of the intolerance among the believers since faith is blind. Rationality had been and is the first casualty. 2) All the religions are the gifts of the East. The gifts of the west are communism and Atheism. 3) Things once considered as blasphemies have come to be accepted as truth. The example of Galileo Galilei is remarkable. 5) The governing principles have been evolutionary. There can never be a uniformed pattern of governance as peoples differ in their thinking and beliefs for that reasons there have been clashes of civilization down the ages. 6) The exploration of our solar systems is the result of endless and insatiable urge in man to unravel nature. The achievements of science and technology belong to the whole of humanity. I have tried to present a snapshot profile of March of human civilization through the voices of the great minds ever walked on mother earth. This compilation will serve as ready reckoner

Leadership Matters Thomas E. Cronin, Michael A. Genovese, 2015-11-17 Some leaders fundamentally alter the status quo whilst others guide quietly. Most leadership books emphasise specific rules, but Tom Cronin and Michael Genovese see leadership as filled with paradox. *Leadership Matters* offers a different view of leadership - one that builds community and

responds creatively to new situations. Cronin and Genovese argue that leadership is about more than just charisma and set leaders on to a different path - to unleash the power of paradox.

How to Succeed as a First-Time Manager Dr. Terry Carter,2022-10-19 This book is intended for first-time managers/leaders within the first three years of promotion, whether they have a team of one or a team of more than a hundred employees. The motivational and behavioral strategies contained in this book are aimed at and are hoped to save new leaders time, heartache, and grief as they navigate the complexity of personnel, customers, and senior leadership. In addition, the knowledge that will be obtained by new managers/leaders will energize, motivate, and propel new managers/leaders to new growth heights as opposed to stepping down within the first three years.

The Naked Millionaire David Taylor,2010-08-26 This is a book about becoming a millionaire. Not through investment, although you may invest the money that you make. Not through savings, although you will be able to have some of those. And not through betting on the 4.10 at your local race track. This is a 'how to' book like no other, with seven possible paths, all leading to the same outcome. This is your book, not mine. If you do the things in this book you will become a millionaire - it's that simple. So what do you want to do? Be an authentic millionaire? Design a global brand? Start and grow your business? Avoid pitfalls? See what others don't? Become a professional speaker? Write a bestseller? Your book, your choice. This is a work of fact - if, and only if, you do something with it. Otherwise, it's a work of fiction.
