The Politics of Emotion Nuria Silleras-Fernandez,2024-02-15 The Politics of Emotion explores the intersection of powerful emotional states—love, melancholy, grief, and madness—with gender and political power on the Iberian Peninsula from the Middle Ages to the early modern period. Using an array of sources—literary texts, medical treatises, and archival documents—Nuria Silleras-Fernandez focuses on three royal women: Isabel of Portugal (1428–1496), queen-consort of Castile; Isabel of Aragon (1470–1498), queen-consort of Portugal; and Juana of Castile (1479–1555), queen of Castile and its empire. Each of these women was perceived by their contemporaries as having gone mad as a result of excessive grief, and all three were related to Isabel the Catholic (1451–1504), queen of Castile and a woman lauded in her time as a paragon of reason. Through the lives and experiences of these royal women and the observations, judgments, and machinations of their families, entourages, and circles of writers, chronicles, courtiers, moralists, and physicians in their orbits, Silleras-Fernandez addresses critical questions about how royal women in Iberia were expected to behave, the affective standards to which they were held, and how perceptions about their emotional states influenced the way they were able to exercise power. More

broadly, *The Politics of Emotion* details how the court cultures in medieval and early modern Castile and Portugal contributed to the development of new notions of emotional excess and mental illness.

The Rule Book Jaakko Stenros, Markus Montola, 2024-03-12 How games are built on the foundations of rules, and how rules—of which there are only five kinds—really work. Board games to sports, digital games to party games, gambling to role-playing games. They all share one thing in common: rules. Indeed, rules are the one and only thing game scholars agree is central to games. But what, in fact, are rules? In *The Rule Book*, Jaakko Stenros and Markus Montola explore how different kinds of rules work as building blocks of games. Rules are constraints placed on us while we play, carving a limited possibility space for us. They also inject meaning into our play: without rules there is no queen in chess, no ball in Pong, and no hole in one in golf. Stenros and Montola discuss how rules constitute games through five foundational types: the explicit statements listed in the official rules, the private limitations and goals players place on themselves, the social and cultural norms that guide gameplay, the external regulation the surrounding society places on playing, and the material embodiments of rules. Depending on the game, rules can be formal, internal, social, external, or material. By considering the similarities and differences of wildly different games and rules within a shared theoretical framework, *The Rule Book* renders all games

more legible.

The Poem Scachs d'amor (1475). First Text of Modern Chess. Govert Westerveld, 2015-07-26 The Obres e Trobes (the first book printed in Spain in 1474 in Valencia) is an art competition held on March 25 of that year. There are many poets who have poems and couplets in this art competition, and we find three poets among them, writers of scachs d'amor: Francesc Castellvi, Bernard Fenollar and Narcis de Vinyoles. The Obres e Trobes is considered to be the first literary work printed in Spain of which the only known copy in the world is preserved in the University Library of Valencia. It consists of 60 leaves without foliation and signature and is written in Roman letters on paper with hand and star watermark. The three poets, as we see, already knew each other. Seeing the relationship they had with King Ferdinand and knowing his passion for the game of chess, there may be another thing they thought about around 1475. It was time to change the figure of the queen and bishop on the chessboard and inform the King by means of their poem in the form of a manuscript.

La Celestina: Lucena y Juan del Encina. Tomo I Govert Westerveld, 2015-11-15 Lucena era hijo de Juan Ramírez de Lucena, embajador de los Reyes Católicos. Gracias a los viajes de su padre Lucena pudo viajar a Italia y Francia y conocer las innovaciones con respecto al ajedrez y al teatro. Nacido en Aragón, fue en sus años de estudiante de leyes en Salamanca cuando conoció a Juan del Encina. Entre ambos se desarrolló una amistad que iba a durar toda la vida. Lucena estaba trabajando en la imprenta de Nebrija en los años 1493-1495, donde le ayudó con ciertos términos para su diccionario de latín de 1495. Al parecer, Lucena intentaba traducir y editar en castellano libros en latín y así vemos aparecer: Mujeres ilustres en romance (1494) Fábulas de Esopo (1495), los libros de Aeneas Silvo Piccolomini (1496), Repetición de amores y Arte de Ajedrez (1497), Vita Beata (1499), El Jardín de nobles doncellas (1500). Poco después iba a dirigir y editar en Italia las nuevas cenas en la obra de Calisto y Melibea con la valiosa ayuda de su gran amigo Juan del Encina.

Juana I Gillian B. Fleming, 2018-04-03 This book examines the deep and lengthy crisis of legitimacy triggered by the death of Prince Juan of Castile and Aragon in 1497 and the subsequent ascent of Juana I to the throne in 1504. Confined by historiography and myth to the madwoman's attic, Juana emerges here as a key figure at the heart of a period of tremendous upheaval, reaching its peak in the war of the Comunidades, or comunero uprising of 1520-1522. Gillian Fleming traces the conflicts generated by the ambitions of Juana's father, husband and son, and the controversial marginalisation and imprisonment of Isabel of Castile's legitimate heir. Analysing Juana's problems and strategies, failures and successes, Fleming argues that the period cannot be properly understood without taking into account the long shadow that Juana I cast over her kingdoms and over a crucial period of transition for Spain and Europe.
