The Giver of Stars: Reese's Book Club Jojo Moyes, 2021-05-04 #1 NEW YORK TIMES BESTSELLER | A REESE'S BOOK CLUB PICK "A great narrative about personal strength and really captures how books bring communities together." —Reese Witherspoon From the author of the forthcoming *Someone Else's Shoes*, a breathtaking story of five extraordinary women and their remarkable journey through the mountains of Kentucky and beyond in Depression-era America Alice Wright marries handsome American Bennett Van Cleve, hoping to escape her stifling life in England. But small-town Kentucky quickly proves equally claustrophobic, especially living alongside her overbearing father-in-law. So when a call goes out for a team of women to deliver books as part of Eleanor Roosevelt's new traveling library, Alice signs on enthusiastically. The leader, and soon Alice's greatest ally, is Margery, a smart-talking, self-sufficient woman who's never asked a man's permission for anything. They will be joined by three other singular women who become known as the Packhorse Librarians of Kentucky. What happens to them--and to the men they love--becomes an unforgettable drama of loyalty, justice, humanity, and passion. These heroic women refuse to be cowed by men or by convention. And though they face all kinds of dangers in a landscape that is at times breathtakingly beautiful, at others brutal, they're committed to their job: bringing books to people who have never had any, arming them with facts that will change their lives. Based on a true story rooted in America's past, *The Giver of Stars* is unparalleled in its scope and epic in its storytelling. Dancers Amongst the Stars Janny Juddly The Therapist n my Pocket, 2015-01-09 This is a very particular kind of self-help book. It is a book of remembering. Our journey is a spiritual one even if we do not always realise it. We humans spend a lot of time trying to work out who we are, looking for meaning, searching for the big picture. Through a series of beautifully evocative and moving stories, uplifting poems, and insightful observational pieces, you are invited to rediscover the truth of who you really are. As a lecturer in Dynamic Therapy, the authors particular area of research and expertise has been the mind-body-soul connection, as underpinned by the latest research in neuroscience and quantum physics. As a therapist, mindfulness coach, and energy worker in private practice, her work has involved integrating this knowledge with leading edge thinking on spirituality, the workings of the human psyche, the impact of our developmental history, and the power of intention and the unconscious mind upon our experienced reality. Her goal is to incorporate this into her own understanding of the spiritual journey as an awakening woman. The stories, poems, and real life vignettes in this book are an invitation to you, as a fellow traveler and spiritual seeker, to see through compassionate eyes where you have come from, the amazing path you are embarked upon, and to view your experience of living this life, which is unique to you alone, from the

perspective of who you really are: a magnificent spiritual being of light and love and power living a purposeful human experience.

The Stars of Liberty Morsheda Amin, 2021-02-16 The book is about me becoming able to figure out the beauty of the source. Our creative potential is endless. We enjoy our creative process and are willing to use all our will to manifest our dreams. But one thing is missing. We don't know how to receive the creation where we are included with our creative power. To receive creation, we want to be aligned with the universe by dissolving the ego and the barriers that lie between us and unconditional love. When we are aligned with the universe, we are relaxed. Our relaxation allows us to catch the creation with wonderment. And here, we enter the world of fascination, enchantment, splendor. It seems our life is a gift from a higher entity. We all are benefited with the gift, but we don't know about the endless possibilities of the gift. We don't know it because we don't know how to receive the creation in our hearts. In my book, I described who we are in creation and how we can be intimate with the creation to make us free from the sarcastic world. This book is a metaphor. It is all about what works for us and what doesn't work for us. We literally can liberate ourselves if we are able to harness the management of relationships with God and all living beings surrounding us. This is not a religious book. It is all spirituality and how we are already being benefited with spirituality without even knowing it. I just tried to make a bridge over the gap of ignorance. I realized something, and I am asking others to realize the same thing so they can be free as me.

The Legend of the Earth Stars Greg Zenk, 2009-11 What was coming of age like for adolescents who lived during the time before the birth of the United States? Besides the seasons and global warming, how do we account for summer seasons' wild storms? And just where did lightning bugs come from? While today's youth are born into a world where scientists are able to explain many phenomena, really revealing the origin of things as simple as the weather and those magical little insects known as fireflies requires a master storyteller. The Legend of the Earth Stars is a spell-binding account of adventure and self-sacrificing love that will engage both youth and adults in an alternate explanation of some of our planet's everyday occurrences. Exposing the dangers of human greed, this legend offers a Rudyard Kipling-like vision of our natural world, with characters that readers will admire and despise, and a moral that will guide today's youth towards a deeper appreciation for their elders and their own responsibilities as new adult members of our society. This illustrated chapter book appeals to the Just So stories with which many adults are familiar, but in a package that will woo today's excitement-driven youth. The Legend of the Earth Stars divulges not only the importance of courage in the face of egomaniacal men and women, but of honoring the everyday natural world and its mysteries.
