Renovación de centros históricos en grandes ciudades latinoamericanas Ricardo Adrián Vergara, 2008-01-01 Desde una perspectiva social, los centros históricos representan un factor de identidad e imagen de una ciudad, en un doble papel de reconocimiento “hacia afuera”, por la imagen que transmite de sí misma, como “hacia dentro”, por la identificación que cada habitante tiene de esta. Pero los centros históricos también pierden valor simbólico y representativo debido al desinterés y desidia de las administraciones urbanas, que se evidencia, entre otros aspectos, en la segregación de las dinámicas sociales que en ellos se presenta.

TELOS 91 Miguel Pérez Subías (Coord.), 2012-04-01 El Dossier central de este 91 número de Telos, coordinado por Miguel Pérez Subías (Presidente de la Asociación de Usuarios de Internet), se ha nucleado en torno al concepto de Identidad Digital y sus transformaciones sustanciales respecto al mundo analógico. La identidad la podríamos definir como el conjunto de rasgos que nos caracterizan frente a los demás. El desarrollo de las Tecnologías de la Información y la Comunicación (TIC)

ha modificado radicalmente el concepto de identidad, que ahora congrega conjuntamente los diferentes planos sociales del individuo: familia, trabajo y amigos. El término 'identidad digital' pone el énfasis en aquellos rasgos del individuo que encontramos digitalizados y que están a disposición de los demás. Esta identidad digital se construye ya no solo a partir de lo que somos, sino también de lo que hacemos y de cómo nos relacionamos. Este número cuenta con dos tribunas de la comunicación, escritas por Javier Fernández del Moral (La tercera y definitiva brecha digital) y Fernando Vicario (Para comunicar la diversidad), y con tres autores invitados. Por un lado, Lorenzo Vilches ha realizado un original artículo sobre El capitalismo narrativo en la era digital. Hipertextualidad de las artes escénicas en El Capital de Marx, y por otro, Patricia Corredor y Enrique Bustamante abordan el debate sobre Las industrias creativas en Europa.

Patrimonios Biblos, Margarita Gascón, 2020-09-22 Un patrimonio es una proyección del pasado en el presente; es la esperanza de transformar en algo permanente lo evanescente del discurrir del tiempo. El patrimonio adquiere así una atmósfera sutil de eternidad al consolidar partes de una totalidad de experiencias pasadas o presentes en algo lo suficientemente trascendente como para evitar que se destruya o pierda en el olvido. A menudo confiamos en que un patrimonio testimonie acerca de situaciones que posiblemente nunca vivimos, pero que sentimos como nuestras. Y, en una suerte de pacto de inmortalidad, esperamos que una declaración para la protección de algo tangible o intangible como patrimonio le garantice una continuidad y lo ponga a salvo del peligro de perderse irremediabilmente. Este libro aporta análisis de casos de Argentina, Chile, Colombia y El Salvador junto con las reflexiones realizadas por diferentes especialistas sobre patrimonios tangibles e intangibles.

Los catálogos urbanísticos. Aspectos jurídicos, metodológicos y de gestión María Rosario Alonso Ibáñez, 2004 Esta publicación tiene su origen en el contenido del Curso sobre Catálogos Urbanísticos organizado por el Instituto Asturiano de Administración Pública Adolfo Posada, desarrollado en 2003. El estudio de este instrumento urbanístico, al servicio de la protección de los bienes inmuebles que por su interés cultural merecen conservación y defensa, se desarrolló desde un enfoque pluridisciplinar, a un doble nivel. Por un lado, en su contexto jurídico, caracterizado por el nuevo tratamiento que este instrumento urbanístico tiene en la legislación del Principado de Asturias (Ley 1/2001 de 6 de marzo, de Patrimonio Cultural, y Ley 3/2002, de 19 de abril, de Régimen del Suelo y Ordenación Urbanística). Por otro, en el contexto de su gestión, en tanto que la actividad de catalogación exige su consideración como una tarea científica que demanda una técnica profesional y una determinada metodología. En ambos casos el objetivo fue proporcionar una formación especializada, llevada a cabo por profesorado universitario y por profesionales que cuentan con una destacada cualificación en sus respectivos ámbitos y amplia trayectoria en la realización de tareas de catalogación protectora.

Bibliografía peruana ,1992

Reshaping Urban Conservation Ana Pereira Roders, Francesco Bandarin, 2019-02-07 This volume focuses on the implementation of the 2011 UNESCO Recommendation on the Historic Urban Landscape (HUL approach), designed to foster the integration of heritage management in regional and urban planning and management, and strengthen the role of heritage in sustainable urban development. Earlier publications and research looked at the underlying theory of why the HUL approach was needed and how this theory was developed and elaborated by UNESCO. A comprehensive analysis was carried out in consultation with a multitude of actors in the twenty-first-century urban scene and with disciplinary approaches that are available to heritage managers and practitioners to implement the HUL approach. This volume aims to be empirical, describing, analyzing, and comparing 28 cities taken as case studies to implement the HUL approach. From those cases, many lessons can be learned and much guidance shared on best practices concerning what can be done to make the HUL approach work. Whereas the previous studies served to illustrate issues and challenges, in this volume the studies point to innovations in regional and urban planning and management that can allow cities to avoid major conflicts and to further develop in competitiveness. These accomplishments have been possible by building partnerships, devising financial strategies, and using heritage as a key resource in sustainable urban development, to name but a few effective strategies. For these reasons, this volume is primarily pragmatic, linked to the daily work and challenges of practitioners and administrators, using specific cases to assess what was and is good about current practices and what can be improved, in accordance with the HUL approach and aims.

Simposios innovadores Alcántara, Manuel, García Montero, Mercedes, Sánchez López, Francisco, 2018-07-01 El Comité Organizador del 56º Congreso Internacional de Americanistas (ICA) publica las actas del encuentro celebrado en la Universidad de Salamanca el 15 al 20 de julio de 2018. Bajo el lema «Universalidad y particularismo en las Américas», reflexionó sobre la dialéctica entre la universalidad y los particularismos en la producción de conocimiento, un diálogo en el que la necesidad de conocer los particularismos de los fenómenos sociales, políticos, artísticos y culturales obliga a formular nuevas hipótesis que enriquecen y replantean las grandes teorías generales de las ciencias y las humanidades. El carácter interdisciplinario e inclusivo que ha caracterizado al ICA desde su inicio en 1875, como un congreso de estudios de área en sentido completo, hace aún más significativa esa dinámica de producción de conocimiento. Con un planteamiento

interdisciplinario e inclusivo, ICA reúne a investigadores que estudian el continente americano, desde Alaska hasta Tierra de Fuego, incluyendo el territorio del Caribe, a partir del análisis de su política, economía, cultural, lenguas, historia y prehistoria. Así, el Comité Organizador les invitó participar en el análisis y la reflexión sobre las especificidades de las Américas y el Caribe con el objetivo de enriquecer las grandes teorías generales.
