Crime John Muncie, Deborah Talbot, Reece Walters, 2014-05-22 *Crime: Local and Global* and its sister text *Criminal Justice: Local and Global* are two new teaching texts that aim to equip the reader with a critical understanding of the globally contested nature of 'crime' and 'justice'. Through an examination of key concepts and criminological approaches, the books illuminate the different ways in which crime is constructed, conceived and controlled. International case studies are used to demonstrate how 'crime' and 'justice' are historically and geographically located in terms of the global/local context, and how processes of criminalisation and punishment are mediated in contemporary societies. *Crime: Local and Global* covers the way local events (such as prostitution) have wider aspects than previously thought. Links with people traffickers, international organised crime and violence cannot be ignored any longer. Each crime or area of activity selected within this text has a global reach, and is made ever more possible due to the way globalisation has opened up markets, both legitimate and illegitimate. The book's approach and scope emphasises that we can no longer view 'crime' as something which occurs within certain jurisdictions, at certain times and in particular places. For example, the chapter on cybercrime highlights the 'illegal' acts that can be perpetrated by second lifers, anywhere in the world, but are they a crime?

Evil Paradises Mike Davis, Daniel Bertrand Monk, 2011-07-16 Evil Paradises, edited by Mike Davis and Daniel Bertrand Monk, is a global guidebook to phantasmagoric but real places—alternate realities being constructed as “utopias” in a capitalist era unfettered by unions and state regulation. These developments—in cities, deserts, and in the middle of the sea—are worlds where consumption and inequality surpass our worst nightmares. Although they read like science fiction, the case studies are shockingly real. In Dubai, where child slavery existed until very recently, a gilded archipelago of private islands known as “The World” is literally being added to the ocean. In Medellín and Kabul, drug lords—in many ways textbook capitalists—are redefining conspicuous consumption in fortified palaces. In Hong Kong, Cairo, and even the Iranian

desert, burgeoning communities of nouveaux riches have taken shelter in fantasy Californias, complete with Mickey Mouse statues, while their maids sleep in rooftop chicken coops. Meanwhile, Ted Turner rides herd over his bison in 2 million acres of private parkland. Davis and Monk have assembled an extraordinary group of urbanists, architects, historians, and visionary thinkers to reflect upon the trajectory of a civilization whose deepest ethos seems to be to consume all the resources of the earth within a single lifetime.

Paragon - Red Eye VOL.1-2-3 light novel harem: Genre ecchi , harem, demons , mystery , romance and school life Ly Yurimoto,2020-01-20 My name is Ryuzaki Luca, half an angel, half a demon. Perhaps that makes me a full human. I am a first year at the prestigious Kuzusaki High school, a nationally famous school that hides a mystery I have sworn to unravel; a mystery of the day my city burned, and ash fell like snow. In the meantime, my grades take precedence over romance in order to maintain my scholarship, but I seem to keep running into women one after another. One might even think I'm gathering some sort of harem with the ecchi situations I keep getting caught up in, and women I end up helping. And so starts my high school life, a psychological thriller filled with supernatural occurrences that have bled into the normal world after being concealed in the shadows for an eternity. Read as I carve out my story, one mystery at a time

Cities and Sexualities Phil Hubbard, 2013-03-01 From the hotspots of commercial sex through to the suburbia of twitching curtains, urban life and sexualities appear inseparable. Cities are the source of our most familiar images of sexual practice, and are the spaces where new understandings of sexuality take shape. In an era of global business and tourism, cities are also the hubs around which a global sex trade is organised and where virtual sex content is obsessively produced and consumed. Detailing the relationships between sexed bodies, sexual subjectivities and forms of intimacy, *Cities and Sexualities* explores the role of the city in shaping our sexual lives. At the same time, it describes how the actions of urban governors, city planners, the police and judiciary combine to produce cities in which some sexual proclivities and tastes are normalised and others excluded. In so doing, it maps out the diverse sexual landscapes of the city - from spaces of courtship, coupling and cohabitation through to sites of adult entertainment, prostitution, and pornography. Considering both the normative geographies of heterosexuality and monogamy, as well as urban geographies of radical/queer sex, this book provides a unique perspective on the relationship between sex and the city. *Cities and Sexualities* offers a wide overview of the state-of-the-art in geographies and sociologies of sexuality, as well as an empirically-grounded account of the forms of desire that animate the erotic city. It describes the diverse sexual landscapes that characterise both the contemporary Western city as well as cities in the global South. The book features a wide range of boxed case studies as well as suggestions for further reading at the end each chapter. It will appeal to undergraduate students studying Geography, Urban Studies, Gender Studies and Sociology.

A Head of My Time George Stephens, 2014-06-20 This memoir tracks how George became involved in an area of business that grew from one of several million pounds to one of many billions. He observes with some humour how life was, and how it changed in his working years, both inside and outside his office.

International Handbook of Globalization and World Cities Ben Derudder, 2012-02-01 This Handbook offers an unrivalled overview of current research into how globalization is affecting the external relations and internal structures of major cities

in the world. By treating cities at a global scale, it focuses on the 'stretching' of urban functions beyond specific place locations, without losing sight of the multiple divisions in contemporary world cities. The book firmly bases city networks in their historical context, critically discusses contemporary concepts and key empirical measures, and analyses major issues relating to world city infrastructures, economies, governance and divisions. The variety of urban outcomes in contemporary globalization is explored through detailed case studies. Edited by leading scholars of the Globalization and World Cities (GaWC) Research Network and written by over 60 experts in the field, the Handbook is a unique resource for students, researchers and academics in urban and globalization studies as well as for city professionals in planning and policy.
