African Foreign Policies Paul-Henri Bischoff,2020-03-26 This book explores, at a time when several powers have become serious players on the continent, aspects of African agency, past and present, by African writers on foreign policy, representative of geography, language and state size. In the past, African foreign policy has largely been considered within the context of reactions to the international or global “external factor”. This groundbreaking book, however, looks at how foreign policy has been crafted and used in response not just to external, but also, mainly, domestic imperatives or (theoretical) signifiers. As such, it narrates individual and changing foreign policy orientations over time—and as far back as independence—with mainly African-based scholars who present their own constructs of what is a useful theoretical narrative regarding foreign policy on the continent—how theory is adapted to local circumstance or substituted for continentally based ontologies. The book therefore contends that the African experience carries valuable import for expanding general understandings of foreign policy in general. This book will be of key interest to scholars and students of Foreign Policy Analysis, Foreign Policy Studies, African International Relations/Politics/Studies, Diplomacy and more broadly to International Relations.

The In-Between People Girma Bekele,2011-03-29 In the midst of partial, competing, and often hostile forms of human solidarity, David Bosch challenged the church to be the Alternative Community called to live in the in-between of various opposing socio-political, economic, and ecclesiastical polarities. Girma Bekele explores and renews that call in the context of Ethiopia. Acute poverty and the lingering question of the balance between ethnic distinctiveness and national unity, together constitute a two-edged challenge to Christian identity. Constructive dialogue that fosters unity is intrinsic to effective response to the plight of the poor. This means a turning away from institutional self-preservation towards a contextually relevant mission that crosses all human-made frontiers. Taking Ethiopia as the immediate context, Dr. Bekele offers important insight to the church in the majority world and beyond.

Marijuana David E. Newton,2017-01-16 This single-volume resource provides sound, up-to-date information and authoritative resources for research on the controversial topics of the use of marijuana for medical and recreational purposes and the effects of marijuana use on society. The use of marijuana has consistently been a highly controversial, polarizing, and emotional topic, so much so that social, cultural, and religious factors have largely influenced public opinion, legislation, and

law enforcement's treatment of marijuana use. At the same time, much of the scientific information about the plant has largely been ignored in the policies and practices of the United States over the past 100 years. *Marijuana: A Reference Handbook* provides detailed coverage of the history and background of marijuana use in society, with special emphasis on the present day in the United States. It outlines the development of federal and state legislation with respect to marijuana use over the last century, focusing on changes that are taking place in the second decade of the 21st century, and examines the pros and cons of the use of marijuana for a variety of purposes. The book presents readers with unbiased, research-based information about the effects, benefits, and risks of marijuana use. Readers will also learn about the role of hemp across human history and about very recent legislative action on the use of marijuana for both recreational purposes and medical use.

The Change Agent - Paradigm Shift in Consciousness Bruce Barcomb, 2022-05-06 *The Change Agent - Paradigm Shift in Consciousness* is an evolutionary look at who we are in the universal consciousness. As imperfect as we are as a species, we share a common thread of belief systems predicated on learned, internalized data. What have we seen, learned, practiced, and become? Are we capable of self-examination? Without the ability to examine our thoughts, ideas, or learned practices, we are forever bound to arcane ideas or behaviors that do not reflect our natural ability to adapt. *The Change Agent - Paradigm Shift in Consciousness* reflects our collective and individual human condition spanning a few millennia. In correlating the foundations of our collective, concepts from books, films, history, facts, and conspiracies are incorporated, all backed by supporting referential materials.

Textual Evolution and Growth of the Enochic Theophany in the Book of the Watchers 1:1-9 Alexander McCarron, 2024-12-30 The Enochic Theophany in the Book of the Watchers 1:1-9 evolved and grew as it was translated into, and transmitted in, new and changing socio-linguistic and socio-religious contexts. This study explores how the Enochic theophany evolved in its Aramaic, Greek, Ethiopic and Latin versions, and focuses on the hermeneutical and text-critical implications of these features of textual evolution and growth. These features reveal how the text was read, interpreted, and re-signified as it was translated and transmitted. This study proposes a holistic methodology for exploring textual evolution and growth in fragmentary texts and in fragmentary textual traditions, and for understanding the Enochic theophany as a participant in an ongoing Theophanic and Enochic-Noahic discourse.

Melanin Guide to Spiritual Awakening J.A.H. Diouck,

Americans With African Roots Empowered. El Piper, 2025-08-19 *Americans With African Roots Empowered (A'WA'RE™)* offers a grounded and insightful exploration of the history and identity of the Hebrew Israelites, tracing their journey from biblical times through centuries of exile, colonization, and cultural erasure. Beginning with King James VI and I, the book examines how his influence shaped the Bible's translation and how this version was used to reinforce imperial agendas.

Through careful comparison with ancient texts such as the Ethiopian Bible and analysis of removed or suppressed scriptures, the book reveals how religious doctrine was reshaped to justify colonization and slavery. The transformation of the Hebrew Israelite faith into a tool of European dominance is laid bare, showing how key elements of biblical history were distorted or omitted. Spanning events from the founding of Jamestown to the transatlantic slave trade, this work connects pivotal historical moments to the ongoing journey of a people whose story has often been hidden. It also explores the cultural endurance and prophetic traditions of the Hebrew Israelites, the evolving role of women, and the spiritual impact of the King James Bible on African-American communities. This is both a historical reexamination and a call to rediscover truth, identity, and legacy in the face of centuries of misrepresentation.

Being United Methodist Christians Andy Langford, Sally Langford, Ann Langford Duncan, 2023-09-21 Learn what it means to be a United Methodist Christian. How may we describe United Methodists? Where do we come from? What do we believe? How do United Methodists act? What are our distinctive characteristics? What is required to be a member of our denomination? How do we grow as disciples of Jesus Christ within this great communion? In this resource, we offer answers to these questions and others in broad strokes as we describe our United Methodist Church. We will introduce you to how United Methodists live and think as followers of Jesus Christ. The United Methodist Church possesses the characteristics of many other Christian traditions but has its own distinctive profile. Our denomination combines knowledge and vital piety, believing that serious theological reflection and spiritual practices are both part of the Christian life. United Methodists link personal and social holiness, expecting high personal integrity and deep concern for social justice. We are both evangelical and sacramental, showing concern for people who have not yet accepted Jesus Christ as Savior and honoring the transforming power of Baptism and Holy Communion. We welcome people with many different theological perspectives. Finally, United Methodists are both local and connectional, expressing our faith in local congregations, regional associations, and global missions, so that we might do more together than any of us could do separately. This book will help readers: · hear and claim for themselves the story of God's love, God's redemption, and God's ongoing presence and power through Jesus Christ. · explore and claim for themselves the unique beliefs and emphases of United Methodist Christians. · identify ways to live day by day as United Methodist Christians as individuals and in community with other Christians. We invite you to claim for yourself the continuing story of God's mighty acts of creation, redemption, and power through Jesus Christ within our great denomination. As you begin or continue to see yourself within this living, dynamic part of the universal body of Jesus Christ, we invite you to live, be, and grow as a United Methodist Christian. The book includes reflection questions. Supplementary resources include a downloadable Sermon, Worship, and Study Series outline.

Luke-Acts James P. Grimshaw, 2018-09-20 This volume on Luke-Acts as with all titles in the Texts@Contexts Series highlights readings that make explicit the diverse contemporary contexts of biblical interpreters. The global spread of contributors includes scholarly voices from South Africa, South America and Hong Kong, as well as from the United States. The chapters are organized around four themes. The first examines interpretations of Jesus, looking at his childhood, contemporary context, and his teaching – including whether Jesus' sympathetic response to disease and pain might be used to advocate euthanasia. The second examines social categories: gender, race, and class, including a political and racialized reading of the history of diasporic Black America as a model for reading Acts as a diasporic history. The third examines issues of empire and resistance. The final part looks at society and spirituality, with a focus on modern contemporary contexts.

Black and Slave David M. Goldenberg, 2017-05-22 Studies of the Curse of Ham, the belief that the Bible consigned blacks to everlasting servitude, confuse and conflate two separate origins stories (etiologies), one of black skin and the other of black slavery. This work unravels the etiologies and shows how the Curse, an etiology of black slavery, evolved from an earlier etiology explaining the existence of dark-skinned people. We see when, where, why, and how an original mythic tale of black origins morphed into a story of the origins of black slavery, and how, in turn, the second then supplanted the first as an explanation for black skin. In the process we see how formulations of the Curse changed over time, depending on the historical and social contexts, reflecting and refashioning the way blackness and blacks were perceived. In particular, two significant developments are uncovered. First, a curse of slavery, originally said to affect various dark-skinned peoples, was eventually applied most commonly to black Africans. Second, blackness, originally incidental to the curse, in time became part of the curse itself. Dark skin now became an intentional marker of servitude, the visible sign of the blacks' degradation, and in the process deprecating black skin itself.

Afroeuropa@n Configurations Sabrina Brancato, 2011-09-22 This volume brings together contributions from various disciplines in the humanities exploring a variety of cultural, social and political configurations produced by the African presence in Europe, and attempting to consolidate a comparative framework for the study of contemporary black literatures and identities across different national and linguistic contexts. From the circumstances of black students in Russia to the recovery of a forgotten African identity in the Canary Islands, from the specificities of Portuguese postcoloniality to the representations of Africans in Iceland, the essays collected here provide a wide spectrum of research on African Diasporas in Eastern, Western, Southern and Northern Europe offering insights into previously little explored areas.

In an accessible text packed with information, it maps the current nature, extent, and influence of each of the major religions and shows, country by country, how religions are spread through broadcasting, missionary work, schooling, and banking; how they relate to government, laws, and world hunger; and the role they play in wars. It traces the emergence of new religious movements, the survival of traditional beliefs, and the presence of atheism and agnosticism. The Atlas of Religion also locates the origin, the heartland, and the sacred places of each of the major religions and provides essential background with a valuable table showing the fundamental beliefs of Buddhism, Christianity, Hinduism, Islam, Judaism, Sikhism, and Taoism. This 2nd Edition includes new chapters on 'Writing Theology in a New Language', which explores the linguistic and cultural challenges of writing theology well in a non-native language, and 'Writing and Learning Theology in an Electronic Age', addressed to distance learning students learning to write theology well from online courses, and dealing with the technologies necessary to do so.

1 Enoch as Christian Scripture Bruk Ayele Asale, 2020-06-05 Since its publication in English translation in 1821, the book of Enoch has enjoyed immense popularity in Western culture as a variety of religious groups, interested historians, and academics have sought to illuminate the Jewish context of Christian beginnings two thousand years ago. Taking the quotation of 1 Enoch in Jude 14 as its point of departure, the present study explores the significance of Enochic tradition within the context of Christian tradition in the Horn of Africa, where it continues to play a vital role in shaping the diverse yet interrelated self-understanding of Orthodox, Catholic, and Protestant churches. As discussions on the importance of 1 Enoch from antiquity to the present take on new dimensions among increasingly global and diverse voices, 1 Enoch as Christian Scripture offers a rare orientation into a rich culture in which the reception of the book is at home as a living tradition more than anywhere else in the world today. The present work argues that serious attention to 1 Enoch holds forth an opportunity for church traditions in Ethiopia--and, indeed, around the world--to embrace some of their indigenous roots and has the capacity to breathe life into time-worn expressions of faith.

If you are a pastor or church leader, I highly recommend this book for you.

Digital Inequalities in the Global South Massimo Ragnedda, Anna Gladkova, 2020-06-29 This book discusses how digital inequalities today may lead to other types of inequalities in the Global South. Contributions to this collection move past discussing an access problem – a binary division between 'haves and have-nots' – to analyse complex inequalities in the internet use, benefits, and opportunities of people in the Global South region. Using specific case studies, this book underlines how communities in the Global South are now attempting to participate in the information age despite high costs, a lack of infrastructure, and more barriers to entry. Contributions discuss the recent changes in the Global South. These changes include greater technological availability, the spread of digital literacy programs and computer courses, and the overall growth in engagement of people from different backgrounds, ethnicities, and languages in digital environments. This book outlines and evaluates the role of state and public institutions in facilitating these changes and consequently bridging the digital divide.

Africans in East Anglia, 1467-1833 Richard Maguire, 2021 What were the lives of Africans in provincial England like during the early modern period? How, where, and when did they arrive in rural counties? How were they perceived by their contemporaries? This book examines the population of Africans in Norfolk and Suffolk from 1467, the date of the first documented reference to an African in the region, to 1833, when Parliament voted to abolish slavery in the British Empire. It uncovers the complexity of these Africans' historical experience, considering the interaction of local custom, class structure, tradition, memory, and the gradual impact of the Atlantic slaving economy. Richard C. Maguire proposes that the initial regional response to arriving Africans during the fifteenth and sixteenth centuries was not defined exclusively by ideas relating to skin colour, but rather by local understandings of religious status, class position, ideas about freedom and

bondage, and immediate local circumstances. Arriving Africans were able to join the region's working population through baptism, marriage, parenthood, and work. This manner of response to Africans was challenged as local merchants and gentry begin doing business with the slaving economy from the mid-seventeenth century onwards. Although the racialised ideas underpinning Atlantic slavery changed the social circumstances of Africans in the region, the book suggests that they did not completely displace older, more inclusive, ideas in working communities.

Ethiopia in Transit Pietro Toggia, Abebe Zegeye, 2013-10-18 The writings in this edition explore historical and contemporary issues in Ethiopia as the country underwent change and celebrated its new millennium. However, despite the recognizance of socio-economic and political changes, Ethiopia still faces enduring problems and challenges to its stability and continuity. The political past haunts the country while it is facing the future with optimism and hope. The contributors in this edition examine historical and contemporaneous issues with different lenses; they investigate the multiplicity and complexity of the contradictions that define traditional and modern Ethiopia. The contributions highlight the significance of the instability, dislocation, conflict and transformation inherent in any society. None of these writings, however, celebrate the forces that create the conflict; they are cautious not to glorify the present and romanticize the past. On the contrary, they seek to contextualize the challenges which the country faces with a view to open a dialogue, not exclusively among Ethiopians, but with scholars and social activists in the rest of Africa, as well as the international community. The contributions cover and examine such important topics as historiography, political power and legitimacy, ideology and radical views, knowledge transmission and modernity, emigration and the Ethiopian Diaspora, ethnic and linguistic identity, patriarchy and feminist discourses in a traditional society, public policies and economic development, traditional and modern art and culture, and neo-liberalism and globalization. This book was published as a special issue of *African Identities*.
