We Had to Remove This Post Hanna Bervoets, 2022-05-24 WHAT IS “NORMAL”? WHAT IS “RIGHT”? AND WHO GETS TO DECIDE? To be a content moderator is to see humanity at its worst—but Kayleigh needs money. So she takes a job working for a social media platform whose name she isn’t allowed to mention. Her task: review offensive videos and pictures, rants and conspiracy theories, and decide which need to be removed. It’s grueling work. Kayleigh and her colleagues spend all day watching horrors and hate on their screens, evaluating them with the platform’s ever-changing moderating guidelines. Yet Kayleigh is good at her job, and she finds in her colleagues a group of friends—even a new girlfriend—and for the first time in her life, her future seems bright. But soon the job seems to change them all, shifting their worlds in alarming ways. How long before the moderators’ own senses of right and wrong begin to bend and flex? From one of the most acclaimed Dutch writers of her generation, *We Had to Remove This Post* is a chilling, powerful, and urgent literary masterpiece about who or what determines our worldview, who sets the boundaries, and just how much a person can be asked to accept.

*Managing Online Forums* Patrick O’Keefe, 2008-04-21 Every day, millions of users log on to their favorite online forums and interact with others to get advice and discuss everything from the latest news and trends to their hobbies, professions, and whatever else strikes their fancy. Administrators have to lead these communities, deal with difficult users, and choose moderators. Legal constraints, spammers, and technical issues can turn the excitement of running an online community into chaos. With the right guidance, however, running forums can be a pleasure. Patrick O’Keefe has spent years developing and managing online communities. Now, he shows readers how to make the right decisions about every aspect of their forums, including: • choosing a name and domain name • picking the right software • deciding on user options like avatars and private messaging • setting guidelines and dealing with violators • ensuring that posts stay on topic • settling online disputes among users • involving users and keeping the site interesting *Managing Online Forums* is the one book that shows site owners and administrators how to create a safe and entertaining community that users will return to again and again.

**The Ethical Challenges of Emerging Medical Technologies** Arthur L. Caplan, Brendan Parent, 2020-09-10 This collection of essays emphasizes society's increasingly responsible engagement with ethical challenges in emerging medical technology. Expansion of technological capacity and attention to patient safety have long been integral to improving healthcare delivery but only relatively recently have concepts like respect, distributive justice, privacy, and autonomy gained some power to shape the development, use, and refinement of medical tools and techniques. Medical ethics goes beyond making better medicine to thinking about how to make the field of medicine better. These essays showcase several ways in which modern ethical thinking is improving safety, efficacy and efficiency of medical technology, increasing access to medical care, and empowering patients to choose care that comports with their desires and beliefs. Included are complimentary ethical approaches as well as compelling counter-arguments. Together, the articles demonstrate how improving the quality of medical technology relies on every stakeholder -- not just medical researchers and scientists -- to assess each given technology's strengths and pitfalls. This collection also portends one of the next major issues in the ethics of medical technology: developing the requisite moral framework to accompany shifts toward patient-centred personalized healthcare.
