Horizontes en la práctica docente. Complejidad, TIC y mediación educativa Genaro Aguirre Aguilar,2020-10-02 Pensar la docencia desde la complejidad educativa. Esta obra reúne una serie de capítulos en los que se abordan temáticas relacionadas con la educación superior desde una mirada académica, destacándose como premisas el pensamiento complejo, las TIC, así como el trabajo estratégico que desempeña el docente como facilitador de procesos de enseñanza y aprendizaje a nivel universitario. Para ello, se toma como contexto la llamada «sociedad de la información y el conocimiento», en donde se ha definido una nueva ordenanza global que deviene en marco de referencia para entender los procesos de transformación que se les requieren a las universidades, en términos de políticas educativas, para la innovación de su currículo, los modelos educativos, como la transformación de las prácticas pedagógicas de sus académicos. Lo obra integra una serie de textos en donde se analiza el fenómeno educativo, con énfasis en el papel que juegan los docentes en la configuración de ambientes educativos que contribuyan al aprendizaje de sus estudiantes, para lo cual se proponen tres capítulos: «Perspectivas en la educación y el pensamiento complejo», «Comunicación, diversidad y mediación educativa» y «Sujetos de la educación y ámbitos emergentes para la enseñanza». Cada uno de los cuales se compone de textos que, en lo particular, abordan temáticas que permiten ampliar el horizonte desde el cual pueden ser comprendidas problemáticas que caracterizan a la educación contemporánea en el nivel superior.

Trends in Latin American Psychology Wilson López-López,Hernán Camilo Pulido-Martínez,Irene Giovanni-Aguilar,2025-04-21 This book brings together English versions of a selection of articles originally published in Spanish in Universitas Psychologica, one of the most important psychology journals in Latin America. It's an anthology of theoretical and research papers published by important Latin American psychologists that aim to provide the international community with a representative sample of research trends in Latin American psychology in different subfields. This anthology is organized in three parts, each one containing a selection of articles from different subfields of psychological research and practice. The first part brings together papers in the fields of social and community psychology, two areas in which Latin American psychologists have developed quite original contributions to research and practice. The second part is dedicated to articles showcasing research conducted with Latin American children and youth in the fields of educational, cognitive and developmental psychology. Finally, the third part highlights articles that present contributions of research in fields such as neuropsychology, clinical and health psychology to the improvement of mental and physical health care of the Latin American population. Each part starts with an introduction especially written by the volume editors for this anthology. Trends in Latin American Psychology: Research Published in Universitas Psychologica will be of interest to researchers in many subfields of psychology, especially to those interested in international and cross-cultural psychology, as the book offers a significative sample of the best research done by Latin American psychologists. Routledge Handbook of Ecotourism David A. Fennell,2021-09-21 This handbook presents a timely, broad-ranging, and provocative overview of the essential nature of ecotourism. The chapters will both advance the existing central themes of ecotourism and provide challenging and divergent observations that will thrust ecotourism into new areas of research, policy, and practice. The volume is arranged around four key themes: sustainability, ethics and identity, change, conflict, and consumption, and environment and learning, with a total of 28 chapters. The first section focuses on sustainability as a core ecotourism criterion, with a primary focus on some of the macro sustainability issues that have an impact on ecotourism. Foremost among these topics is the linkage to the UN's Sustainable Development Goals, which have relevance to ecotourism

as one of the greenest or most responsible forms of tourism. The chapters in the second section provide a range of different topics that pull ecotourism research into new directions, including a chapter on enriching indigenous ecotourism through culturally sensitive universalism. The third section includes chapters on topics ranging from persons with disabilities as a neglected body of research in ecotourism, to ecotourism as a form of luxury consumption. The final section emphasises the link between ecotourism and learning about the natural world, including a deeply theoretical chapter on rewilding Europe. With contributions from authors around the world, this handbook gives a global platform to local voices, in both developed and emerging country contexts. The multidisciplinary and international Routledge Handbook of Ecotourism will be of great interest to researchers, students, and practitioners working in tourism and sustainability.

Intervención psicodinámica y apoyo a la salud mental de personas migrantes Marta Pérez Adroher,2020-12-18 Esta obra estudia los malestares psicológicos y sociales que atraviesan las personas migrantes. También reflexiona sobre el modo en que el personal de intervención puede apoyarlas y acompañarlas una vez llegan a la sociedad de acogida. Esta propuesta es una alternativa a la política habitual de muchos manuales que suelen responder en tales circunstancias con técnicas estandarizadas que dictan lo que se debe hacer Frente a obedecer un protocolo, este libro cultiva un espacio para que los profesionales aprendan a pensar antes de actuar y a escuchar aspectos inconscientes que frecuentemente pasan desapercibidos.

Introduction to Cybersemiotics: A Transdisciplinary Perspective Carlos Vidales, Søren Brier, 2021-04-14 This book traces the origins and evolution of cybersemiotics, beginning with the integration of semiotics into the theoretical framework of cybernetics and information theory. The book opens with chapters that situate the roots of cybersemiotics in Peircean semiotics, describe the advent of the Information Age and cybernetics, and lay out the proposition that notions of system, communication, self-reference, information, meaning, form, autopoiesis, and self-control are of equal topical interest to semiotics and systems theory. Subsequent chapters introduce a cybersemiotic viewpoint on the capacity of arts and other practices for knowing. This suggests pathways for developing Practice as Research and practice-led research, and prompts the reader to view this new configuration in cybersemiotic terms. Other contributors discuss cultural and perceptual shifts that lead to interaction with hybrid environments such as Alexa. The relationship of storytelling and cybersemiotics is covered at chapter length, and another chapter describes an individual-collectivity dialectics, in which the latter (Commind) constrains the former (interactants), but the former fuels the latter. The concluding chapter begins with the observation that digital technologies have infiltrated every corner of the metropolis - homes, workplaces, and places of leisure - to the extent that cities and bodies have transformed into interconnected interfaces. The book challenges the reader to participate in a broader discussion of the potential, limitations, alternatives, and criticisms of cybersemiotics.

Lo que anduve y dejé a los márgenes. Tomo II Agustín Molleda Pardo, 2013-10-27 Tras concluir los caminos jacobeos Francés y Vía de la Plata y la Ruta Cidiana sin alcanzar el objetivo inicialmente previsto, el ya ex Juez Jaime Sangrador, intoxicado de amor, sobrepasa sus previsiones y pone rumbo a Lisboa para un nuevo viaje. Lía, su antigua Secretaria Judicial, mujer extraña y celosa, le confirmará el cruel asesinato de Amira. Con el corazón en llamas y el cuerpo lleno de ralladuras y brozas de hierba, decide continuar. Elisa, la esposa de Jaime, prolongará su agonía temiendo que su marido sea pasto de un horrible final. Rebeca y José Luis, amigos inseparables a pesar de la traición, terriblemente afectados por el vil fallecimiento

de Amira, iniciarán juntos una nueva vida. Este último seguirá recibiendo las crónicas viajeras de su amigo del alma y en su mente cobrará fuerza la idea de convertirlo en el primer sospechoso de la muerte de su hija. Entre tanta desgracia, las jóvenes lesbianas Amalia y Alba surgirán en el cielo de León como dos nuevas estrellas, fascinando al resto de los mortales por su determinación, arrojo y belleza. Pese al qué dirán, no renunciarán a amarse y a disfrutar de los placeres del sexo. El policía Velardes continuará dando muestras de su incapacidad y le resultará muy difícil demostrar que no existe el crimen perfecto. Jaime y Amira, transformados ambos en flor de estercolero, se reunirán para siempre en un lugar del que jamás podrán regresar.

The Church and Indigenous Peoples in the Americas Michel Andraos,2019-01-25 Indigenous and non-Indigenous voices come together in this volume to discuss both the wounds of colonial history and the opportunities for decolonization, reconciliation, and hope in the relationship between the church and Indigenous peoples across the Americas. Scholars and pastoral leaders from Chile, Bolivia, Brazil, Mexico, the United States, and Canada, and Indigenous peoples of Mapuche, Chiquitano, Tzeltal Maya, Oglala Sioux, Mi'kmaw, and Anishinaabe-Ojibwe reflect on the possibility of constructing decolonial theology and pastoral praxis, and on the urgent need for transformation of church structures and old theology. The book opens new horizons for different ways of thinking and acting, and for the emergence of a truly intercultural theology.

Pensar a Ifá. Aproximaciones a una propedéutica Manuel de Jesús Rabaza Torres,2024-10-30 Es plural y complejo el panorama de la práctica de Ifá en la Cuba contemporánea y, ante la amenaza de mayores fracturas, Manuel de Jesús Rabaza Torres propone este texto que, si bien puede resultar controversial, por cuestionar verdades asentadas en el tiempo, tiene como principal objetivo fortalecer la identidad cultural de la sociedad cubana. Este estudio interdisciplinario tiene como eje de fuerza el diálogo entre la práctica cubana de Ifá y el recientemente introducido Ifá tradicional nigeriano. A través de un análisis de la evolución del ifaísmo desde sus orígenes hasta su presencia actual en la Isla, el autor no solo discurre sobre su carácter dialéctico como proceso cultural, sino que, además, eleva la teología de Ifá, y el pensamiento africano en general, a su justo lugar en la concepción filosófica de los valores nacionales.

Manual de medicina forense para autores de novela negra Ladislao Melchor,2024-11-05 La novela negra, en sus diversas variantes, requiere del escritor un esfuerzo particularmente acusado, pues la trama se sustenta por lo común en un engranaje bien armado, en una arquitectura sólida e inapelable en la que todos y cada uno de los elementos que la conforman están integrados con perfecta coherencia. Nada debe quedar al azar. Esa es la naturaleza del género, la credibilidad del proceso que conduce a la detención del criminal o, cuando esta no se produce, a su triunfo. Por tal circunstancia, el autor de novela negra o policiaca precisa de un conocimiento amplio de las herramientas que en la vida real permiten a los investigadores conducir y llevar a buen término la indagación de un asesinato, los móviles que lo propiciaron y la identificación del culpable. Y dentro de esa panoplia de herramientas no desempeña un rol menor la ciencia forense, que

con el correr de los años ha permitido desentrañar no pocos crímenes cuya resolución parecía de antemano imposible. Este libro es de imprescindible lectura para cualquiera que esté interesado en escribir (o leer con asiduidad) novela negra. En síntesis, se trata de un compendio de los criterios y prácticas forenses que, de manera habitual y general, se llevan a cabo, y que suelen distar mucho de la ficción que se exhibe en las series de televisión y en las aproximaciones literarias menos documentadas. El resultado es una obra fascinante, tan esclarecedora como útil para quienes aspiren a doctorarse en un género que explora los perfiles más sórdidos de nuestras sociedades modernas.

[Psychoanalysis at the Crossroads](#) Fred Busch, 2023-03-15 In this clear and thoughtful book, an international group of distinguished authors explore the central issues and future directions facing psychoanalytic theory and practice. The book explores four main questions in the development of psychoanalysis: what psychoanalysis is as an endeavour now and what it may be in the future; the effect of social issues on psychoanalysis and of psychoanalysis on social issues, such as race and gender; the importance of psychoanalytic institutes on shaping future psychoanalytic theory and practice; and the likely major issues that will be shaping psychoanalysis in years to come. Including contributions from within every school of psychoanalytic thought, this book is essential reading for psychoanalysts, psychoanalytic psychotherapists and all who are curious about the future directions of the profession.
