The Politics of Community Energy in Europe Boris Gotchev,2025-03-31 Community energy actors have emerged as significant players in European energy transitions. This dissertation uncovers the role of community energy actors as policy entrepreneurs. Despite being newcomers with limited resources, these actors successfully advocated for change within EU and German political landscapes. By empirically comparing and contrasting the EU's Clean Energy Package and Germany's renewable energy policy reforms between 2012 and 2019, this study explores how community energy actors and the concept of community energy have been institutionalized in different ways. This book contributes to a more nuanced understanding of the potential and limitations of political agency, discourse, and power in promoting sustainability transformations by examining the emergence of community energy actors and its connection to policy shifts.

Community Energy in Germany Jörg Radtke,2023-05-31 In this ground-breaking book, Jörg Radtke offers for the first time within research, a comprehensive insight into the range of organizational structures of community energy projects in Germany and their contribution to the Energiewende. Based on nationwide quantitative survey data and in-depth analyses of selected case studies of solar, wind and geothermal projects, Radtke documents the social structure and motivations of participating citizens. He examines new forms of material participation, community building and co-determination within the mostly volunteer-led community energy projects based on the civic engagement patterns of active "green citizens". The author identifies a new form of individualistic participation and collective modes of action in line with new types of project-oriented participation between business, politics and civil society within sustainability transformation processes of the early 21st century.

**Religious Experience and Its Transformational Power** Sabrina Müller,2023-06-19 The author approaches the phenomenon 'religious experience' through a qualitative study in which young, urban people from Europe and the USA are empirically examined. It becomes clear that individuals themselves are constructive agents of experience and theology. Religious experience manifests itself as a transformative perspective of hope in the lives of young people. The study ends with a plea for a theology from below, based on liberation theology and feminist theories, in which contextual perspectives are central to practical theological theorising.

The Business of Densification Gabriela Debrunner,2023-12-31 Affordable housing shortage and social exclusion have

become severe societal problems across the globe. Increasing numbers of people are suffering from social eviction and displacement due to urban densification, modernization, rising rents, and intense housing commodification. Vulnerable resident groups – such as old-aged or households with children – who often live in old housing stocks planned to be densified, renovated, or upgraded with higher rents, are forced to leave the urban core centers because they can no longer afford to live in central locations, or because they experience unstable or insecure housing conditions. A scenario that is highly unsustainable. So far, studies on densification have mainly considered the process as technological, architectural, or design-based problem (e.g., Kyttä et al., 2013; Broitman & Koomen, 2015; Bibby et al., 2018). However, systematic knowledge on how to implement densification objectives sustainably – regarding economic, environmental, and social aspects – is still lacking. This book tackles this gap by analyzing densification from a governance perspective. Its point of departure is that densification per se does not necessarily lead to sustainable outcomes in terms of social inclusion, cohesion, or community stability. Rather, it politicizes densification by neglecting how the process is planned, implemented, and governed by the actors involved. The book applies an actors-centered neoinstitutionalist political ecology approach to reveal the specific objectives and strategies of actors involved, as well as the socio-political structures (i.e. rules, laws, and policies) that govern densification. Four Swiss in-depth empirical qualitative case studies (Zürich, Basel, Köniz, and Kloten) illustrate the political and legal conditions for success or failure for (un)sustainable implementations of densification. Ultimately, this book advises stakeholders, governments, urban practitioners, and academics on more effective, community-oriented, collective, and decommodified forms of governance to respond to the needs of the public at large rather than simply catering to private individuals and firms. Such governance initiatives entail active municipal land policy approaches outside a purely market-based investment logic that not only limit, but also work with property rights. This is an open access book.

**Jugendmedienschutz und Medienerziehung im digitalen Zeitalter** Thorsten Junge, 2013-08-16 Im digitalen Zeitalter bieten Medien Kindern und Jugendlichen verschiedene Möglichkeiten zur Unterhaltung, Kommunikation und Selbstdarstellung. Gleichzeitig sind mit der Nutzung digitaler Medien auch Gefahren verbunden. Wie begegnet der Jugendmedienschutz den potenziellen Risiken? Welche Bedeutung kommt der Medienerziehung zu und welche Funktion können in diesem Kontext die Eltern übernehmen? Diese Fragen stehen im Mittelpunkt dieses Bandes der Reihe „Medienbildung und Gesellschaft“. Neben einer Erörterung der gegenwärtig diskutierten Gefahren der Mediennutzung und den Wirkungsmöglichkeiten des institutionellen Jugendmedienschutzes werden auf der Basis einer empirischen Studie (Befragung von Elternpaaren) aktuelle Erkenntnisse zum Medienerziehungshandeln in Familien geliefert.

**Alternating Current – Social Innovation in Community Energy** Arwen Colell, 2021-05-10 Community energy projects give their own answers to the challenges of energy system change: They are social innovations. By building new relations between local economies, communities and technical infrastructures, these projects not only change the energy system but also

respective power structures. Drawing on case studies from Germany, Denmark and Scotland, this book shows the importance of community ties, and shared symbols for successful processes of transformation and develops recommendations for policy decision-makers.

The Wiley Blackwell Companion to Theology and Qualitative Research Pete Ward, Knut Tveitereid, 2022-07-12 A unique introduction to the developing field of Theology and Qualitative Research In recent years, a growing number of scholars within the field of theological research have adopted qualitative empirical methods. The use of qualitative research is shaping the nature of theology and redefining what it means to be a theologian. Hence, contemporary scholars who are undertaking empirical fieldwork across a range of theological subdisciplines require authoritative guidance and well-developed frameworks of practice and theory. The Wiley Blackwell Companion to Theology and Qualitative Research outlines the challenges and possibilities for theological research that engages with qualitative methods. It reflects more than 15 years of academic research within the Ecclesiology and Ethnography Network, and features an international group of scholars committed to the empirical and theological study of the Christian church. Edited by world-renowned experts, this unprecedented volume addresses the theological debates, methodological complexities, and future directions of this emerging field. Contributions from both established and emerging scholars describe key theoretical approaches, discuss how different empirical methods are used within theology, explore the links between qualitative research and adjacent scholarly traditions, and more. The companion: Discusses how qualitative empirical work changes the practice of theology, enabling a disciplined attention to the lived social realities of Christian religion and what theologians do Introduces theoretical and methodological debates in the field, as well as central epistemological and ontological questions Presents different approaches to Theology and Qualitative research, highlighting important issues and developments in the last decades Explores how empirical insights are shaping areas such as liturgics, homiletics, youth ministry, and Christian education Includes perspectives from scholars working in disciplines other than theology The Wiley Blackwell Companion to Theology and Qualitative Research is essential reading for graduate students, postgraduates, PhD students, researchers, and scholars in Christian Ethics, Systematic Theology, Practical Theology, Contemporary Worship, and related disciplines such as Ecclesiology, Mission Studies, World Christianity, Pastoral Theology, Political Theology, Worship Studies, and all forms of contextual theology.

**Employability Revisited** Anne Rosken,2022-08-18 One of the most pressing issues in current and future human resource management is the inclusion of strengths and life stages within human resource structures. This book examines in a multi-perspective, innovative and participatory way the conditioning factors for persistent stereotyping processes in the context of age and work. Levers for change as well as the circular model for optimizing or implementing life-phase oriented human resource management are presented. The book is valuable for lecturers and students with a focus on corporate and human resources management. It also offers practical assistance for corporate leaders and human resources managers for the implementation of a strength-oriented human resources management.

**Contemporary Developments in Entrepreneurial Finance** Alexandra Moritz,Joern H. Block,Stephan Golla,Arndt Werner,2019-08-22 More extensive regulations, new technologies, and new means of communication have significantly changed the financing landscape for startups and small to medium-sized companies (SMEs). This volume provides a contemporary research-based overview of the latest trends in entrepreneurial finance and outlines expected future developments. Starting with the status quo in market regulations and the financing structure of SMEs, it addresses a broad range of new financing alternatives for innovative startups (e.g. business angel financing, venture capital and corporate venture capital), as well as recent social phenomena (e.g. crowdfunding and initial coin offerings (ICOs)). Incorporating qualitative, quantitative and mixed analytical methods, the book contributes to a better understanding of the financing world by reflecting both the researcher's and the practitioner's perspective.

**Die sozialräumliche Bildungslandschaft Campus Rütli in Berlin-Neukölln** Anna Juliane Heinrich,2018-04-23 Anna Juliane Heinrich geht der Frage nach, warum Stadtplaner und Pädagogen an der Umsetzung sozialräumlicher Bildungslandschaften mitwirken. Für den Campus Rütli in Berlin-Neukölln untersucht sie empirisch Begründungen und Bedeutungszuschreibungen gestaltender Akteure. Im Ergebnis rekonstruiert sie strategische Ansätze von sozialräumlichen Bildungslandschaften sowie den Leitgedanken der Mitwirkenden, wodurch der Mehrwert dieses spezifischen Typus von Bildungslandschaft deutlich wird. Die Bedeutungszuschreibungen der Gestalter werden zu tragenden Motiven sozialräumlicher Bildungslandschaften verdichtet und der Campus Rütli als Vorhaben zwischen ökonomischer Verwertungslogik und sozialer Gerechtigkeit diskutiert.

**The Promises and Properties of Rapidly Growing Companies** Florian Becker-Ritterspach,Christoph Dörrenbächer,Matthias Tomenendal,2022-08-24 The Promises and Properties of Rapidly Growing Companies contributes to contemporary thought on so-called gazelles - high performing market players that create many jobs and promise strong

*Lebensbewältigung im Spiegel der Internetnutzung* Birte Linny Geisler,2024-04-02 24 Frauen erzählen in dieser qualitativen Biografiestudie über Ausprägung und Bedeutung ihrer Internetnutzung in verschiedenen Lebensphasen. Die Analyse der Lebensgeschichten macht deutlich, dass selbst eine problematische Internetnutzung Sinn macht, wenn man sie als Bewältigungsstrategie im Umgang mit Krisen versteht. Diese Forschungsarbeit bewegt sich an der Schnittstelle zwischen (Internet-)Suchtforschung, sozialwissenschaftlicher Suchtforschung und Versorgungsforschung. Sie möchte dazu beitragen, Frauen mit einer problematischen Internetnutzung besser zu verstehen und sichtbarer zu machen. Nur so können Versorgungsangebote passender auf diese Betroffenengruppe ausgerichtet werden.

Berlin Keys to the Sociology of Technology Cornelius Schubert,Ingo Schulz-Schaeffer,2023-08-28 This volume offers a cross-section of a good fifteen years of research in the sociology of technology and innovation at the Department of Sociology of Technology headed by Werner Rammert at the TU Berlin. All contributions in this volume were initiated or discussed there and thus bear in a certain sense a Berlin signature - not in the sense of a clearly delimited scientific school, but rather in the form of an open discussion group with different, but mutually related focal points. The Berlin Key, which gives it its title, imposes on all its users the program of action objectified in its mechanism: User, if you want to take the key back to yourself after unlocking the door and go your way, you must lock the door again first. Unlike that Berlin key, the Berlin Keys to the Sociology of Technology presented here offer a set of keys to different but interconnected conceptual and methodological approaches in social science research on technology and innovation.

**Profiling zwischen sozialer Praxis und technischer Prägung** Fabia Schäufele,2017-01-02 Fabia Schäufele untersucht, wie die Technisierung von Tätigkeiten die Einflussverteilung in den sie umsetzenden sozio-technischen Konstellationen verändert. Die Autorin geht dieser Frage im Rahmen einer vergleichenden Studie von Profiling-Prozessen – zu Sicherheits- und Überwachungszwecken – an Flughäfen und beim Credit-Scoring nach. Sie knüpft dabei theoretisch an den techniksoziologischen Diskurs der Handlungsfähigkeit von Technik an und zeigt – mithilfe der erweiterten Skriptanalyse

- wie technisches Wirken differenziert analysiert und verglichen werden kann.

**Nachhaltigkeit im Berufsfeld Ernährung und Hauswirtschaft** Sarah Loy, 2024-02-23 Mit diesem Buch zielt die Autorin auf die Stärkung einer Berufsbildung für nachhaltige Entwicklung (BBNE) im Berufsfeld Ernährung und Hauswirtschaft ab, denn trotz des Zusammenhangs zwischen dem Berufsfeld und einer nachhaltigen Entwicklung fehlt es bisher an entsprechenden Forschungsarbeiten. Daher werden aus den Erkenntnissen der theoretischen Auseinandersetzung sowie der empirischen Erhebung 24 Implementierungsstrategien für verschiedene Personengruppen auf den unterschiedlichen Ebenen der beruflichen Bildung und Gesellschaft abgeleitet. Durch sie wird die Relevanz der Partizipation aller Akteure des beruflichen Bildungssystems an einer nachhaltigen Entwicklung in der Gesellschaft verdeutlicht, ebenfalls werden hieran verschiedene Handlungsbedarfe aufgezeigt.
