The Science of Extraterrestrials Eric Julien, 2006 Finally, here is the breakthrough work that solves the mystery of UFOs and paranormal phenomena. After more than a half century of investigation, Éric Julien offers a global and scientific solution to one of the greatest challenge known to science. For Julien, the fractal nature of time and its three dimensions, led to the emergence of a revolutionary global theory: Absolute Relativity! Even though this work is of a scientific nature, the general public can easily understand it. The precise explanations in this book will highlight the mistakes of science and will furthermore offer insight into extraterrestrial technology, which the author calls Extratemporal. Diagrams are included. The Science of Extraterrestrials explains anti-gravitation, propulsion of UFOs, alien abductions, formation of crop circles, strange luminous phenomena, poltergeists, ghosts, postmortem survival and time travel. All these phenomena are explained by this single unique concept. This book will undoubtedly create a philosophical revolution. -- Publisher's description

Time and Consistent Relativity Lyubomir T. Gruyitch, 2015-05-08 Time and Consistent Relativity: Physical and Mathematical Fundamentals establishes a new and original theory of time relativity, which is fully consistent. It explains why Einstein's theory of time relativity is physically meaningless and mathematically based on tacit unacceptable assumptions, and why it represents the singular case from the mathem

UFOs, the Absurd, and the Limit of Anthropological Knowledge Diana Espírito Santo, 2024-09-20 This book offers an ethnographic and conceptual analysis of contemporary UFO phenomena, focusing specifically on Chilean ufology and the ufological “absurd”, nonsensical instances for their experiencers in which there is no conceptual way out. It asks how anthropology can come to terms with what is not said, what is not known, what is in the dark, or even with what both “is” and “is not”. The work draws on three years of participant observation with empirical ufologists, amateur sky watchers, and contactees of varying kinds in Chile. The chapters mobilize three main bodies of literature to elucidate the ufological absurd: negative theology, anthropology of play and deceit, and the physics of dark matter. They explore notions of parallax, paradox, and trickster anthropology. The author takes UFO phenomena, specifically the absurd aspects, as a heuristic with which to posit a conversation between domains; a conversation which highlights darkneses, finiteness, and the limits of representation and media in anthropology, one that could perhaps signal the route to a new language. Consideration is given to how not-knowing can be a space of extreme productiveness for the discipline. The argument put forward is that only by

doing an anthropology that looks outside of itself for conceptual inspiration can we come to terms with the non-representable, the un-conceptualizable, the fully paradoxical. This innovative book will be of particular interest to scholars of anthropological theory and religion.

Cancer as a Wake-Up Call M. Laura Nasi, M.D., 2018-10-02 An oncologist's integrative path to treating and living better with or beyond cancer Dr. M. Laura Nasi presents a new way of looking at how we view and treat cancer. With current advances in medicine, we're learning more about the ways different aspects of our lives and health impact and interact with one another—why does one long-term smoker get diagnosed with stage-4 lung cancer while another remains cancer-free? Why does someone exposed to a known carcinogen get sick while someone else is apparently immune? What seemingly unrelated factors end up playing key roles in disease etiology, progression, and prognosis? In this well-researched, inspiring, and easy-to-read guide, Dr. Nasi offers an integrative, whole-person approach to cancer, and explains how it is a systemic disease manifesting a global condition locally. Conventional medicine focuses on attacking malignant cells. Integrative medicine encourages chemo and radiation when necessary, while also focusing on a patient's internal balance to help halt the disease. Nasi draws on the latest research on the PNIE (psycho-neuro-immuno-endocrine) network to help our systems recognize, repair, or eliminate the cancer cells, focusing on nutrition, stress management, exercise, adequate sleep, healthy relationships, and other body/mind/spirit modalities. Dr. Nasi encourages patients to become empowered agents of their own care.

What is being a Human Being? Ana Bott, 2019-10-17 In this book, the author addresses classical spirituality-related topics with a fresh pair of eyes and digs into new ones offering her unique view. You'll embark upon a journey with her to answer questions such as Who is God?, Is there a spirit?, How was it created?, Is it immortal?, What is Free Will?, Are there Guides?, Who are they?, Is there more than just one universe?, What is multidimensionality?, Are there any other planetary systems like ours?, When did the man/woman become a Human Being with a soul?, What is it to live in duality?, Is there a missing link?, How was the Earth populated?, Is there intelligent life in the Universe? This book describes in a simple and straightforward -yet deep- way the connection that lies between the Soul and the physical body that shape a Human Being. The author leads the reader through a world she calls the New Metaphysics arising out of bringing together Spirituality and Science. In addition, at the end of each part of the book, you'll find a section with useful information. In Section I, there are simple techniques to work with spiritual energies that you can use on yourself or to help others. In Section II, the author explains her standpoint based on the most influential scientific theories of the 20th and 21st centuries. Dreaming the Soul Back Home Robert Moss, 2012-05-08 In this extraordinary book, shamanic dream teacher Robert Moss shows us how to become shamans of our own souls and healers of our own lives. The greatest contribution of the ancient shamans to modern healing is the understanding that in the course of any life we are liable to suffer soul loss — the loss of parts of our vital energy and identity — and that to be whole and well, we must find the means of soul recovery. Moss teaches that our dreams give us maps we can use to find and bring home our lost or stolen soul parts. He shows how to recover animal spirits and ride the windhorse of spirit to places of healing and adventure in the larger reality. We discover how to heal ancestral wounds and open the way for cultural soul recovery. You'll learn how to enter past lives, future lives, and the life experiences of parallel selves and bring back lessons and gifts. "It's not just about keeping soul in the body," Moss writes. "It's about growing soul, becoming more than we ever were before." With fierce joy, he incites us to take the creator's leap and bring something new into our world.

The Book of Ho'oponopono Luc Bodin, Nathalie Bodin Lamboy, Jean Graciet, 2016-03-17 A simple practice to heal your past and cleanse negative memories to live a more peaceful and harmonious life • Details how to apply Ho'oponopono to deal with traumatic past events, destructive thought patterns, family dynamics, daily annoyances, or any other disagreeable event in your life, from traffic jams to relationship break-ups • Draws on the new science of epigenetics and quantum physics to explain how Ho'oponopono works • Explains how the trauma of past events can cloud your perceptions and reveals how to break free from the weight of your memories Based on an ancestral Hawaiian shamanic ritual, the healing practice of Ho'oponopono teaches you to cleanse your consciousness of negative memories, unconscious fears, and dysfunctional programming and grant yourself forgiveness, peace, and love. The process is deceptively simple--first you must recognize your own responsibility for creating the events in your life, then you are ready to apply the mantra of Ho'oponopono: I'm sorry, Forgive me, Thank you, I love you. Repeated several times over a dedicated interval, the negativity is replaced with inner peace, love, and harmony--and, as the stories in this book show, sometimes even miracles take place. In this step-by-step guide, the authors explain how to apply Ho'oponopono to traumatic past events, destructive thought patterns, family dynamics, daily annoyances, or any other disagreeable event in your life, from traffic jams to relationship break-ups. Drawing on quantum physics and epigenetics, they explore how Ho'oponopono works--how thoughts and consciousness can affect the

expression of your DNA, the materialization of your goals, and the behavior of those around you. They explain how negative thought patterns and memories unconsciously guide your life and draw more negativity to you, perpetuating the cycle of bad events and clouding your recollection of the past. By apologizing to yourself, your memory, and the event in question, you can forgive yourself, heal your memories, and cleanse your perceptions. By reconciling with yourself, you open your heart to love for your experiences, yourself, and others and bring harmony to your mind, body, and the world around you.

Memories from the Future ATAO LAIS,2019-08-07 Just as we plan a building before we actually build it, why wouldn't we (the owners of hearts, brains, computers and internet connections) plan the future of humanity with the same mindfulness, before it actually manifests in the present? This book is a wake-up call to join our efforts in designing our future according to our desires, best knowledge, and common sense. It's exactly the opposite of reading our fortune in the stars, anticipating apocalypse, waiting for the last judgment, or letting the rich and powerful do the planning and building on our and the planets back. It's about choosing and building a new world that makes as much sense as possible, for us and our children. Because meaning in life is paramount, more significant than survival

El observador en Bioneuroemoción Enric Corbera, 2017-03-24 Esta obra se ha inspirado en la observación de una realidad: los seres humanos estamos experimentando una toma de conciencia nueva y más amplia. Nuestra mente se está abriendo a una búsqueda en la que interaccionan, con el fin de retroalimentarse, la espiritualidad y distintos aspectos de la ciencia, como la física, la psicología y la biología. La física cuántica explica que el observador puede alterar lo observado. De algún modo, el mundo que vemos es el mundo que queremos ver. Nuestra observación determina acontecimientos futuros que afectarán a nuestras relaciones sociales, a nuestro trabajo y, sobre todo, a nuestra salud. Nuestro objetivo es que el lector aúne todos estos conocimientos en la observación del mundo que le rodea y los acontecimientos que le toque vivir, para que así tome conciencia de su capacidad de cambiar su vida y de la importancia del acto de observar, y tenga en cuenta que para ser un buen observador ha de suprimir los juicios.

La matrice de l'âme : Le siège des antennes psychiques. Tome XI. Le pouvoir de l'intelligence intuitive et le mirage du matérialisme.- Le Silence de la Danse de l'Horloge galactique. Sekou Sanogo, 2014-12-23T00:00:00Z Il est une tradition épistémologique déjà établie qui tient pour un acquis irréversible d'avoir séparé la métaphysique, la philosophie et la religion de la science. Inversement, il est aussi tout à fait possible de manipuler des idées sans avoir précisément à l'esprit ce qu'elles représentent. Mais pourquoi vouloir opposer par et dans une hystérie nihiliste l'évidence a-logique de l'indicible de l'irrationnel à la logique rationnelle du dicible ? Comment le scientifique peut-il observer l'univers sans être observé par l'Univers ? L'Univers n'est pas sa création. Dans le cœur de tout être humain se trouvent gravées les lettres de l'Univers : Alpha et Oméga. La découverte de l'illimité pour le scientifique est sa fulgurante rencontre avec le Mystère des Mystères. La richesse de la fécondité de la science se trouve dans ses limites, d'un point de vue ontologique : la sagesse qui consiste à reconnaître par l'Illusion cosmique l'illimité au-delà de la science, dans l'âme et avec le corps. D'où l'importance de la métaphysique immatérielle pour l'étude de l'objet de la science. En attendant la Danse de l'Horloge galactique commence par la circulation énergétique du Point Zéro.
