Ethnic American Literature Emmanuel S. Nelson,2015-02-17 Unlike any other book of its kind, this volume celebrates published works from a broad range of American ethnic groups not often featured in the typical canon of literature. This culturally rich encyclopedia contains 160 alphabetically arranged entries on African American, Asian American, Latino/a, and Native American literary traditions, among others. The book introduces the uniquely American mosaic of multicultural literature by chronicling the achievements of American writers of non-European descent and highlighting the ethnic diversity of works from the colonial era to the present. The work features engaging topics like the civil rights movement, bilingualism, assimilation, and border narratives. Entries provide historical overviews of literary periods along with profiles of major authors and great works, including Toni Morrison, Maxine Hong Kingston, Maya Angelou, Sherman Alexie, A Raisin in the Sun, American Born Chinese, and The House on Mango Street. The book also provides concise overviews of genres not often featured in textbooks, like the Chinese American novel, African American young adult literature, Mexican American

autobiography, and Cuban American poetry.

Critical Companion to Zora Neale Hurston Sharon Lynette Jones, 2009 Zora Neale Hurston, one the first great African-American novelists, was a major figure in the Harlem Renaissance and an inspiration for future generations of writers. Widely studied in high school literature courses, her novels are admired for their depiction of Southern black culture and their strong female characters. Critical Companion to Zora Neale Hurston is a reliable and up-to-date resource for high school and college-level students, providing reliable information on Hurston's life and work. This new volume covers all her writings, including *Their Eyes Were Watching God*; her landmark works of folklore and anthropology, such as *Mules and Men*; and shorter works, such as her story *The Gilded Six-Bits*.

The American Biographical Novel Michael Lackey, 2016-04-07 Before the 1970s, there were only a few acclaimed biographical novels. But starting in the 1980s, there was a veritable explosion of this genre of fiction, leading to the publication of spectacular biographical novels about figures as varied as Abraham Lincoln, Ludwig Wittgenstein, Friedrich Nietzsche, Emily Dickinson, Virginia Woolf, Henry James, and Marilyn Monroe, just to mention a notable few. This publication frenzy culminated in 1999 when two biographical novels (Michael Cunningham's *The Hours* and Russell Banks' *Cloudsplitter*) were nominated for the Pulitzer Prize, and Cunningham's novel won the award. In *The American Biographical Novel*, Michael Lackey charts the shifts in intellectual history that made the biographical novel acceptable to the literary establishment and popular with the general reading public. More specifically, Lackey clarifies the origin and evolution of this genre of fiction, specifies the kind of 'truth' it communicates, provides a framework for identifying how this genre uniquely engages the political, and demonstrates how it gives readers new access to history.

Moses, Man of the Mountain Zora Neale Hurston, 1939 In this 1939 novel based on the familiar story of the Exodus, Zora Neale Hurston blends the Moses of the Old Testament with the Moses of black folklore and song to create a compelling allegory of power, redemption, and faith. Narrated in a mixture of biblical rhetoric, black dialect, and colloquial English, Hurston traces Moses' life from the day he is launched into the Nile river in a reed basket, to his development as a great magician, to his transformation into the heroic rebel leader, the Great Emancipator. From his dramatic confrontations with Pharaoh to his fragile negotiations with the wary Hebrews, this very human story is told with great humor, passion, and psychological insight--the hallmarks of Hurston as a writer and champion of black culture.

The Craft of a Good Scribe Steve Vinson, 2017-11-06 In *The Craft of a Good Scribe*, Steve Vinson offers a comprehensive study of the Demotic Egyptian First Tale of Setne Khaemwas (Third Century BCE), the first to appear since 1900. First Setne is the most important extant Demotic literary text, and among the most important fictional compositions from any period of ancient Egypt. The tale, which is by turns lurid, tragic and ultimately comic, deals with Setne's theft of a magic book written by the god Thoth himself, and subsequently Setne's punishment through a hallucinatory encounter with the ghostly femme

fatale Tabubue. Vinson provides a new textual edition and commentary, and explores the tale's cultural background, its modern reception, and approaches to its interpretation as a work of literature.

Folklore and Book Culture Kevin J. Hayes, 2016-02-05 To many observers, folklore and book culture may appear to be opposites. Folklore, after all, involves orally circulated stories and traditions while book culture is concerned with the transmission of written texts. However, as Kevin J. Hayes points out, there are many instances where the two intersect, and exploring those intersections is the purpose of this fascinating and provocative study. Hayes shows that the acquisition of knowledge and the ownership of books have not displaced folklore but instead have given rise to new beliefs and superstitions. Some books have generated new proverbs; others have fostered their own legends. Occasionally the book has served as an important motif in folklore, and in one folk genre--the flyleaf rhyme--the book itself has become the place where folklore occurs, thus indicating a lively interaction between folk, print, and manuscript culture. The author begins by examining the tradition of the Volksbucher--cheaply printed books, often concerned with the occult, whose powers are said to transcend the written text. Hayes looks in depth at one particular Volksbuch--The Sixth and Seventh Books of Moses--and proceeds, in subsequent chapters, to discuss a variety of folktales and legends, placing them within the context of book culture and the history of education. He closes with an examination of flyleaf rhymes, the little verses that book owners have inscribed in their books, and considers what they reveal about the identity of the inscribers as well as about attitudes toward book lending, book borrowing, and the circulation of knowledge. Solidly researched and venturing into areas long neglected by scholars. Folklore and Book Culture is a work that will engage not only folklorists but historians and literary scholars as well.

Wrapped in Rainbows Valerie Boyd, 2003 Traces the career of the influential African-American writer, citing the historical backdrop of her life and work while considering her relationships with and influences on top literary, intellectual, and artistic figures.

DeMille's film, *The Ten Commandments*. Wright's analysis reveals that the figure of Moses has strong currency in American culture at many levels.

One of the most important authors of the Harlem Renaissance and one of the first black anthropologists, she received little recognition during her lifetime. She was criticized by some of her contemporaries, including Richard Wright and Ralph Ellison, and her works were largely neglected until the early 1970s. Her works are now frequently taught in literature courses and are widely admired for their style and substance. Her anthropological study, *Mules and Men* (1935), is a pioneering examination of Voodoo and related folklore. As a novelist, she is best known as the author of *Jonah's Gourd Vine* (1934) and *Their Eyes Were Watching God* (1937). In addition, she was a prolific journalist who contributed to the most popular magazines and newspapers of her time. Though long neglected, Hurston has become firmly established in the literary canon, and scores of books and articles have been written about her. Ain't I an Anthropologist Jennifer L. Freeman Marshall, 2023-02-28 Iconic as a novelist and popular cultural figure, Zora Neale Hurston remains underappreciated as an anthropologist. Is it inevitable that Hurston's literary authority should eclipse her anthropological authority? If not, what socio-cultural and institutional values and processes shape the different ways we read her work? Jennifer L. Freeman Marshall considers the polar receptions to Hurston's two areas of achievement by examining the critical response to her work across both fields. Drawing on a wide range of readings, Freeman Marshall explores Hurston's popular appeal as iconography, her elevation into the literary canon, her concurrent marginalization in anthropology despite her significant contributions, and her place within constructions of Black feminist literary traditions. Perceptive and original, *Ain't I an Anthropologist* is an overdue reassessment of Zora Neale Hurston's place in American cultural and intellectual life.
