*May I Quote You, Stonewall Jackson?* Randall J. Bedwell, 1997 Explores the words and statements of great generals that represent a period in history as far removed from contemporary experience as the way of life they fought to preserve. The statements in this volume speak of duty and principle, faith and doubt, bravery in the face of certain defeat, hard choices, and the qualities of leadership that made those men great. Their wisdom, contained in their words and actions, is an immortal testament to their dignity, character and bravery.

*From the Mountains to the Bay* Ethan S. Rafuse, 2022-12-09 From January to July of 1862, the armies and navies of the Union and Confederacy conducted an incredibly complex and remarkably diverse range of operations in the Commonwealth of Virginia. Under the direction of leaders like Thomas "Stonewall" Jackson, George McClellan, Joseph E. Johnston, John Rodgers, Robert E. Lee, Franklin Buchanan, Irvin McDowell, and Louis M. Goldsborough, men of the Union and Confederate armed forces marched over mountains and through shallow valleys, maneuvered on and along great tidal rivers, bridged and waded their tributaries, battled malarial swamps, dug trenches and constructed fortifications, and advanced and retreated in search of operational and tactical advantage. In the course of these operations, the North demonstrated it had learned quite a bit from its setbacks of 1861 and was able to achieve significant operational and tactical success on both land and sea. This enabled Union arms to bring a considerable portion of Virginia under Federal control—in some cases temporarily and in others permanently. Indeed, at points during the spring and early summer of 1862, it appeared the North just might succeed

in bringing about the defeat of the rebellion before the year was out. A sweeping study of the operations on land and sea, *From the Mountains to the Bay* is the only modern scholarly work that looks at the operations that took place in Virginia in early 1862, from the Romney Campaign that opened the year to the naval engagement between the Monitor and Merrimac to the movements and engagements fought by Union and Confederate forces in the Shenandoah Valley, on the York-James Peninsula, and in northern Virginia, as a single, comprehensive campaign. Rafuse draws from extensive research in primary sources to provide a fast-paced, complete account of operations throughout Virginia, while also incorporating findings of recent scholarship on the factors that shaped these campaigns. The work provides invaluable insights into the factors and individuals who shaped these operations, how they influenced the course of the war, the relationships between political leaders and men in uniform, and how all these factors affected the development and execution of strategy, operations, and tactics.

**America Aflame** David Goldfield, 2011-03-15 In this spellbinding new history, David Goldfield offers the first major new interpretation of the Civil War era since James M. McPherson's *Battle Cry of Freedom*. Where past scholars have limned the war as a triumph of freedom, Goldfield sees it as America's greatest failure: the result of a breakdown caused by the infusion of evangelical religion into the public sphere. As the Second Great Awakening surged through America, political questions became matters of good and evil to be fought to the death. The price of that failure was horrific, but the carnage accomplished what statesmen could not: It made the United States one nation and eliminated slavery as a divisive force in the Union. The victorious North became synonymous with America as a land of innovation and industrialization, whose teeming cities offered squalor and opportunity in equal measure. Religion was supplanted by science and a gospel of progress, and the South was left behind. Goldfield's panoramic narrative, sweeping from the 1840s to the end of Reconstruction, is studded with memorable details and luminaries such as Harriet Beecher Stowe, Frederick Douglass, and Walt Whitman. There are lesser known yet equally compelling characters, too, including Carl Schurz—a German immigrant, war hero, and postwar reformer—and Alexander Stephens, the urbane and intellectual vice president of the Confederacy. *America Aflame* is a vivid portrait of the fiery trial that transformed the country we live in.

*The Divine Inquiry* Sanford Zensen, 2023-01-10 Jesus had a lot to say about the way we live out our daily lives. In the process, he asks a lot of questions that are insightful, penetrating, and thought-provoking, all demanding an honest appraisal of oneself and an appropriate, life-changing response. He asks the same questions today. For example, Why are you so afraid? What do you want me to do for you? What good will it be for a man if he gains the whole world, yet forfeits his soul? This book explores a sampling of the questions Jesus asked, as he walked the streets of the ancient world. Every divine inquiry was/is designed to confront, convict, challenge, conform, and/or comfort (cf John 16:7-13) His listeners. His intention has always been the same – to give us a fresh, new set of eyes with which to assess our individual lives, address areas of personal weakness, encourage spiritual and emotional maturity, and press us to apply practical life-principles that actually work in everyday living. His purpose is discipleship, Christlikeness. His objective is to move us to consider the deepest of truths regarding the person I am, the person I could be, and the person I must be.

**Memorials Now** Cher Krause Knight, Harriet F. Senie, 2025-02-26 A comprehensive guide to addressing the present-day challenges of commemorating the past As debates over historical monuments and their meanings unfold, *Memorials Now* offers a critical exploration of how communities can navigate the complex terrain of commemorative practices. From controversial statues to emerging forms of public memory, the topics covered in this timely volume provide insights into historical challenges while also encouraging a more inclusive and just memorial landscape for the future. Authors Cher Krause Knight and Harriet F. Senie explore evolving narratives of heroes and victims, ethical challenges of memorial design,

strategies for promoting inclusivity, and possibilities for alternative forms of commemoration. *Memorials Now* analyzes case studies from around the world in which communities are rethinking their memorials and creating innovative memorialization projects that reflect shifting cultural values. *Memorials Now* is ideal for students and educators in art history, architecture, urban planning, and cultural studies, as well as professionals in fields such as public art, city planning, museum curation, and civic engagement.

Richard S. Ewell Donald C. Pfanz, 2000-11-09 General Richard Stoddert Ewell holds a unique place in the history of the Army of Northern Virginia. For four months Ewell was Stonewall Jackson's most trusted subordinate; when Jackson died, Ewell took command of the Second Corps, leading it at Gettysburg, the Wilderness, and Spotsylvania Court House. In this biography, Donald Pfanz presents the most detailed portrait yet of the man sometimes referred to as Stonewall Jackson's right arm. Drawing on a rich array of previously untapped original source materials, Pfanz concludes that Ewell was a highly competent general, whose successes on the battlefield far outweighed his failures. But Pfanz's book is more than a military biography. It also examines Ewell's life before and after the Civil War, including his years at West Point, his service in the Mexican War, his experiences as a dragoon officer in Arizona and New Mexico, and his postwar career as a planter in Mississippi and Tennessee. In all, Pfanz offers an exceptionally detailed portrait of one of the South's most important leaders.

The American Monthly Review of Reviews Albert Shaw, 1903

*Fighting for the Confederacy* Gary W. Gallagher, 2000-11-09 Originally published by UNC Press in 1989, *Fighting for the Confederacy* is one of the richest personal accounts in all of the vast literature on the Civil War. Alexander was involved in nearly all of the great battles of the East, from First Manassas through Appomattox, and his duties brought him into frequent contact with most of the high command of the Army of Northern Virginia, including Robert E. Lee, Stonewall Jackson, and James Longstreet. No other Civil War veteran of his stature matched Alexander's ability to discuss operations in penetrating detail — this is especially true of his description of Gettysburg. His narrative is also remarkable for its utterly candid appraisals of leaders on both sides.

*New Encyclopedia of Southern Culture*, V. 17 Clarence L. Mohr, Charles Wilson, 2011 The New Encyclopedia of Southern Culture

*Quote*, 1963

Notes and Queries, 1920

*The Great Partnership* Christian B Keller, 2019-07-02 Why were Generals Lee and Jackson so successful in their partnership in trying to win the war for the South? What was it about their styles, friendship, even their faith, that cemented them together into a fighting machine that consistently won despite often overwhelming odds against them? *The Great Partnership* has the power to change how we think about Confederate strategic decision-making and the value of personal relationships

among senior leaders responsible for organizational survival. Those relationships in the Confederate high command were particularly critical for victory, especially the one that existed between the two great Army of Northern Virginia generals. It has been over two decades since any author attempted a joint study of the two generals. At the very least, the book will inspire a very lively debate among the thousands of students of Civil War history. At best, it will significantly revise how we evaluate Confederate strategy during the height of the war and our understanding of why, in the end, the South lost.

**Yea, Alabama! A Rare Glimpse into the Personal Diary of the University of Alabama (Volume 2 - 1871 through 1901 Second Edition)** David M. Battles, 2018-07-27 The University of Alabama (UA) is one of the most prominent and fascinating universities in the United States. Volume One of this series explored UA's 1819 birth, its formative years, its burning by Union soldiers, and its subsequent rebirth in 1871. Volume Two introduces a number of important elements into the ongoing narrative, including: the University's continual hassle with the radical state government through 1877; a span of only seven years wherein three UA presidents either die in office or in Tuscaloosa shortly after resigning, creating a terrible period of psychological mourning that affected everyone associated with the University; the strict admission of women students, and the effect of this on the faculty, administration, and the cadets; and the establishment of student-written works including a journal, a newspaper, and a yearbook. The volume also looks at the history of unofficial student sports dating from the 1870s and the official birth in 1892 of a school-sanctioned athletic program for football and baseball, the germ of what would eventually be named the Crimson Tide, including the first twelve rocky years of the program. It also explores the successful 1900 Student Rebellion against the military style of student government, a rebellion that would rock the very soul of the school, involving the state press, the legislature, the governor, the alumni, and the citizens of Alabama, and which witnessed the fall of the commandant and eventually of the president, thus wrenching the students out of their fluctuating but often sorrowful psychological state of mind into an ever-evolving psychology and experience of success.
