The Secrets of Tenet and the Sator Square François-Marie Périer,Romain Teixeira,2023-12-14 From the Early Christians to Christopher Nolan. What if the famous Magic Square Sator, engraved two millenia ago on the walls of Pompeii shortly before the eruption of Vesuvius, attributed to the Early Christians, and the inspiration for Christopher Nolan's film Tenet, released in 2020, had been announcing the troubled and decisive times we are living? Sator, Arepo, Tenet, Opera, Rotas: a 25 letters mandala of which numerous versions dot ancient, medieval or modern Europe, and a two thousand years old mystery. Like a living heart where ancient traditions and religions converge with contemporary discoveries in physics, such as the reversibility of Time and the question of Artificial Intelligence, the Magic Square takes us through the arcane of the Tarot, Gnosis, Hebrew Wisdom and their links to Egypt, Christian Mysticism and the Renaissance. It also allows us to decipher for the first time the work of Christopher Nolan, also director of The Prestige, Batman, Interstellar, Inception and Oppenheimer. In the center of the Sator Square, a cross is formed by Tenet, the name of the director of the CIA at the time of September 11, 2001. Space and Time, Eternity, the destiny of Human kind, its quest for freedom are simultaneously hidden and revealed in the Sator Square, as well as C.G.Jung's necessary reconciliation of the opposites at the crossing point between the Pisces era and the Aquarian era we are encountering. We live in a twilight World is the device of Tenet. But the Sator Square also announced us the dawn of a new one.

Alternative Conceptions of the Spiritual Travis Dumsday,2024-08-22 Analytic philosophy of religion and philosophical theology are known for being focused on issues pertaining specifically to Judeo-Christian theism. This volume answers the call for novel work on a broader range of ideas about the spiritual, engaging with key concepts and neglected recent literature from other traditions. Alternative Conceptions of the Spiritual engages with polytheism, animism, panspiritism and theophanism as propounded by recent philosophers and members of lesser-known spiritual traditions and new religious

movements. Summarizing and assessing their core ideas and arguments with both clarity and sympathy, Dumsday combines respectful dialogue with logical rigour. Providing an accessible introduction to a rich and nuanced set of traditions largely overlooked in contemporary philosophical scholarship, the work will be welcomed by philosophers, theologians and students of new religious movements.

Song of the Dark Man Darragh Mason, 2024-08-06 • Explains the Dark Man phenomenon through centuries-old folklore and mythology, testimony from British witch trials, and modern accounts • Challenges the simplistic concept of the Devil as “evil,” explaining how encounters with this entity can reveal one’s life purpose and how the Dark Man can be an initiator into witchcraft • Presents interviews with those who have witnessed the Dark Man firsthand, offering insights into how he can serve as a guide to a more positive life From the forteen phantoms that terrorized Victorian England to the haunted crossroads of the Irish hinterlands, the Devil—also known as the Dark Man—has found countless novel ways to influence culture and bring us face to face with our fears. Tracing this enigmatic entity through the centuries via mythology, folklore, occult writings, and modern accounts, Darragh Mason shows how the Dark Man is more than just a myth: he is a real presence in our world. Drawing on Irish manuscripts dating back to the 12th century, testimony from 17th-century Scottish witches, his own experiences, and interviews with contemporary witches and mystics, Mason builds the case for the pattern of the Dark Man phenomenon, showing what his presence can mean, what it’s like for those who experience him, and how his appearance serves as a calling to the path of witchcraft. In doing so, Mason challenges conventional understandings of the Dark Man as an evil presence, emphasizing his role in questioning authority and liberating individuals from the confines of strict social convention. He shows how the Dark Man’s presence serves as a potent illustrator of the battles between light and dark. But, Mason emphasizes, these stories of the Dark Man are not necessarily just folktales. Sharing a series of interviews with contemporary figures, including Orion Foxwood and Peter Grey, who speak of the nature of this spirit and their experiences with him, the author illustrates how encounters with the Dark Man can challenge you to make changes—often painful ones—and how if you meet his challenges, you may be bestowed with mystical gifts and initiated into witchcraft. Ultimately, Mason shows how the Dark Man may be a liberating figure: if one faces him and moves beyond the fear, he can open the door to a richer, more fulfilling, and more magical life.

The Bible Conspiracy David Klooz, 2025-02-23 Most people are not aware that numerous cataclysmic events significantly shaped Earth's history, including advanced civilizations like Atlantis and Lemuria, which were destroyed and forgotten over time. Nor do many know that Earth was once part of a system orbiting Saturn, and that major cosmic events involving Saturn, Jupiter, and other planets influenced Earth's development and ancient mythologies and religions. Also, very few individuals realize that many biblical characters, including Jacob, Moses and King David, were based on historical Egyptian figures, and that the Bible was heavily influenced by Egyptian texts, rituals, religion, morals and artifacts. Moreover, few are aware of the influence of ancient mystery schools on the development of philosophical and religious thought, suggesting that secret societies have preserved and transmitted esoteric and occult knowledge through the ages to only the initiates of those societies. The concept of a plasma and an electric universe proposes that electrical forces play a critical role in cosmic events and planetary interactions, challenging traditional gravitational theories. Plasma is also related to the real purpose and mysteries surrounding the Great Pyramid, whose construction reflects sophisticated scientific knowledge of the Earth, Solar System and Universe. In the end, readers will understand that like most stories, this one is about the psychopathic need of the few for control and the bending of humankind's will, in this case by means of religion and money - the worst two innovations of humankind. There have never been wars between civilizations, but only Class Wars that create them. This is the story of an ancient priestly cult that, through esoteric and occult knowledge, has been able to create and control events that keep humankind in chains.

Autour du Carré Magique François-Marie Périer, Romain Teixeira, 2022-10-14 Et si le célèbre Carré Magique Sator, gravé sur les murs de Pompéi peu avant l'éruption du Vésuve, attribué aux Premiers Chrétiens et inspirateur du film de Christopher Nolan Tenet, sorti en 2020, nous avait annoncé depuis presque 2000 ans les temps troublés et décisifs que nous vivons ? Sator, Arepo, Tenet, Opera, Rotas... un mandala de 25 lettres, dont de nombreuses versions constellent l'Europe antique, médiévale ou moderne, pour un dialogue qui explore les enjeux les plus actuels d'un mystère deux fois millénaire. Tel un cœur vivant où confluent les traditions et religions anciennes, les découvertes contemporaines de la physique comme la réversibilité du Temps et la question de l'Intelligence artificielle, le Carré Magique amène à parcourir les arcanes du Tarot, de la Gnose, de la Sagesse hébraïque et leurs liens à l'Égypte, au Mysticisme chrétien, à la Renaissance, tout en décryptant pour la première fois l'oeuvre de Christopher Nolan. Au centre du Carré Sator, une croix formée par Tenet, nom du directeur de la CIA au moment du 11 septembre 2001.

The Cult of the Hyper-Worm Colin Litten-Brown, 2015-09-14 Cill was different, that much he knew but of his past he had no memory. While he remained on the farm, herding Bopes, with his friend Balton and his daughter Senya he knew he was safe but the time was rapidly coming when he knew he would have to leave, to head to the city where, perhaps, the answers to the riddle of his life lay. Even if he chose to hide, the time of safety was drawing to a close. Grayheme the rebel had disappeared and the brotherhood scoured the land for any sign of his passage, all the while squeezing the population for heavier and heavier taxes. With a time of census drawing close and the priests threatening to invade his secluded life, Cill knew that he would have to face his past, discover the secret of his life and, almost certainly, confront the Cult of the Hyper-Worm.

Until the Sun Breaks Down: A Künstlerroman in Three Parts Joseph Nicolello, 2021-02-26 Written when the author was in his early and mid-twenties, *Until the Sun Breaks Down* is a contemporary American Künstlerroman modeled on Dante's *Divine Comedy*. In three parts and one hundred chapters that mirror Dante's classic poem, Nicolello takes the reader through present-day American towns and cities: infernal, purgatorial, and paradisaical aspects with nothing left off the table. In the third and final volume, structurally modeled on Dante's *Paradiso*, the national themes of interior and exterior decline reach a head before anything like peace is found for anyone. For that matter, the text takes on an Augustinian turn: the City of Man vs. the City of God, with William Fellows coming to the end of the line of temporal pleasures and escapes, and even disillusionment with San Francisco, or the furthest end of western civilization. It is here that the character Octavia begins to take on the role of Beatrice, guiding William to safe passage--but not before hallucinatory episodes in both the city and the town, or San Francisco and Jerusalem.

Omega Project Cinzia Palmacci, The plot is at high tension, the pages will transport the reader into a surreal atmosphere, but also draws many cues from the reality of the news that we learn every day. From the first pages, the novel transmits to

those who read it the impression that there is a red thread that connects all the characters between them in a great drawing drawn by an invisible but wise hand. Paride, Miriam, Father Miguel and a dark and diabolical plan to subject humanity and the planet to a dark power, which has something else in mind when its followers take part in the ritual sacrifices of innocent souls. The Cabal of Moloch and Saturn Cosmology David Klooz, 2023-11-15 This book is a short description of how Zionist zealots have planned and implemented messianic protocols since 3,000 BCE by writing a bible that stole creation myths from the Babylonian Enuma Elish and the Egyptian Book of the Dead and by stealing the sacred stones of the Egyptian Ark of the Great Pyramid under the leadership of Akhenaten (Moses) and fleeing to Palestine where they, once again, took over the land occupied by the Canaanites and called it Israel. Archeologic and genetic data support that both Jews and Palestinians came from ancient Canaanites, who extensively mixed with Egyptians, Mesopotamian, and Anatolian peoples in ancient times. Thus, Palestinian-Jewish rivalry is based solely on cultural and religious, but not in genetic differences. Does anyone really believe that the storm God El, then Baal, then combined with Yahweh wrote the bible and decided that Jews would be the chosen people. Since the Spring of 2020, when mandated Covid-19 vaccines began, excess deaths have increased dramatically across the globe to about 20%, while unknown causes of death have increased significantly. The numerous lockdowns (stay at home of the workforce), fear campaigns, COVID-19 policy mandates imposed on approximately 193 member states of the United Nations have also contributed to undermining and destabilizing the very fabric of civil society and its institutions including education, culture and the arts, social gatherings, sports, entertainment; all public sector activities including physical and social infrastructure, social services, law enforcement; all major private sector activities which characterize national, regional and local economies including small, medium and large corporate enterprises, family farms, industry, wholesale and retail trade, the urban services economy, transport companies, airlines, hotel chains; the structures of the global economy including international commodity trade, investment, import and export relations between countries, while the entire landscape of the global economy has been shattered. Each culture has a 'Creation Myth' that is contained in their own understanding of those cataclysm events that occurred between 10,500 BCE and 685 BCE. The West has primarily used the myth in the Judeo-Christian bible. However, you would think in the year 2020 people would understand that the bible is fiction and has significant reasons for concern, such as the following: the similarities of stories; obvious rehashing of numerous previous character; unavoidable contradictions; significant moral problems, including rape, murder and incest, and an abundance of nagging questions. Unless you are mindless, one can easily understand that a book like this can be used mainly for control, but in some hands it can be used to create a self-fulfilling prophecy. The Bible Is Really the Story of Creation of the Solar System. The Bible was initially stories that were written down and cobbled together and tales told verbally by their descendants over thousands of years that tried to explain the birth of the present Solar

System, and what the survivors witnessed. It began in about 10,500 BCE and ended about 685 BCE. Millions of years ago, our Earth and was created by an expulsion of plasma from its brown dwarf star, now known as the Planet Saturn. Mars was also created from a plasma expulsion from the brown dwarf, when it came under electrical stress in the plasma Universe. Saturn, as a brown dwarf, with the Earth and Mars within its plasma glow mode, had an atmosphere of salt, hydrocarbons and water that misted down on both planets for millions or billions of years, providing its oceans and oil pockets. Brown dwarfs are known to be the best home for the development of life since the glow mode provides one warm temperature with no seasons and promotes growth under its ultraviolet and infrared atmosphere. It has recently been discovered that Saturn is the only planet with the same molecular type of water as Earth. Our Earth does not wobble around its pole, as is currently believed, every 25,920 years due to solar-lunar forces acting on the Earth. It was known long ago by the Ancients that the so called change in some stars 'precessing' against the sky was caused by the path of our sun and planets and other stars travelling and revolving around electric Birkeland Current filaments that circle around certain stars; the star Arcturus, the star Alcyone and the star Sirius. The revolution of our current Sun with Sirius occurs every 25,000 years, with the Arcturus filament stream every 550,000 years and with Alcyone, and the Pleiades star system, every 26-27 million years. This last cycle is important since it corresponds to the same 26-27 million year extinction cycle of our Earth. It is believed that Earth's extinction level events occurred as the Saturnian System with Earth and Mars within its orbit crossed the position of our current Sun and its planets every 26-27 million years, resulting in the mass extinctions. The biology of Earth is such a complete accident, and so utterly unlikely that it will probably not have ever been duplicated anywhere, at anytime, among the billions of other star systems. But here on Earth, all of it, especially the rise of complex species since the Cambrian, 560 million years ago, can be attributed to a series of cataclysmic plasma strikes by Saturn, each of a very long duration: biologists claim 10,000 years for the extinction events. At about 10,500 BCE, the Earth, at that time a planet of the Sun, made an electric field contact with Saturn, causing 1500 years of darkness on Earth. The period of darkness is recognized by many of the world's creation myths and was recorded in the illustrated graphic books of Mesoamerica, references to which are made in the Colonial period documents. Climatologically, the period is identified today as the Younger Dryas, when for some 1500 years Earth got as cold as it had ever been. Over the next 7000 years the orbit of Earth, apparently equal to the orbit of Saturn at that time, but below Saturn, progressively moved laterally to have the Earth's orbital path eventually travel below the centre of Saturn. Thus, between 10,500 BCE and 3147 BCE, earth was part of a strange configuration of stacked planets, a condition which provided long summers and a mild climate in the northern hemisphere. Planets, dominated by the giant form of Saturn, stood above the north horizon and close to Earth but measured in millions of miles and were taken by humans to be the Gods who supported them and for whose benefit they labored at agriculture and conducted trade. In 4070 BCE, Saturn dropped its coma. This had been the 'chaos before creation', which had lasted some 7,000 years and had

obscured Saturn and its companion satellites. Saturn went Nova, and switched to arc mode. In a mass expulsion Saturn produced its rings and a new satellite, Venus. Saturn lit up more brilliantly than the Sun. For humans of Earth, who had not clearly seen the real Sun for thousands of years because of the shadow of the Younger Dryas, followed by the obscurity of the enclosing plasmasphere of Saturn, this was the creation, the start of time, and the first showing of the land and its resident Gods, the satellites of Saturn. Saturn was universally called the Sun throughout the world at this time. In 3147 BCE, as Mars began the oscillate between Venus and Earth this configuration of standing planets became unstable and broke apart, with the three large planets moving away from the Sun, while Earth, Venus and Mars were released to their overlapping inner orbits. The breakup produced a stupendous flood waters, which had been held at the south polar region due to gravitational attraction of Saturn for some 7,000 years. The water held at the South Pole was due to the lifting up of the Earth's crust in the Arctic, and the sinking toward the Earth's interior in Antarctica. This was the end of the 'Golden Age'. When the Solar System re-arrangement was complete it formed the basis of all religions, myths and mystery schools.

Symbols Of The Occult II Max Ivanova, Hidden within the vast realms of occultism exists a reality that remains invisible to the ordinary mind, a reality of archaic origin that whispers in the secret language of the cosmos: the Symbol. Far from being a mere drawing or decorative sign, the Symbol is a vessel of power, a bridge between the visible and the invisible, a silent code through which the universe reveals its eternal mysteries. In these pages you will encounter the hidden meaning of many of the most revered symbols in the esoteric traditions, those used for centuries by alchemists in their search for transmutation, by magicians in their invocations and rituals, and by sages of sacred geometry who saw in numbers and forms the reflection of divine order. Each symbol is a key, and each key opens a door to an inner world where knowledge and transformation await. For those who have already set foot upon the esoteric path, the study of symbols is not optional but fundamental. To understand them is to learn the secret grammar of existence, to awaken to the truths that lie beneath appearances, and to enter into communion with the hidden forces that shape reality. This book is an invitation to cross the threshold and discover the silent yet eloquent voice of the universe speaking through the eternal language of symbols.

Kubrick and the Deep State Heracles Harixcalde, 2024-09-12 By exploring the secrets of Kubrick's filmography, the author, who describes himself as the anti-Harari, reveals the stages and key actors of the global mind control project, as well as its spiritual and technological workings. This analysis, situated at the crossroads of psychosociology, science, organizational theory, religion, cosmology, and detective fiction, will show you how Kubrick's symbolic and initiatory cinema, aided by the intuitive reasoning of psychoanalyst CG Jung, hides, much like Leonardo da Vinci in his time, the keys to understanding the universe. At once an explanation of artificial karma, a manifesto for a better future, and a survival guide against transnational organizations, the author presents a subversive, profound, useful, and accessible book, but one not to be placed in just anyone's hands. Volume I from the *Mysterium Australis* Trilogy which aims to expose the key and discreet

role of Australia in the global satanic oligarchy.
