Heku CD Moulton,

They Who Forever Own the Night C. Wayne Owens, 2006 Harry Dante comes home to Kansas City, but he is a man lost in time. When he left, it was the 1940s, and he knew everything about everybody. Now it is the 1960s, and he is a walking anachronism. He now has to deal with a new kind of gangster, disappearing kids called hippies, and the one thing he could not have expected: the dark shapes that are taking the youngsters may be vampires. The hard-boiled gumshoe has to adapt quickly or die the same way.

Words Kill David Myles Robinson, 2021-06-15 Famed reporter Russell Blaze is dead. It appears to be an accident, but after Russ's funeral, his son, Cody, finds a letter in which his father explains that the death may have been murder. It directs Cody to Russ's unfinished memoir for clues as to what may have happened. The opening words are: On the night of October 16, 1968, I uttered a sentence that would haunt me for the rest of my life. The sentence was, "Someone should kill that

motherfucker.” As Cody delves into the memoir, a window opens into a tragic past and thrusts the still-burning embers of another time’s radical violence into the political reality of the present. History that once seemed far away becomes a deeply personal immersion for Cody into the storied heyday of the Haight: drugs, sex, war protesters, right-wing militias, ground-breaking journalism—and the mysterious Gloria, who wanders into his father’s pad one day to just “crash here for a while until things calm down.” Cody discovers aspects of his father’s life he never knew, and slowly begins to understand the significance of those words his father spoke in 1968. *Words Kill* is a story of loss, violence, and racism; love, hate, and discovery. It is a story of then . . . and now.

Sexy Like Us Teresa Milbrodt, 2022-07-27 *Sexy Like Us: Disability, Humor, and Sexuality* takes a humorous, intimate approach to disability through the stories, jokes, performances, and other creative expressions of people with disabilities. Author Teresa Milbrodt explores why individuals can laugh at their leglessness, find stoma bags sexual, discover intimacy in scars, and flaunt their fragility in ways both hilarious and serious. Their creative and comic acts crash, collide, and collaborate with perceptions of disability in literature and dominant culture, allowing people with disabilities to shape political disability identity and disability pride, call attention to social inequalities, and poke back at ableist cultural norms. This book also discusses how the ambivalent nature of comedy has led to debates within disability communities about when it is acceptable to joke, who has permission to joke, and which jokes should be used inside and outside a community’s inner circle. Joking may be difficult when considering aspects of disability that involve physical or emotional pain and struggles to adapt to new forms of embodiment. At the same time, people with disabilities can use humor to expand the definitions of disability and sexuality. They can help others with disabilities assert themselves as sexy and sexual. And they can question social norms and stigmas around bodies in ways that open up journeys of being, not just for individuals who consider themselves disabled, but for all people.

Blind Lake Robert Charles Wilson, 2004-07-11 Robert Charles Wilson, says The New York Times, writes superior science fiction thrillers. His *Darwinia* won Canada's Aurora Award; his most recent novel, *The Chronoliths*, won the prestigious John W. Campbell Memorial Award. Now he tells a gripping tale of alien contact and human love in a mysterious but hopeful universe. At Blind Lake, a large federal research installation in northern Minnesota, scientists are using a technology they barely understand to watch everyday life in a city of lobster like aliens upon a distant planet. They can't contact the aliens in any way or understand their language. All they can do is watch. Then, without warning, a military cordon is imposed on the Blind Lake site. All communication with the outside world is cut off. Food and other vital supplies are delivered by remote control. No one knows why. The scientists, nevertheless, go on with their research. Among them are Nerissa Iverson and the man she recently divorced, Raymond Scutter. They continue to work together despite the difficult conditions and the bitterness between them. Ray believes their efforts are doomed; that culture is arbitrary, and the aliens will forever be an enigma. Nerissa believes there is a commonality of sentient thought, and that our failure to understand is our own ignorance, not a fact of nature. The behavior of the alien she has been tracking seems to be developing an elusive narrative logic--and she comes to feel that the alien is somehow, impossibly, aware of the project's observers. But her time is running out. Ray is turning hostile, stalking her. The military cordon is tightening. Understanding had better come soon.... *Blind Lake* is a 2004 Hugo Award Nominee for Best Novel.
