Estudios interdisciplinarios de las élites en Colombia Gamba Trimiño, Alexander, Acosta Oidor, Catalina, Salazar Baena, Verónica, Cruz Medina, Juan Pablo, Vanegas Muñoz, Laura Ximena, Gutiérrez Gómez, Alejandra, Escobar Hernández, Karla Luzmer, Serrano Corredor, Camilo, Barrera Gutiérrez, María Camila, Fletscher Fernández, Constanza del Rocío, Valencia Llano, Alonso, Fernández Chavarría, José Luis, Paz Gómez, Diana Marcela, Urrea Canales, Miguel, Robayo Cante, Ivonne Andrea, Dávila Barón, Daniel Antonio, Velosa Mendieta, Maryam Julieth, Parra Molina, Edward Santiago, 2023-03-25 Los estudios sobre las élites han sido un fecundo campo de investigación en las ciencias sociales tal como en el caso de los países latinoamericanos lo demuestra la existencia del Observatorio de Élités Argentinas del Observatório de elites políticas e sociais do Brasil y del Observatorio de Élités Parlamentarias de América Latina. Si bien en Colombia en la última década el tema ha sido desplazado en favor de estudios sobre grupos subalternos, recientes experiencias de investigación demuestran que los estudios sobre élites no rivalizan con las investigaciones sobre la subalternidad sino que por el contrario las complementan. Asumir el análisis de las élites no significa en ningún sentido que el poder se ejerza de manera unilateral. Más bien proponemos este tema de estudio partiendo de la idea de que el poder significa conflicto y disputa con los grupos subalternos e incluso con otras élites que no están en el centro de los círculos del poder o bien con aquellas que Fals Borda (1967) llamó antiélites, que son esos sectores del poder que actúan en contravía de aquellas.

Debates y desafíos para los derechos humanos en Colombia Barraza Morelle, Cecilia, 2020-07-31 Durante el año 2018, parte del equipo de docentes de la Maestría en Defensa de los Derechos Humanos y el Derecho Internacional Humanitario de la Facultad de Derecho de la Universidad Santo Tomás realizó un trabajo de investigación que se concreta en esta publicación titulada Debates y desafíos para los derechos humanos en Colombia. La investigación, a partir del análisis de diversas problemáticas en materia de derechos humanos vigentes en Colombia, tanto vinculadas al posconflicto como otras que responden a situaciones estructurales y al contexto general que vive el país, buscó responder a la pregunta: ¿de qué forma las acciones de exigibilidad y justiciabilidad de los derechos humanos han permitido un mayor reconocimiento y ejercicio de estos en el contexto colombiano y cuáles son las barreras que persisten o las respuestas sociales para limitarlos y cuáles son las acciones o desafíos para ampliar el marco de su aplicación?

Método prudencial, una perspectiva para la reparación colectiva de una comunidad religiosa. Moreno Durán, Álvaro Hernán, Sánchez Giraldo, Cristhian Fernando, Villani Campo, Paula Marcela, Calderón Sánchez, Dulfary, Ballesteros Moreno, María Constanza, 2022-12-16 Para el desarrollo del proyecto se hizo una delimitación espacial respecto a la ubicación de la población de Unión Berrecuy Medio Baudó Chocó y se consideraron los hechos ocurridos a partir de 2008 relacionados con la posible transculturización que el grupo social ha sufrido con el impacto violento derivado de las acciones de los grupos al margen de la ley, que se suponen han trastocado el “habitus individual que posiblemente constituye un habitus colectivo de la comunidad” (Moreno Durán y Ramírez 2018), que históricamente se ha constituido a partir de los principios religiosos menonitas con los cuales se ha fortalecido una cohesión social y una especie de plataforma de memoria colectiva. Estas dos últimas se cree se han visto afectadas por la intromisión violenta; por tanto la cohesión y algunos constructos mentales de los pobladores deberían repararse a la luz de la reparación colectiva-simbólica. En el marco de la violencia que aqueja a Colombia se vulneró a la comunidad religiosa menonita constituida como una minoría establecida en el Chocó. Esta comunidad fue violentada por grupos armados no revestidos de legalidad, que desde 2008 hasta 2010 transgredieron y generaron víctimas en la población civil del corregimiento de Pie de Pepé en Unión Berrecuy del Medio Baudó y a los dirigentes de esa iglesia. Lo que ocurrió tiene que ver con desplazamiento forzado asesinatos selectivos violaciones y desapariciones que provocaron un daño subjetivo y social caracterizado por perjuicios en posesiones y bienes materiales e inmateriales como daños psicológicos y ruptura de la cohesión social (Fiedler y Rohles 2021) vistos desde el campo sociológico. En consecuencia los hechos violentos perpetrados contra la comunidad quebrantaron la cohesión social del sujeto comunitario e implicaron una disarmonía en la estabilidad organizada material y de la psique desde la arista social.

Del Caracazo a la Mane Gamba Trimiño, Alexander, 2023-03-25 Es importante reflexionar sobre las dos décadas de resistencia impugnación y ofensiva de los movimientos sociales frente al régimen que surgió en los países andinos fruto de la doble transición: el retorno a la democracia liberal y el inicio del neoliberalismo. Esa es la reflexión que presenta Alexander Gamba en este libro fruto de su investigación de maestría en la UNAM. El autor se pregunta sobre los actores sociales su organización y repertorios así como por el proceso sociopolítico que enmarcan los movimientos en el periodo 1989-2011. El autor escoge para el análisis movilizaciones emblemáticas que se realizan en los cinco países andinos: el Caracazo de los barrios populares en Venezuela, los levantamientos indígenas en Ecuador, las guerras del agua y del gas en Bolivia, las luchas territoriales en Perú, así como las acciones de indígenas y estudiantes en Colombia entre otras muchas movilizaciones significativas. Diferencia sus demandas porque cuestionan las políticas neoliberales por su contenido democrático y las

reivindicaciones de carácter étnico.

El derecho colombiano y la apertura en los debates sociales contemporáneos Álvaro Hernán Moreno Durán, 2021-01-14 Esta obra presenta la discusión debatible en la época contemporánea sobre distintas perspectivas globales del derecho, con el fin de revisar cómo Colombia ha ostentado una realidad particular respecto del orden democrático, el eje de participación y el ámbito moderno. Las investigaciones que aquí se compendian buscan entender la transformación social, en relación con los problemas particulares de la sociedad colombiana, teniendo en cuenta los contextos internacionales que inciden en el derecho y en la política. Más que un manual, Investigación sensible. Metodologías para el estudio de imaginarios y representaciones sociales lleva implícito un trasfondo epistemológico sobre una de las corrientes de pensamiento que ha venido formando escuela en Iberoamérica y cimentando un acercamiento responsable al conocimiento, desde el investigador que busca conocer y sentir la realidad como parte de sí

Handbook of Research on Emerging Business Models and the New World Economic Order Saiz-Alvarez, Jose Manuel, 2021-10-15 The COVID-19 pandemic is causing a radical change in both the economic and business paradigms that have ruled countries for decades. Emerging models are leading to a new world economic order predictably led by China and the United States.
