Tech-Noir Paul Meehan, 2015-08-13 This critical study traces the common origins of film noir and science fiction films, identifying the many instances in which the two have merged to form a distinctive subgenre known as Tech-Noir. From the German Expressionist cinema of the late 1920s to the present-day cyberpunk movement, the book examines more than 100 films in which the common noir elements of crime, mystery, surrealism, and human perversity intersect with the high technology of science fiction. The author also details the hybrid subgenre's considerable influences on contemporary music, fashion, and culture.

Hong Kong Neo-Noir Esther Yau, 2017-04-28 The first comprehensive collection on the subject of Hong Kong neo-noir cinema, this book examines the way Hong Kong has developed its own unique and culturally specific version of the neo-noir genre, while at the same time drawing on and adapting existing international noir cinemas. With a range of contributions from established and emerging scholars, this book illuminates the origins of Hong Kong neo-noir, its styles and contemporary manifestations, and its connection to mainland China. Case studies include classics such as *The Wild Wild Rose* (1960) and more recent films like *Full Alert* (1997) and *Exiled* (2007), as well as an in-depth look at the careers of iconic figures like Johnnie To and Jackie Chan. By examining at its past and its contemporary development, Hong Kong Neo-Noir also points towards the genre's possible future development.

Historical Dictionary of Film Noir Andrew Spicer, 2010-03-19 Film noir-literally black cinema-is the label customarily given to a group of black and white American films, mostly crime thrillers, made between 1940 and 1959. Today there is considerable dispute about what are the shared features that classify a noir film, and therefore which films should be included in this category. These problems are partly caused because film noir is a retrospective label that was not used in the 1940s or 1950s by the film industry as a production category and therefore its existence and features cannot be established through reference to trade documents. The *Historical Dictionary of Film Noir* is a comprehensive guide that ranges from 1940 to present day neo-noir. It consists of a chronology, an introductory essay, a bibliography, a filmography, and over 400

cross-referenced dictionary entries on every aspect of film noir and neo-noir, including key films, personnel (actors, cinematographers, composers, directors, producers, set designers, and writers), themes, issues, influences, visual style, cycles of films (e.g. amnesiac noirs), the representation of the city and gender, other forms (comics/graphic novels, television, and videogames), and noir's presence in world cinema. It is an essential reference work for all those interested in this important cultural phenomenon.

Neo-Noir as Post-Classical Hollywood Cinema Robert Arnett, 2020-08-31 Neo-Noir as Post-Classical Hollywood Cinema suggests the terms “noir” and “neo-noir” have been rendered almost meaningless by overuse. The book seeks to re-establish a purpose for neo-noir films and re-consider the organization of 60 years of neo-noir films. Using the notion of post-classical, the book establishes how neo-noir breaks into many movements, some based on time and others based on thematic similarities. The combined movements then form a mosaic of neo-noir. The time-based movements examine Transitional Noir (1960s-early 1970s), Hollywood Renaissance Noir in the 1970s, Eighties Noir, Nineties Noir, and Digital Noir of the 2000s. The thematic movements explore Nostalgia Noir, Hybrid Noir, and Remake and Homage Noir. Academics as well as film buffs will find this book appealing as it deconstructs popular films and places them within new contexts.

Horror Noir Paul Meehan, 2014-01-10 This critical survey examines the historical and thematic relationships between two of the cinema's most popular genres: horror and film noir. The influence of 1930s- and 1940s-era horror films on the development of noir is detailed, with analyses of more than 100 motion pictures in which noir criminality and mystery meld with supernatural and psychological horror. Included are the films based on popular horror/mystery radio shows (The Whistler, Inner Sanctum), the works of RKO producer Val Lewton (Cat People, The Seventh Victim), and Alfred Hitchcock's psychological ghost stories. Also discussed are gothic and costume horror noirs set in the 19th century (The Picture of Dorian Gray, Hangover Square); the noir elements of more recent films; and the film noir aspects of the Hannibal Lecter movies and other serial-killer thrillers.

The Philosophy of Neo-Noir Mark T. Conard, 2007-01-05 A collection of essays exploring the philosophical elements present in Neo-Noir films. Film noir is a classic genre characterized by visual elements such as tilted camera angles, skewed scene compositions, and an interplay between darkness and light. Common motifs include crime and punishment, the upheaval of traditional moral values, and a pessimistic stance on the meaning of life and on the place of humankind in the universe. Spanning the 1940s and 1950s, the classic film noir era saw the release of many of Hollywood's best-loved studies of shady characters and shadowy underworlds, including Double Indemnity, The Big Sleep, Touch of Evil, and The Maltese Falcon. Neo-noir is a somewhat loosely defined genre of films produced after the classic noir era that display the visual or thematic hallmarks of the noir sensibility. The essays collected in The Philosophy of Neo-Noir explore the philosophical implications of neo-noir touchstones such as Blade Runner, Chinatown, Reservoir Dogs, Memento, and the films of the Coen

brothers. Through the lens of philosophy, Mark T. Conard and the contributors examine previously obscure layers of meaning in these challenging films. The contributors also consider these neo-noir films as a means of addressing philosophical questions about guilt, redemption, the essence of human nature, and problems of knowledge, memory and identity. In the neo-noir universe, the lines between right and wrong and good and evil are blurred, and the detective and the criminal frequently mirror each other's most debilitating personality traits. The neo-noir detective?more antihero than hero?is frequently a morally compromised and spiritually shaken individual whose pursuit of a criminal masks the search for lost or unattainable aspects of the self. Conard argues that the films discussed in *The Philosophy of Neo-Noir* convey ambiguity, disillusionment, and disorientation more effectively than even the most iconic films of the classic noir era. Able to self-consciously draw upon noir conventions and simultaneously subvert them, neo-noir directors push beyond the earlier genre's limitations and open new paths of cinematic and philosophical exploration. Praise for *The Philosophy of Neo-Noir* "Conard can feel confident that these terrific essays will be of interest to film enthusiasts, particularly fans of Neo-Noir. Additionally, for those who come to this volume with some background in philosophy, not only will they be pleased to find fellow philosophers offering accessible introductions to philosophical thinkers and ideas but they are sure to increase their understanding of noir, Neo-Noir, and many familiar film titles, as well as more deeply appreciate the ways in which popular film and television offer wide and varied avenues to doing good philosophy." —Kimberly A. Blessing, co-editor of *Movies and the Meaning of Life* "Taking up such latter-day classics as *Chinatown*, *Blade Runner*, and *Memento*, this volume explores how contemporary filmmakers have taken up the challenge of classic film noir and broadened the genre. In this analysis, even the pastel shades of *South Beach* take on a dark coloring in *Miami Vice*. These probing essays locate what is neo in Neo-Noir and thus define it as a postmodern genre." —Paul Cantor, author of *Gilligan Unbound: Pop Culture in the Age of Globalization* "This collection will serve as a terrific interdisciplinary guide through the chaotic, intriguing world of postmodernist thought as it relates to film and philosophy." —Choice

Reading Richard Matheson Cheyenne Mathews, Janet V. Haedicke, 2014-05-07 Richard Matheson (1926-2013) was a prolific author and screenwriter whose career helped shape the horror and fantasy genres in literature, film, and television for over sixty years. Matheson authored more than ninety short stories and dozens of novels, many of which—including *I Am Legend*, *A Stir of Echoes*, *What Dreams May Come*, *The Shrinking Man*, *Hell House*, and *Bid Time Return*—have been adapted into feature films. Despite his extensive body of work and influence, however, Matheson has remained largely outside the scope of academic scrutiny. The essays in *Reading Richard Matheson: A Critical Survey* provide the first critical overview of Matheson's texts, covering seven of Matheson's novels, a sampling of short stories, and several adaptations for both film and television. The essays are arranged thematically and address the sociopolitical anxieties reflected in Matheson's oeuvre; consider his precursors and successors; and situate him within narrative traditions of mythology, cinema,

genre, and memory studies. By providing an overview of his career, *Reading Richard Matheson* illustrates how a commercial writer can contribute to academic discourses of literature and film. Though the essays use a variety of theoretical frameworks, the crossover nature of the collection reflects the broad range of Matheson's output. As such, this volume will appeal to fans of Matheson's work in general as well as scholars of literature, film studies, cultural studies, genre studies, media studies, memory studies, and popular culture.

Another Life Andrew Vachss, 2009-09-15 In this blistering conclusion to the nationally bestselling series, Burke is forced into a journey that will change the lives of the urban survivalist and his outlaw family forever. The only person Burke has ever called father, known throughout the underground as "The Prof," is in a coma, barely clinging to life in an off the-books hospital. So when Pryce, a slippery man with government connections, offers the best medical services for the Prof and a clean slate for all concerned, Burke takes the contract without reading it. The two-year-old son of a Saudi prince has been kidnapped. A highly professional snatch; no mistakes, no clues, and no ransom note. Burke's job: get the kid back, whatever it takes. To do so, the ultimate man-for-hire must return to the day "Baby Boy Burke" was written on his birth certificate, and write, in the blood of his enemies, the final act of this story.

Politics in Popular Movies John S. Nelson, 2015-10-23 Popular movies can be surprisingly smart about politics - from the portentous politics of state or war, to the grassroots, everyday politics of family, romance, business, church and school. *Politics in Popular Movies* analyses the politics in many well-known films across four popular genres: horror, war, thriller and science fiction. The book's aims are to appreciate specific movies and their shared forms, to understand their political

engagements and to provoke some insightful conversations. The means are loosely related 'film takes' that venture ambitious, playful and engaging arguments on political styles encouraged by recent films. *Politics in Popular Movies* shows how conspiracy films expose oppressive systems; it explores how various thrillers prefigured American experiences of 9/11 and shaped aspects of the War on Terror; how some horror films embrace new media, while others use ultra-violence to spur political action; it argues that a popular genre is emerging to examine non-linear politics of globalisation, terrorism and more. Finally it analyses the ways in which sci-fi movies reflect populist politics from the Occupy and Tea Party movements, rethink the political foundations of current societies and even remake our cultural images of the future.

Postmodern Chick Flicks R. Garrett, 2007-04-12 In this extensive analysis of the renewed popularity of the 'woman's film' in the 1990s, Roberta Garrett examines melodrama, romantic comedy, costume drama and female-led noirs, revealing the way they blend classical and contemporary themes and formal devices.

Pedagogical Explorations in a Posthuman Age Jan Jagodzinski, 2020-07-03 This book problematizes the role of education in an increasingly mediatized world through the lenses of creativity, new media, and consumerism. At the core of the issue, the author argues, creativity in art education is being co-opted to serve the purposes of current economic trends towards designer capitalism. Using an East meets West approach, Jagodzinski draws on Deleuze and Guattarian philosophy to explore visual and popular culture in Korean society, addressing the tensions that exist between designer education and

art that explores the human condition. In doing so, he challenges art educators to envision a new paradigm for education which questions established media ontologies and incorporates new ways to confront the crisis of the Anthropocene.

Film Noir James Naremore, 2019-02-15 Film noir, one of the most intriguing yet difficult to define terms in cinema history, is usually associated with a series of darkly seductive Hollywood thrillers from the 1940s and 50s - shadowy, black-and-white pictures about private eyes, femme fatales, outlaw lovers, criminal heists, corrupt police, and doomed or endangered outsiders. But as this VSI demonstrates, film noir actually predates the 1940s and has never been confined to Hollywood. International in scope, its various manifestations have spread across generic categories, attracted the interest of the world's great directors, and continue to appear even today. In this Very Short Introduction James Naremore shows how the term film noir originated in French literary and film criticism, and how later uses of the term travelled abroad, changing its implications. In the process, he comments on classic examples of the films and explores important aspects of their history: their critical reception, their major literary sources, their methods of dealing with censorship and budgets, their social and cultural politics, their variety of styles, and their future in a world of digital media and video streaming. ABOUT THE SERIES: The Very Short Introductions series from Oxford University Press contains hundreds of titles in almost every subject area. These pocket-sized books are the perfect way to get ahead in a new subject quickly. Our expert authors combine facts, analysis, perspective, new ideas, and enthusiasm to make interesting and challenging topics highly readable.

The Persistence of Critical Theory Gabriel R. Ricci, 2017-07-05 The latest volume of Culture and Civilization gathers contemporary exponents of critical theory, specifically those based in the Frankfurt School of social thinking. Collectively, this volume demonstrates the continuing intellectual viability of critical theory, which challenges the limits of positivism and materialism. We may question how the theoretical framework of Marxism fails to coordinate with the conditions that defined labor forces, as did Max Horkheimer and Theodor Adorno, or deliberate on the conditions that justify the claims we make through public discourse, as did Jurgen Habermas. Or, like Axel Honneth, we may reflect on recognition theory as a means of addressing social problems. Whatever our objective, the focus of critical theory continues to be the consciousness of established positive interests that, without debate, may sustain injustices or conditions which the public may not have chosen to impose. Throughout the hardship of punitive dismissal and exile in the 1930s and 40s, and the shock of the New Left in the 1960s and 70s, and finally the later linguistic and pragmatic turn, the Frankfurt School has sustained the idea that people escape disaffection and alienation when their knowledge of the social and political world is dialectically mediated through creative interaction. This new volume in the Culture and Civilization series continues the tradition of critical thought.

The Blade Runner Experience Will Brooker, 2005-12-22 Since its release in 1982, Ridley Scott's Blade Runner, based on Philip K. Dick's novel *Do Androids Dream of Electric Sheep?*, has remained a cult classic through its depiction of a futuristic Los Angeles; its complex, enigmatic plot; and its underlying questions about the nature of human identity. The Blade Runner Experience: The Legacy of a Science Fiction Classic examines the film in a broad context, examining its relationship to the original novel, the PC game, the series of sequels, and the many films influenced by its style and themes. It investigates Blade Runner online fandom and asks how the film's future city compares to the present-day Los Angeles, and it revisits the film to pose surprising new questions about its characters and their world.
