**Children's Books for Grown-Up Teachers** Peter Appelbaum,2017-09-25 Teachers and prospective teachers read children's books, but that reading is often done as a teacher – that is, as planning for instruction – rather than as a reader engaged with the text. Children's Books for Grown-Up Teachers models the kind of thinking about teaching and learning –

the sort of curriculum theorizing – accomplished through teachers’ interactions with the everyday materials of teaching. It starts with children’s books, branches out into other youth culture texts, and subsequently to thinking about everyday life itself. Texts of curriculum theory describe infrastructures that support the crafts of inquiry and learning, and introduce a new vocabulary of poaching, weirding, dark matter, and jazz. At the heart of this book is a method of reading; Each reader pulls idiosyncratic concepts from children’s books and from everyday life. Weaving these concepts into a discourse of curriculum theory is what makes the difference between going through the motions of teaching and designing educational experiences. This book was awarded the 2009 AERA Division B (Curriculum Studies) Outstanding Book Award.

**Through the Eyes of a Child** Donna E. Norton, Sandra E. Norton, 1999 One of the most respected, comprehensive sources on available children's literature. Surveys the history of children's literature, explores the child's response to literature, and explains how to evaluate and select literature for children. Features unique two-part genre chapters -- one part content and one part methods. Covers artists and their illustrations, picture books, traditional literature, modern fantasy, poetry, contemporary realistic fiction, historical fiction, multicultural literature, and nonfiction (biographies and informational books). Contains illustrations from favorite full-color children's books (in their original colors), and art from real children. Features guest editorials by authors and illustrators; flashbacks of historical events, works, and people; and a section on multicultural literature in every chapter. Provides a dual-platform CD-ROM with annotated reference information on the more than 3000 children's literature titles listed in the book. For anyone interested in children's literature.
