

An Die Nachgeborenen Brecht

John J. White

Brecht's Poetry of Political Exile Ronald Speirs, 2000-11-02 Bertolt Brecht, one of the most influential European playwrights of the twentieth century, was also a poet of distinction. This volume is the first comprehensive study devoted to his most important collection of political poetry, the Svendborg Poems. The contributors analyse Brecht's work critically and historically, discussing it in relation to questions of poetics, political commitment, exile, propaganda, rhetoric, and the scope and limitations of political poetry. Links are also drawn with the work of German, Soviet and English poets of the period, and with later Germany poets.

Hannah Arendt Hannah Arendt, 1994-01-01 Despite such thematic diversity, virtually all the contributors have made an effort to build bridges between interest-driven politics and Arendt's Hellenic/existential politics. Although some are quite critical of the way Arendt develops her theory, most sympathize with her project of rescuing politics from both the foreshortening glance of the philosopher and its assimilation to social and biological processes.

The Poet's Role Ruth J. Owen, 2021-10-18 This study of contemporary German poetry represents the first attempt to examine comprehensively and at some length the lyric response to the unification period. It sets out to investigate, by means of close textual analysis, whether the German 'Wende' was also a turning-point for poetry, exploring how GDR poets responded both to the revolutionary events of 1989 and subsequently to the new, united Germany. An introductory chapter considers what is distinct about poetry as a genre, especially under censorship or amid historic change, as well as outlining the post-unification 'Literaturstreit'. The following chapter offers a survey of the poet's role in the GDR from 1949 until 1989. Two central chapters then gather the poetry of the 'Wende' and unification as a corpus of work and characterize it, through the elucidation of recurring themes, motifs and techniques. The volume strikes a balance between giving a general overview of poetry written in 1989-1996 and focusing on individual poets whose work is particularly compelling. After identifying broad trends across a wide range of individual poems, collections and anthologies, single chapters therefore examine in greater depth the work of Volker Braun and Durs Grünbein. The concluding chapter addresses the issue of a separate GDR literature. Finally, an extensive, structured bibliography is provided, covering the poetry, literary criticism and cultural history of the period.

Brecht Unbound James K. Lyon, Hans-Peter Breuer, 1995 Except for the annual Brecht Yearbook, Brecht Unbound

represents the first broad critical study of Brecht's works to appear in the United States since before the fall of the Berlin Wall. Intended to move beyond the ideological considerations that have informed so much secondary literature about Brecht, the book is a cross-disciplinary reassessment of important aspects of his work. Included are essays on his poetry, drama, theoretical writings, Brecht's influence on American film techniques and music, his relationship to and borrowings from Japanese No theater, and a comparison between aesthetic techniques in his writings and Stravinsky's *The Little Soldier*.--BOOK JACKET.Title Summary field provided by Blackwell North America, Inc. Bertolt Brecht's Dramatic Theory John J. White, 2004 In concert with his work as a politically-charged playwright and dramaturge, Bertolt Brecht concerned himself extensively with the theory of drama. He was convinced that the Aristotelian ideal of audience catharsis through identification with a hero and the resultant experience of terror and pity worked against his goal of bettering society. He did not want his audiences to feel, but to think, and his main theoretical thrusts -- *Verfremdungseffekte* (de-familiarization effects) and epic theater, among others -- were conceived in pursuit of this goal. This is the first detailed study in English of Brecht's writings on the theater to take account of works first made available in the recent German edition of his collected works. It offers in-depth analyses of Brecht's canonical essays on the theater from 1930 to the late 1940s and early GDR years. Close readings of the individual essays are supplemented by surveys of the changing connotations within Brecht's dramaturgical oeuvre of key theoretical terms, including epic and anti-Aristotelian theater, de-familiarization, historicization, and dialectical theater. Brecht's distinct contribution to the theorizing of acting and audience response is examined in detail, and each theoretical essay and concept is placed in the context of the aesthetic debates of the time, subjected to a critical assessment, and considered in light of subsequent scholarly thinking. In many cases, the playwright's theoretical discourse is shown to employ methods of epic presentation and techniques of de-familiarization that are corollaries of the dramatic techniques for which his plays are justly famous. John J. White is Professor of German and Comparative Literature at King's College London.

Hanns Eisler's Art Songs Heidi Hart, 2018 Traces Hanns Eisler's art songs through the political crises of the twentieth century, presenting them as a way to intervene in the nationalist appropriation of aesthetic material.

Flight of Fantasy Neil H. Donahue, Doris Kirchner, 2005-12-01 During the Nazi era many German writers chose, or were forced into, exile. Many others stayed and, after the end of this period, claimed to have retreated into Inner Emigration. The nature of this kind of emigration and the underlying motives of these writers have been hotly debated to this day. Though the reception of Inner Emigration has often been confounded by disputes over the term itself, the issue is ultimately not a matter of nomenclature, but of more far-reaching issues of literary evaluation, moral discernment and the writing of history. This volume presents, for the first time, to an English-speaking readership the complexity of Inner Emigration through the analysis of problematic individual cases of writers who, under constant pressure from a watchful dictatorship to conform and

to collaborate, were caught between conscience and compromise.

"Verwisch die Spuren!": Bertolt Brecht's Work and Legacy, 2015-06-29 This volume presents a cross-section of current Brecht studies, reflecting a variety of approaches and perspectives ranging from detailed exegesis of particular texts to cultural criticism in the broadest sense. It provides analyses of Brecht's work and investigates his pervasive influence in 20th century literature. The studies collected here cover the whole of Brecht's career, from the early one-acter Kleinbürgerhochzeit of 1919 to the Sinn und Form years immediately preceding his death, as well as his use of tradition and his legacy. By way of redressing a tendency in Brecht reception to regard him mainly as a dramatist, the volume covers novels, poetry, film, photography, journalism and theory as well as plays.

The Portrayal of Jews in GDR Prose Fiction Paul O'Doherty, 2023-04-12 This volume is the first comprehensive single study of Jewish themes in any of the post-1945 German literatures. It presents literature on Jewish themes by Jewish and non-Jewish authors in the cultural, social and political context of the Soviet Zone/GDR during the entire 45 years of its history from 1945 to 1990. It offers a brief history of Jews in the GDR, before looking, in four chronologically ordered chapters, at the history of publishing on Jewish themes in the GDR. Some 28 texts by 19 different authors, including Anna Seghers, Stephan Hermlin, Arnold Zweig, Franz Fühmann, Johannes Bobrowski, Jurek Becker, Stefan Heym, Günter Kunert, Christa Wolf and Helga Königsdorf, are then singled out for closer analysis. Such themes as historical anti-Semitism, the Holocaust, Jewish resistance, Jewish assimilation, Heine, Marx, Moses Mendelssohn, Jewish survival, and Jews in the GDR are all discussed in the book. The volume also offers evidence of the political influences on publishing on Jewish themes at various stages in the GDR's history. In addition, a structured bibliography of some 1100 items is offered, approximately 750 of which were published in the GDR with a Jewish content or theme. The study should be of interest to students of contemporary German literature and politics, the GDR, and of Jewish studies in the wider context.

German Literary Culture at the Zero Hour Stephen Brockmann, 2009 The 'zero hour' of the title was 1945, when Germany had to confront total devastation, the crimes of Nazism, the onset of the Cold War, & the division of the country. It was a time of intense intellectual debate, here reviewed through the mediums of literature & literary discourse.

Becoming Utopian Tom Moylan, 2020-11-26 A dream of a better world is a powerful human force that inspires activists, artists, and citizens alike. In this book Tom Moylan – one of the pioneering scholars of contemporary utopian studies – explores the utopian process in its individual and collective trajectory from dream to realization. Drawing on theorists such as Fredric Jameson, Donna Haraway and Alain Badiou and science fiction writers such as Kim Stanley Robinson and China Miéville, *Becoming Utopian* develops its argument for sociopolitical action through studies that range from liberation theology, ecological activism, and radical pedagogy to the radical movements of 1968. Throughout, Moylan speaks to the urgent need to confront and transform the global environmental, economic, political and cultural crises of our time.

History, Memory, and the Literary Left John Lowney, 2006-10 In this nuanced revisionist history of modern American poetry, John Lowney investigates the Depression era's impact on late modernist American poetry from the socioeconomic crisis of the 1930s through the emergence of the new social movements of the 1960s. Informed by an ongoing scholarly reconsideration of 1930s American culture and concentrating on Left writers whose historical consciousness was profoundly shaped by the Depression, World War II, and the Cold War, Lowney articulates the Left's challenges to national collective memory and redefines the importance of late modernism in American literary history. The late modernist writers Lowney studies most closely---Muriel Rukeyser, Elizabeth Bishop, Langston Hughes, Gwendolyn Brooks, Thomas McGrath, and George Oppen---are not all customarily associated with the 1930s, nor are they commonly seen as literary peers. By

examining these late modernist writers comparatively, Lowney foregrounds differences of gender and sexuality, race and ethnicity, and social class and region while emphasizing how each writer developed poetic forms that responded to the cultural politics and socioaesthetic debates of the 1930s. In so doing he calls into question the boundaries that have limited the scholarly dialogue about modern poetry. No other study of American poetry has considered the particular gathering of careers that Lowney considers. As poets whose collective historical consciousness was profoundly shaped by the turmoil of the Depression and war years and the Cold War's repression or rewriting of history, their diverse talents represent a distinct generational impact on U.S. and international literary history.

Partial Visions Angelika Bammer, 2012-12-06 Positing that a radical utopianism is one of the most vital impulses of feminist politics, Partial Visions traces the articulation of this impulse in the work of Euro-American, French and German women writers of the 1970s. It argues that this feminist utopianism both continued and reconceptualized a critical dimension of Left politics, yet concludes that feminist utopianism is not just visionary, but myopic - time and culture bound - as well.
