## Museum of Modern Art (New York, N.Y.), Frances Flynn Paine

Diego Rivera Leah Dickerman, Diego Rivera, Anna Indych-López, Museum of Modern Art (New York, N.Y.), 2011 In 1931, Diego Rivera was the subject of The Museum of Modern Art's second monographic exhibition, which set attendance records in its five-week run. The Museum brought Rivera to New York six weeks before the opening and provided him a studio space in the building. There he produced five 'portable murals' - large blocks of frescoed plaster, slaked lime and wood that feature bold images drawn from Mexican subject matter and address themes of revolution and class inequity. After the opening, to great publicity, Rivera added three more murals, taking on New York subjects through monumental images of the urban working class. Published in conjunction with an exhibition that brings together key works from Rivera's 1931 show and related material, this vividly illustrated catalogue casts the artist as a highly cosmopolitan figure who moved between Russia, Mexico and the United States and examines the intersection of art-making and radical politics in the 1930s.

*Man at the Crossroads* Susana Pliego Quijano, Javier Aranda Luna, Pablo Ortiz Monasterio, 2013 This is the history of Rivera's ill-fated mural at the Rockefeller Center in New York and the minute restoration of the sketches housed in the collections of the Museo Anahuacalli, complemented by a vast number of letters, photos and other documents, many of which are published here for the first time.

**Diego Rivera** Pete Hamill, 1999-09 Hamill (a political journalist, author, and editor) narrates the life and explores the art of Diego Rivera, the prodigiously productive artist, polemicist and political activist, Mexican nationalist, and lover of many women. Acknowledging the cost of Rivera's didactic communism, he provides historical insights and focuses on what is enduring in the artist's work. The 107 illustrations (including 59 in color) show the full range of his art (murals, paintings, drawings, and illustrations) as well as documentary photographs. Oversize: 10x10. At the Crossroads Catha Paquette, 2017-01-24 Collaborations during the Great Depression between the Mexican artist and Communist activist Diego Rivera and institutions in the United States and Mexico were fraught with risk, as the artist occasionally deviated from course, serving and then subverting his patrons. Catha Paquette investigates controversies surrounding Rivera's retrospective at the Museum of Modern Art in New York City, his Rockefeller Center mural *Man at the Crossroads*, and the Mexican government's commissioning of its reconstruction at the Palace of Fine Arts in Mexico City. She proposes that both the artist and his patrons were using art for extraordinary purposes, leveraging clarity and ambiguity to weigh in on debates concerning labor policies and speech rights; relations between the United States, Mexico, and the Soviet Union; and the viability of capitalism, communism, and socialism. Rivera and his patrons' shared interest in images of labor--a targeted audience--made cooperative ventures possible. In recounting Rivera's shifts in strategy from collaboration/exploitation to antagonism/conflict, Paquette highlights the extent to which the artist was responding to politico-economic developments and facilitating alignment/realignment among leftist groups for and against Stalin. Although the artwork that resulted from these instances of patronage had the potential to serve conflicting purposes, Rivera's images and the protests that followed the destruction of the Rockefeller Center mural were integral to a surge in oppositional expression that effected significant policy changes in the United States and Mexico.

**Diego Rivera's America** James Oles, 2022-07-19 Diego Rivera's *America* revisits a historical moment when the famed muralist and painter, more than any other artist of his time, helped forge Mexican national identity in visual terms and imagined a shared American future in which unity, rather than division, was paramount. This volume accompanies a major exhibition highlighting Diego Rivera's work in Mexico and the United States from the early 1920s through the mid-1940s. During this time in his prolific career, Rivera created a new vision for the Americas, on both national and continental levels, informed by his time in both countries. Rivera's murals in Mexico and the U.S. serve as points of departure for a critical and contemporary understanding of one of the most aesthetically, socially, and politically ambitious artists of the twentieth century. Works featured include the greatest number of paintings and drawings from this period reunited since the artist's lifetime, presented alongside fresco panels and mural sketches. This catalogue serves as a guide to two crucial decades in Rivera's career, illuminating his most important themes, from traditional markets to modern industry, and devoting attention to iconic paintings as well as works that will be new even to scholars—revealing fresh insights into his artistic process. Published by the San Francisco Museum of Modern Art in association with University of California Press Exhibition dates:

**The Coit Tower Murals** Robert W. Cherny, 2024-11-12 Created in 1934, the Coit Tower murals were sponsored by the Public Works of Art Project (PWAP), the first of the New Deal art programs. Twenty-five master artists and their assistants worked there, most of them in buon fresco. Nearly all of them drew upon the palette and style of Diego Rivera. The project boosted the careers of Victor Arnautoff, Lucien Labaudt, Bernard Zakheim, and others, but Communist symbols in a few murals sparked the first of many national controversies over New Deal art. Sixty full-color photographs illustrate Robert Cherny's history of the murals from their conception and completion through their evolution into a beloved San Francisco landmark. Cherny traces and critiques the treatment of the murals by art critics and historians. He also probes the legacies of Coit Tower and the PWAP before surveying San Francisco's recent controversies over New Deal murals. An engaging account of an artistic landmark, *The Coit Tower Murals* tells the full story behind a public art masterpiece.

**Muralism Without Walls** Anna Indych-López, 2009 Examines the introduction of Mexican muralism to the United States in the 1930s, and the challenges faced by the artists, their medium, and the political overtones of their work in a new society.

**Vida Americana - Mexican Muralists Remake American Art, 1925-1945** Barbara Haskell, Mark A. Castro, 2020-01-01 An in-depth look at the transformative influence of Mexican artists on their U.S. counterparts during a period of social change. The first half of the 20th century saw prolific cultural exchange between the United States and Mexico, as artists and intellectuals traversed the countries' shared border in both directions. For U.S. artists, Mexico's monumental public murals portraying social and political subject matter offered an alternative aesthetic at a time when artists were seeking to connect with a public deeply affected by the Great Depression. The Mexican influence grew as the artists José Clemente Orozco, Diego Rivera, and David Alfaro Siqueiros traveled to the United States to exhibit, sell their work, and make large-scale murals, working side-by-side with local artists, who often served as their assistants, and teaching them the fresco technique. *Vida Americana* examines the impact of their work on more than 70 artists, including Marion Greenwood, Philip Guston, Isamu Noguchi, Jackson Pollock, and Charles White. It provides a new understanding of art history, one that acknowledges the wide-ranging and profound influence the Mexican muralists had on the style, subject matter, and ideology of art in the United States between 1925 and 1945.

**A Dictionary of the Avant-gardes** Richard Kostelanetz, H. R. Brittain, 2001 Introduces the concept of avant-garde art to readers as it has been practiced over the last century. Covering figures and genres in all styles of art, this is an ideal introduction to often misunderstood art forms.

**Wall-to-wall America** Karal Ann Marling,1982 From the back cover of the book, quoted in part:The America Karal Ann Marling (the author) refers to is small-town America during the depression era; in particular those communities that were portrayed in the 1000-odd murals that appeared in post offices around the country under the auspices of the Treasury Department Section of Fine Arts. She goes far beyond an investigation of the murals as art, and 'Wall to Wall America' becomes an intelligent, often irreverent, discussion of popular taste and culture during the depression decade.

New York Magazine ,1987-02-02 New York magazine was born in 1968 after a run as an insert of the New York Herald Tribune and quickly made a place for itself as the trusted resource for readers across the country. With award-winning writing and photography covering everything from politics and food to theater and fashion, the magazine's consistent mission has been to reflect back to its audience the energy and excitement of the city itself, while celebrating New York as both a place and an idea.

*Improvised Continent* Richard Cándida Smith,2017-08-25 How does a country in the process of becoming a world power prepare its citizens for the responsibilities of global leadership? In *Improvised Continent*, Richard Cándida Smith answers this question by illuminating the forgotten story of how, over the course of the twentieth century, cultural exchange programs, some run by the government and others by philanthropies and major cultural institutions, brought many of the most important artists and writers of Latin America to live and work in the United States. *Improvised Continent* is the first book to focus on cultural exchange inside the United States and how Americans responded to Latin American writers and artists. Moving masterfully between the history of ideas, biography, institutional history and politics, and international relations, and engaging works in French, German, Spanish, and Portuguese, Cándida Smith synthesizes over seventy years of Pan-American cultural activity in the United States. The stories behind Diego Rivera's murals, the movies of Alejandro G. Iñárritu, the poetry of Gabriela Mistral, the photography of Genevieve Naylor, and the novels of Carlos Fuentes—these works and artists, along with many others, challenged U.S. citizens about their place in the world and about the kind of global relations the country's interests could allow. *Improvised Continent* provides a profoundly compassionate portrayal of the Latin American artists and writers who believed their practices might create a more humane world.
