The World of Ornament: Renaissance-19th Century Albert Racinet, 2012

The World Ornament Sourcebook Auguste Racinet, 2011 This amazing compilation of decorative motifs from around the world is unparalleled in its range of coverage with examples from early Greek, Roman and Egyptian designs through those of the 19th century. Geographically diverse, the book covers ornamentation from Asia and Africa as well as Europe and the Americas. Originally published in the 19th century in two volumes, this work by Auguste Racinet was an invaluable resource to artists, designers and architects when it was first published and continues to be so today. The period when Racinet's volumes were being published for the first time (1869 through 1887) saw a renewed interest in classicism and the decorative arts and Racinet's work was certainly influential. With 220 colour plates comprising over 1500 decorative motifs derived from illuminated manuscripts, jewellery, tiles, weaponry, wall painting and other sources, the book is not only inspirational, but also serves as both a visual reference of the motifs and an insight into the aesthetics of different cultures and periods. We are pleased to offer this opulent and beautifully colourful title in a combined single volume. A book that every graphic designer, architect, fashion designer or artist must have, it will also appeal to those interested in aesthetics and visual culture.

Ornament T. L. J. Howard, Michael Snodin, Maurice Howard, 1996-01-01 In a wide-ranging and richly illustrated book, the authors begin by tracing the ways ornament has been used over the last five centuries, the rules of decorum and etiquette associated with it, and the social, moral and spiritual values it has represented. They examine how architecture set the agenda for ornament in the Renaissance, and how printed images carried a common vocabulary of ornament throughout the Western world. They survey the personal side of ornament, both in dress and in the domestic interior - a private expression of the self and a public statement of social and cultural status. They look at ornament in the public domain - from the lavish decoration and symbolism of a town pageant to the logos of today's corporate industry - and show how the ever-evolving role of ornament is to invent and embody the collective spirit of communities at work and at leisure. They conclude by discussing how the Western tradition of ornament has responded to and absorbed 'exotic' African and Asian motifs: Moresque motifs of the Near East and such familiar designs as the 'Paisley' and Willow patterns.

Tracing His Promise Donna Amidon, 2024-08-13 For many believers, the Old Testament seems intimidating, what with the unfamiliar names and distant places. But author Donna Amidon demonstrates that these ancient stories aren't simply history; they're a vibrant tapestry pointing to Jesus and reflecting God's unwavering promise of redemption. In *Tracing His Promise*, Amidon guides readers through twenty-five stories from Scripture that trace the promise of Jesus from creation to Bethlehem. Amidon blends rich theology with everyday application as she unlocks the Old Testament's hidden treasures and highlights God's faithfulness from the beginning. Along the way, readers will find discussion questions, relatable anecdotes, and beautiful artwork. They will also be invited to share these stories with their families through printable ornaments and an Advent activity called the Jesse Tree Tradition. Through *Tracing His Promise*, readers will gain a deeper understanding of the Bible as one interconnected narrative, with Jesus as the centerpiece.

Savage Mind to Savage Machine Ginger Nolan, 2021-06-29 An examination of how concepts of “the savage” facilitated technological approaches to modernist design Attempting to derive aesthetic systems from natural structures of human cognition, designers looked toward the “savage mind”—a way of thinking they associated with a racialized subaltern. In *Savage Mind to Savage Machine*, Ginger Nolan uncovers an enduring relationship between “the savage” and the development of technology and its wide-ranging impact on society, including in the fields of architecture and urbanism, the industrial arts, and digital design. Nolan focuses on the relationship between the applied arts and the structuralist social sciences, proposing that the late-nineteenth-century rise of Freudian psychology, ethnology, and structuralist linguistics offered innovations and new opportunities in studying human cognition. She looks at institutions ranging from the Public Industrial Arts School of Philadelphia and the Weimar Bauhaus to the MIT Media Lab and the Centre Mondial Informatique, revealing a persistent theme of twentieth-century design: to supplant language with more subliminal, aesthetic modes of communication, thereby inculcating a deep intimacy between human habit and new technologies of production, communication, and consumption. This book’s ultimate critique is of the development of the ergonomics of the spirit—the design of the human cognitive apparatus in relation to new aesthetic technologies. Nolan sees these ergonomics as a means of depoliticizing societies through aesthetic technologies intended to seamlessly integrate humans into the programs of capitalist modernity. Revising key modernist design narratives, *Savage Mind to Savage Machine* provides a deep historical foundation for understanding our contemporary world.
