**Tourism, Power and Culture** Donald V. L. Macleod,James G. Carrier,2009-12-23 Tourism as an experience and an industry is infused by culture in its various dimensions, and influenced throughout by relationships of power; this is particularly apparent at the destination site. Anthropological investigations give rich insights into power and culture through ethnographic fieldwork, comparative analysis and theoretical explanation. Within this timely and groundbreaking book case studies come from Latin America, the Caribbean, Europe, Africa, Australia and South East Asia. It is divided into two sections dealing with tourism and the power struggle for resources; and tourism and culture: presentation, promotion and the manipulation of image. Chapters explore issues as diverse as terrorism, ethnicity and World Heritage Sites, and the role of the analysis of power in tourism studies. They illustrate how culture shapes tourism development, is commodified, and becomes a tool in political and economic strategies and struggles.

**Tourism in Latin America** Alexandre Panosso Netto,Luiz Gonzaga Godoi Trigo,2014-09-04 This book presents eleven case studies of success about Latin America tourism. The cases are embedded in a framework describing the economic and cultural foundations of tourism development in the continent. Mexico, Brazil, Chile and Costa Rica are some of the Latin countries which have become examples and models for touristic development, respect for the environment and social inclusion. The book showcases some of the best practices, along with an analysis of how these projects helped improving the environmental and social surroundings and how return on investments has been ensured. Latin America is shown as an excellent example, with the Gross Domestic Product of the continent expanding intensely in the tertiary sector like leisure, hospitality, travel, tourism, entertainment, gastronomy, events and indoor and outdoor recreation. This book is a valuable resource both for professionals in the tourism industry and for researchers in tourism management.

Previously, public performances of traditionally African-Bahian practices such as capoeira, samba, and Candomblé during carnival and other popular religious festivals had been repressed in favor of more European traditions.

*Cities, Museums and Soft Power* , Gail Dexter Lord,Ngaire Blankenberg,2016-07-08 Museum planners Gail Lord and Ngaire Blankenberg demonstrate how museums and cities are using their soft power to address some of the most important issues of our time. Soft power is the exercise of influence through attraction, persuasion, and agenda-setting rather than military or economic coercion. Thirteen of the world's leading museum and cultural experts from six continents explore the many facets of soft power in cities and museums to include: how it amplifies civic discourse, accelerates cultural change, and contributes to contextual intelligence among the great diversity of city dwellers, visitors, and policy makers. The authors urge city governments to embrace museums which so often are the signifiers of their cities, increasing real estate values while attracting investment, tourists, and creative workers. Lord and Blankenberg propose 32 practical strategies for museums and cities to activate their soft power and create thriving and sustainable communities. Follow the link below to watch co-author Gail Lord speaking about soft power on The Agenda, a popular public affairs program on TVO, a leading educational television broadcaster <http://tvo.org/video/programs/the-agenda-with-steve-paikin/a-cultural-sleeping-giant>.
