

And In This Moment We Were Infinite

Jorge Luis Borges

When We Were Infinite Kelly Loy Gilbert, 2022-04-19 Knowing that the friendships she depends on will change when her parents split up, Beth witnesses a private act of violence in her crush's home before forging a pact with her friends to offer support in the face of a life-altering decision. With her family splintered and her future a question mark, Beth's friends Grace Nakamura, Brandon Lin, Sunny Chen, and Jason Tsou are all she has. She's certain she'll never be able to tell Jason how she really feels about him, so friendship will have to be enough. Then Beth witnesses a private act of violence in Jason's home, and the whole group is shaken. The group makes a pact to protect Jason, no matter the sacrifice. When their fierce loyalty isn't enough to stop Jason from making a life-altering choice, Beth must decide how far she is willing to go for him and how much of herself she is willing to give up.

The System of Antichrist Charles Upton, 2005 The System of Antichrist examines the present religious and cultural scene from the standpoint of traditional metaphysics and critiques the New Age spiritualities within their postmodern context. Its many references to Rene Guenon and Frithjof Schuon also help introduce these important but little-known 'traditionalist' thinkers. The book presents lore relating to the 'latter days' of the present cycle from the vantage point of comparative religion, drawing upon relevant doctrines from Buddhism, Hinduism, Judaism, Christianity, Islam, Zoroastrianism, and the Native American traditions. It also speculates upon the social, psychic, and spiritual nature of that being known to Christianity, Judaism, and Islam as the Antichrist, presenting him as both an individual and a system and warning those willing to be warned against the spiritual seduction and terror he represents, and against the regime which will be-and is-the social expression of that seduction and that terror. Finally, in tracing the roots of Antichrist in the fallen nature of man, the author sketches the particular quality of spirituality proper to apocalyptic times, the dangers it faces, the unique opportunities open to it. And along the way he describes his own course from the 'spiritual revolution' of the 1960s, through the world of New Age spiritualities, to the threshold of traditional esoterism and metaphysics. As he says, speaking of the angst that characterizes the modern world: 'The specific medicine for the shock of despair is the deeper shock of meaning. Nothing but the weight of eternity, breaking through the thin, brittle shell of the postmodern sky, can set us on our feet.'

We Are so Loved Jill Lambert, 2017-09-22 When we hear stories of spontaneous healing, assistance from angels and loved ones who've passed, the laws of physics bending or even breaking to save someone, and people using their divine creative

power to claim what they desire despite appearances, our beliefs change about what is possible for us. *We Are So Loved* is about such miracles and more. Many of these stories may seem too fantastic to be true, but they are. As you read them, maybe you'll remember some of your own miracles that you discounted as just a coincidence, luck, or just your imagination. The mystical, miraculous experiences I've had since childhood, the stories others have shared with me of divine assistance and moments of grace, as well as the miraculous healings I witness as a Reconnective Healing Practitioner, have changed my beliefs about what is possible and continue to transform my world for the better on every level of my being. That's what I want for you, and why I'm sharing them in this book. I hope they inspire you to think and believe a little bigger and better than you did before you read them as you realize how Loved you are, Who You Really Are, and how possible the impossible really is. The miraculous experiences in this book are what fuel my life's mission to share the truth of how Loved we are and how powerful we are when we align with the Love that is our Source of being. I hope these stories remind you of the God Within you and all life on this planet, that they awaken an awareness of the Love and well-being that is constantly flowing to you, and help you release the limiting beliefs that have kept you from allowing into your life all that your heart desires. *We Are So Loved* is my first book, and just the beginning of much more to come. Jill Lambert

Children's and Young Adult Literature and Culture Amie A. Dougherty, 2016-08-17 This collection of essays explores a wealth of topics in children's and young adult literature and culture. Contributions about picture-books include analyses of variants of the folktale "The Little Red Hen" and bullying. Race and gender are explored in essays about picture-books featuring children as consumable objects, about books focused on African American female athletes, and about young adult dystopian fiction. Gender itself is further explored in articles about *Monster High*, Joyce Carol Oates's *Beasts*, and *The Hunger Games* and *Divergent*. Essays about fantasy literature include an exploration of environmentalism in Rick Riordan's *The Heroes of Olympus*, a discussion of Severus Snape as a Judas figure, an explication of Chapter 5 of *The Hobbit*, and an analysis of ghosts and nationalism in Eva Ibbotson's *The Haunting of Granite Falls*. An essay about *Horrible Histories* explores television, genre, and the way history is coded. Other contributions explore how teaching literature to reluctant readers can be effective through multimodal texts and how *Harry Potter* has played a role in the popularity of young adult literature for adult readers.

Align: Living and Loving from the True Self Harmony Kwiker, 2022-11-25 There is a fundamental core within each of us where our true nature resides. Our learned patterns of relating to ourselves and the world cause us to get pulled off our center, coming out of alignment with our True Self. While these conditioned patterns were at one time useful, continuing to live from them prevents us from experiencing the ease and beauty of our own true nature. In this remarkable exploration of the human condition, Harmony Kwiker provides a clear and comprehensive map to rediscovering how to live and love from the True Self, including how to come back to wholeness by accessing your subtle energy body, how to embody your

alignment in all of your relationships and how to explore sexual intimacy in a sacred way.

The Logic of Filtering Melle Jan Kromhout, 2021 The Logic of Filtering traces the profound impact of technical media on the sound of music, asking: how do media technologies shape sound? How does this affect music? And how did it change what we listen for in music? Since the invention of sound recording in the second half of the nineteenth century, media that transmit, record, store, and reproduce physical sound inspired dreams of perfect reproduction, but were also confronted with the inevitable introduction of noise. Based on a wide range of historical, technical and theoretical sources, author Melle Jan Kromhout explores this one hundred and forty-year history of sound media and shows why noise should not be understood as unwanted by-effect, but instead plays a foundational role in shaping the sonic contours of recorded music. The Logic of Filtering develops an extensive media archaeological analysis of the 'noise of sound media, ' encompassing all the disturbances, distortions, and interferences that these media add to the sounds they reproduce. It thereby stands to enrich our understanding of the way in which sound media changed and continue to change the sonorous qualities of music, and offers new perspectives on the interaction between music, media and listeners.

Word Daniel Patrick Piskorski, 2012-11 Inside of us is a relativity that runs as deep as the ocean can get and as hot as the sun can burn. There's no wonder why nature and space can really be so fascinating and reassuring to our meaning. The contents in our being, the substance to our relativity is so vast and distant that it holds stars and galaxies, but also so small and close that it cannot even be seen or felt inside the palm of your hand. We are infinitely relative to the basis of all that exists whether it's perceived or not. It doesn't matter what religion you believe, what country you come from, or what color your skin is because you're still relative to humanity, as humanity is relative to life, as life is relative to matter, as matter is relative to space, space to time, and so on and so forth. We're dimensional incorporations to a fabric that's woven from a collective relativity and stretched comparative to that of a dividing singularity. We're interweaving expressions of each other that elaborate the function of our basis: that explains and proclaims the word in our own various and collective collaborations. All of our credit, belongings and possessions have to go back to the source in which they came, but should also be done with pride, in love, and in thanksgiving for it's opportunity and our chance to experience. The experience, however, is a part of the legacy that will be contributed to the collective experience and added back to the source of the singular consciousness. The content in which we safeguard with our body and express through our representation, will pass on in the link of experience and chain of consciousness. We're all relative to its basis and the passion to which it's professed should also be made to that of relation. We shouldn't hang our relative ground to simple devise and petty similarity like race, nationality or religion, but remain passionate to understanding and relative to purpose and meaning. The word is a vindication from a meaningless life and is an ultimatum to a higher purpose that is just passed a threshold of your own demise. The word is the content in which the house of your body safeguards as you transmit your experience to the universal

plane of infinite oneness with the source of our existence.

Selected Non-Fictions Jorge Luis Borges, 2000-11-01 Winner of the National Book Critics Circle Award in Criticism The first comprehensive selection in any language of the non-fiction--much of it appearing here in English for the first time--of "one of literature's most fertile and original minds" (San Francisco Chronicle) A Penguin Classics Deluxe Edition with flaps and deckle-edged paper It will come as a surprise to many readers that the greater part of Jorge Luis Borges's extraordinary writing was not in the genres of fiction or poetry, but in various forms of non-fiction prose. His thousands of pages of essays, reviews, prologues, lectures, and notes on politics and culture—though revered in Latin America and Europe as among his finest work—have scarcely been translated into English. *Selected Non-Fictions* presents a Borges almost entirely unknown to American readers. Here is the dazzling metaphysician speculating on the nature of time and reality and the inventions of heaven and hell, and the almost superhumanly erudite reader of the world's literatures, from Homer to Ray Bradbury, James Joyce to Lady Murasaki. Here, too, the political Borges, taking courageous stands against fascism, antisemitism, and the Perón dictatorship; Borges the movie critic, on King Kong and Citizen Kane and the Borgesian art of dubbing; and Borges the regular columnist for the Argentine equivalent of the Ladies' Home Journal, writing hilarious book reviews and capsule biographies of modern writers. Like the Aleph in his famous story—the magical point in a basement in Buenos Aires from which one can view everything in the world—Borges's non-fictions are a vortex for seemingly the entire universe: Dante and Ellery Queen, Shakespeare and the Kabbalah, the history of angels and the history of tango, the Buddha, Bette Davis, and the Dionne Quints. *Selected Non-Fictions* presents more than 160 of these astonishing writings, from his youthful manifestos to his last meditations on his favorite books. More than a hundred of these pieces have never before appeared in English, and all have been rendered in brilliant new translations by Esther Allen, Suzanne Jill Levine, and Eliot Weinberger. This unique selection presents Borges as at once a deceptively self-effacing guide to the universe and the inventor of a universe that is an indispensable guide to Borges. For more than seventy-five years, Penguin has been the leading publisher of classic literature in the English-speaking world. With more than 2,000 titles, Penguin Classics represents a global bookshelf of the best works throughout history and across genres and disciplines. Readers trust the series to provide authoritative texts enhanced by introductions and notes by distinguished scholars and contemporary authors, as well as up-to-date translations by award-winning translators.

Fixing the World Jennifer A Brunell,2019-09-27 Fixing the World is an autobiography. It is book about a boy who loved challenges. He grew up to be a woman, but no ordinary woman, because she always wanted to know, and to be, more. She continually and single-mindedly sought out challenges, and she used them knowingly, to reshape her body, her life and her self. After leaving school at sixteen, Jennifer set about educating herself. It took much time and effort, but ultimately she became a high-flying, multi-lingual, international career woman. She travelled very widely, and she experienced a lot. She lived an interesting life with her eyes wide open. She absorbed everything. She analysed and hypothesised, and she began to grow. She set her own direction. She lived a life without fear. Jennifer was never satisfied. She kept going, challenge after challenge. Some challenges were mere distractions. She became a helicopter pilot, and then a light aircraft pilot, buying her own plane to travel around in.

The Mathematical Principles of Causal Conspiracy Book2 Michael Mark Anthony,2025-05-16 We are self-aware! The Universe is aware of itself through us. What are we? Each year, living matter processes billions of tons of chemicals in the act of living, and these chemicals become a part of life for some period, experiencing the very essence of being alive. We are processors, bags of living chemicals, bags of mainly water that experience awareness, and enjoy the benefits of life! Is our sole purpose to make the Universe experience life? When a molecule of water becomes part of our being, does it also enjoy being alive? It seems as if we are meant to explore the Universe to open vistas of ex-perience that will allow a variety of inanimate matter to experience life. The need to know and learn, sets us apart from ordinary matter, but what lurks behind this gift? Is knowledge and the act of knowing, just another form of a force field, like the electro-magnetic field and the gravitational field? This Theory explains emergent intelligence through logical causality and also provides a framework for future Artificial Intelligence.

Selections from The Girl's Own Paper, 1880-1907 Terri Doughty,2004-05-18 The Girl's Own Paper, founded in 1880, both shaped and reflected tensions between traditional domestic ideologies of the period and New Woman values in the

context of the figure of the New Girl. These selections from the journal demonstrate the efforts of its publisher (the Religious Tract Society) to combat the negative moral influence of sensational popular literature while at the same time addressing the desires of its audience for exciting reading material and information about topics mothers could not or would not discuss. Selected fiction gives a rich sense of the conventions and the domestic ideology of the time; the nonfiction prose ranges from essays on conduct and household management to articles on new opportunities in education and work.
