*Australian Good Birding Guide: NSW-ACT* Ted Wnorowski, Alex Wnorowski, 2018-08-30 This is the first of a series of books describing exciting birdwatching locations in Australia. The NSW-ACT Guide is arguably the most comprehensive compendium of birding sites in the State available to date. Not only the standard, well-known locations are covered but also some interesting places known only to a few or newly discovered by ourselves. The book series is intended for both Australian and overseas birders. We hope it will become an essential field companion to a birding enthusiast. In today's time-poor society, the ability to maximise your bird finds in an unfamiliar area in a typically short vacation time available, should be a serious help. For each site, at the minimum, the access details, habitat description, site facilities and key avifauna are addressed. Most data is based on personal records, cross-checked and augmented with the verified sightings reported online. The book is divided into regions including greater Sydney, Hawkesbury, Hunter region, Illawarra, Southern Highlands, South-East NSW, Mid North Coast, Northern Rivers, Western Slopes and Tablelands, Riverina region, Central West NSW, Far West NSW and Australian Capital Territory. The book is richly illustrated with photographs of birds and bird habitats. Book 2: Australian Good Birding Guide: Tasmania Book 3: Australian Good Birding Guide: Victoria

*A Wide & Open Land* Peter Ridgeway, 2021-09-09 In the Winter of 2019 Peter Ridgeway set out to walk 179 kilometres across the Cumberland Plain, the region of rural land west of Sydney. Carrying his food and water and camping under the stars, he crossed one of the least-known landscapes in Australia, all within view of its largest city. This book recounts a unique journey across a landscape few Australians will ever see. In this open country the familiar forests of Sydney's sandstone are replaced by a fertile world of open woodlands, native grasslands and wetlands, home to some of the Nation's most unique and endangered wildlife. The traditional land of the Darug, Gundungurra, and Dharawal peoples, and the birthplace of the first Australian colony, it is a landscape which also holds the key to our entwined and conflicted origins. What was once a limitless tract of woodland is now being engulfed by the city to its east in the largest construction project ever undertaken in the Southern Hemisphere - the elimination of an ecosystem and a community. This book provides an immersion in the history, wildlife, and culture of one of Australia's most rapidly vanishing landscapes, and reveals how the destruction of 'the West' is erasing not only itself, but something central to the identity of all Australians.
