**Forbidden Animation** Karl F. Cohen, 2013-10-18 Tweety Bird was colored yellow because censors felt the original pink made the bird look nude. Betty Boop's dress was lengthened so that her garter didn't show. And in recent years, a segment of Mighty Mouse was dropped after protest groups claimed the mouse was actually sniffing cocaine, not flower petals. These changes and many others like them have been demanded by official censors or organized groups before the cartoons could be shown in theaters or on television. How the slightly risqué gags in some silent cartoons were replaced by rigid standards in the sound film era is the first misadventure covered in this history of censorship in the animation industry. The perpetuation of racial stereotypes in many early cartoons is examined, as are the studios' efforts to stop producing such animation. This is followed by a look at many of the uncensored cartoons, such as Lenny Bruce's Thank You Mask Man and Ralph Bakshi's Fritz the Cat. The censorship of television cartoons is next covered, from the changes made in theatrical releases shown on television to the different standards that apply to small screen animation. The final chapter discusses the many animators who were blacklisted from the industry in the 1950s for alleged sympathies to the Communist Party.

Noise Wars Robert Freedman, 2009 Let me place on your radar screen an issue that for most people goes by unnoticed.

Every day it is there for all of us to see and hear - if we can just notice it for that first time. This is the rising use of media, the use of media in abusive, penetrating ways. Our freedom to choose whether or not we consume that media is taken away from us. With their business model coming under pressure from shrinking audiences, media companies seek to regain their footing by forcing people to consume TV and other digital content outside the home by turning public and private settings into captive-audience platforms. In this book Robert Freedman looks at how consumers are putting up resistance to being held captive to TV on buses, trains, elevators, taxis, subways, office lobbies, schools, stores, and street corners.

**Why Do We Quote?** Ruth Finnegan, 2011-03-01 Quoting is all around us. But do we really know what it means? How do people actually quote today, and how did our present systems come about? This book brings together a down-to-earth account of contemporary quoting with an examination of the comparative and historical background that lies behind it and the characteristic way that quoting links past and present, the far and the near. Drawing from anthropology, cultural history, folklore, cultural studies, sociolinguistics, literary studies and the ethnography of speaking, Ruth Finnegan 's fascinating study sets our present conventions into crosscultural and historical perspective. She traces the curious history of quotation marks, examines the long tradition of quotation collections with their remarkable recycling across the centuries, and explores the uses of quotation in literary, visual and oral traditions. The book tracks the changing definitions and control of quoting over the millennia and in doing so throws new light on ideas such as imitation, allusion, authorship, originality and plagiarism

**Conversations with Tom Wolfe** Dorothy McInnis Scura, 1990 Literary journalist, lowly social historian, chronicler of his

times, and champion of realism are among the many epithets heaped upon Tom Wolfe by himself and his myriad admirers and critics. In this collection of interviews spanning his richly productive career, Wolfe is seen as a writer imitating no one and riding the crest of each latest wave in contemporary America. For more than a quarter of a century he has been the vivid and varied chronicler of our time--from the Californian car customizers and Ken Kesey's Merry Pranksters of the sixties to the ambition-driven inhabitants of New York City in the eighties. His hybrid of reporting and fiction-writing has received perhaps more applause than any other literary journalism, and his first major work of fiction, *Bonfire of the Vanities*, rested at the top of the bestseller lists for more than a year. Here is Tom Wolfe talking--about the subjects of his eight books, about the writers he admires, about the discipline of writing, about his politics and his disposition to satire and parody. As he explains his attempt to show the world 'life in our times,' this collection of delightfully witty and informative interviews reveals the insights and the intellect of one of America's brightest and most appealing authors.

This series will undoubtedly kick-start conversation, prod thinking and stimulate classroom debate' - Times Educational Supplement Magazine Decision making is a skill involving both a cognitive and an affective process. The ability to: - recognize the thoughts and feelings; - consider the consequences; - choose the best outcome; is a highly valued facility leading to resilience, achievement and responsibility. The skill can be taught and in these three volumes the authors provide all the materials needed to teach a course on decision making at each age level. The programme provides a menu of stories related to the real life experiences of the young people. Topics are selected to be age appropriate and the series includes: - Stealing; - Lying; - Social behaviours; - Risks; - Justice; - Loss, Grief and Bereavement; - Prejudice; - First love; - Disability; - Leaving home; - Family relationships. The teacher notes indicate 'stopping points' where reflection and discussion is encouraged. A choice of endings is offered or the young people can develop their own ideas about what might happen next.

The course can be introduced at any age or used to develop the skills through school life from early years to the teens. Other books in the series include Margaret Collins's First Choices and Phil Carradice's Good Choices.

**Bullying** Great Britain: Parliament: House of Commons: Education and Skills Committee, 2007-03-27 There has been an increasing awareness over the past few decades of bullying and the effect it has on the educational and social achievements of children and young people. The Committee's report examines the progress that has been made to address this problem since the introduction of the 'Don't Suffer in Silence' pack in 1994, the barriers that prevent schools from tackling bullying effectively, issues of prejudice-driven bullying including SEN-related, homophobic and faith-based bullying, and cyber-bullying. The report finds that defining what bullying is and identifying instances of bullying is the first potential barrier to successfully tackling the problem. Teachers and staff, pupils and parents should all be aware of their school's definition of bullying and how this affects their own behaviour, with the attitude and engagement of head teachers vital to tackling bullying. The focus of anti-bullying guidance should be tackling bullying behaviour and making it clear that such behaviour is not acceptable, rather than attempting to change the behaviour of the victim. The DfES should issue new guidance to local

authorities and schools on when the use of exclusion is appropriate. The lack of accurate reliable data on bullying is another barrier to more effective anti-bullying work, and the Government should commission a long-term study of a number of schools, looking at both general trends in bullying and also the effectiveness of different approaches in different circumstances. The report also recommends that the Government needs to foster a culture where schools are encouraged to be open about incidents of bullying, have effective ways of dealing with bullying when it occurs and provide support the victims of bullying, rather than fearing reporting incidents of bullying will damage their reputation.
