Some Still More Equal Than Others? Serdar M. Degirmencioglu, Council of Europe, 2011-01-01 Inequality limits young people's chances in life. Yet equality is the basis of democracy and Article 14 of the European Convention on Human Rights secures the rights and freedoms of the young without discrimination on any ground. Research shows that inequality - in opportunities, wealth or health, for example - is widespread in Europe and that the citizens of richer countries do not necessarily have healthier profiles than those of poorer countries. The citizens of egalitarian countries, on the other hand, have the highest life expectancy. This book examines many aspects of inequality and opportunity for young people including schooling, employment, social exclusion, labour migration, trafficking, disability, cultural and religious discrimination, youth work, and opposition and resistance.

Why some are more equal than others Díaz-Bonilla, Eugenio, Thomas, Marcelle, 2016-02-26 Food (in)security conditions differ across countries, and those differences affect the discussion of potential policy approaches. This paper reviews several approaches to creating country typologies of food (in)security conditions and then updates Díaz-Bonilla et al.'s 2000 IFPRI paper Food Security and Trade Negotiations in the World Trade Organization. The exercise uses five variables: domestic food production per capita (constant dollars per capita); a combination of calories and protein per capita; the ratio of total exports to food imports; the ratio of the nonagricultural population to total population; and a variable based on the mortality rate for children under 5. The raw values are all transformed into z-scores. The paper explains how the variables relate to the traditional dimensions of availability, access, and utilization in the definition of food security. Data for the variables correspond to the period 2009-2011 (or the latest available) and cover 155 developed and developing countries. Two clustering methods are applied: hierarchical and k-means. The hierarchical approach is used first, to determine potential outliers and to explore what would be a reasonable number of clusters. That analysis suggests that the maximum number of relevant clusters for the analysis is 10 and identifies three countries as outliers. We then use the k-means method to classify all other countries in one of the 10 different clusters or groups. The paper analyzes the average profile of each one of those groups and divides them into three categories of food insecure, intermediate, and food secure. We highlight the different profiles of each of the food-insecure clusters (such as whether they were rural or urban, trade stressed or not, and so on). Limitations related to land and water availability (measured as arable land, hectares per person, and renewable internal

freshwater resources in cubic meters per capita) are incorporated into the analysis as an additional dimension to be considered. The paper closes with some policy considerations for the different types of clusters of food-insecure countries.

More Equal Than Others Raffael N Fasel, 2024-02-21 Unprecedented demands have recently arrived at the doorstep of courts and parliaments the world over: nonhuman animals should receive some of the rights that have so far been reserved to human beings. This development has raised fundamental questions about the nature of legal rights, and who should have them. *More Equal Than Others: Humans and the Rights of Other Animals* provides a sustained analysis of the fundamental rights of human and nonhuman animals to explore the issue of whether conferring fundamental legal rights to animals would undermine the equal status and rights of humans. Raffael N Fasel proposes an unorthodox but practical solution to this issue: the Species Membership Approach (SMA). According to the SMA, legal rights and similar entitlements should be granted to animals based on the species to which they belong, not their individual capacities. By pioneering an approach that focuses on species membership rather than individual capacities, the author demonstrates how fundamental legal rights can be extended to nonhuman animals without threatening the status and equal rights of humans. This book examines the antithetical nature of the human rights and animal rights conceptions that have so far dominated the debate and demonstrates how a middle ground can be reached between these opposing conceptions. Informed by the forgotten history of animal and human rights in the French Enlightenment, *More Equal Than Others* radically reimagines the spectrum of fundamental rights conceptions.

More Equal than Others? Daniele Amoroso, Loris Marotti, Pierfrancesco Rossi, Andrea Spagnolo, Giovanni Zarra, 2022-11-18 This book analyses the principle of equality from three perspectives: public international law, private international law and EU law. It is the first book in English providing a comprehensive overview of this principle in these areas of law and showing the current trends and issues concerning its application. Its main goal is to understand whether and to what extent the principle of equality has been affirmed in public and private international law, as well as EU law, and what - if any - the common core of this principle is. The analysis carried out in this contributed volume starts from general analyses of the principle of equality in the areas of the law covered by the book and then discusses the principle in more specific areas, such as human rights law, international adjudication (including investment law) and the law of international organizations. The book is intended to become a benchmark for academics dealing with matters of equality in public international law, private international law and EU law. It will be a useful tool for practitioners too, the collected chapters being based on the relevant case law dealing with the principle of equality. Daniele Amoroso is Professor of International Law in the Department of Law of the University of Cagliari, Cagliari, Italy. Loris Marotti is Assistant Professor of International Law in the Department of Law at the Federico II University of Naples, Italy. Pierfrancesco Rossi is Postdoctoral Fellow in International Law in the Department of Law of Luiss University, Rome, Italy. Andrea Spagnolo is Professor of

International Law in the Department of Law of the University of Turin, Turin, Italy. Giovanni Zarra is Professor of International Law and International Litigation in the Department of Law at the Federico II University of Naples, Italy.

More Equal Than Others Godfrey Hodgson, 2009-01-10 During the past quarter century, free-market capitalism was recognized not merely as a successful system of wealth creation, but as the key determinant of the health of political and cultural democracy. Now, renowned British journalist and historian Godfrey Hodgson takes aim at this popular view in a book that promises to become one of the most important political histories of our time. *More Equal Than Others* looks back on twenty-five years of what Hodgson calls the conservative ascendancy in America, demonstrating how it has come to dominate American politics. Hodgson disputes the notion that the rise of conservatism has spread affluence and equality to the American people. Quite the contrary, he writes, the most distinctive feature of American society in the closing years of the twentieth century was its great and growing inequality. He argues that the combination of conservative ideology and corporate power and dominance by mass media obsessed with lifestyle and celebrity have caused America to abandon much of what was best in its past. In fact, he writes, income and wealth inequality have become so extreme that America now resembles the class-stratified societies of early twentieth-century Europe. *More Equal Than Others* addresses a broad range of issues, with chapters on politics, the new economy, immigration, technology, women, race, and foreign policy, among others. A fitting sequel to the author's critically acclaimed *America In Our Time*, *More Equal Than Others* is not only an outstanding synthesis of history, but a trenchant commentary on the state of the American Dream.

More Equal Than Others Rosanna Hertz, 1986 By placing the dual-career marriage in its economic and social context, *More Equal Than Others* goes beyond the media image of dual-career couples as self-sufficient units and compels the reader to confront the dilemmas and possibilities of modern marriages.

All humans are equal, but some are more equal than others Bernadette Reiter, 2016

Privileged Thinking in Today's Schools David Barnett, Carol J. Christian, Richard Hughes, Rocky Wallace, 2010-12-16 Privileged thinking in today's schools is alive and well and shows its ugly head in a variety of ways that often go undetected (or are not addressed) by the educators down in the trenches. In this collection of scenarios and episodes, many of which were experienced by the authors in their years as school administrators, you will find an array of provocative examples of social injustice in the classroom, and what you can do to prevent it in your own school community. As the authors candidly and vulnerably reveal their own 'blind spots' and biases that occurred 'on their watch,' readers will be able to take a look in the mirror as well, thus taking a critical step in better advocating for those students 'left on the fringe' in classrooms and schools.

Fowler's Dictionary of Modern English Usage Henry Watson Fowler, 2015 A comprehensive guide to the English

language provides detailed and expert information on grammar, style, spelling, vocabulary, and punctuation with clear explanations and example sentences.

Fowler's Concise Dictionary of Modern English Usage Jeremy Butterfield,2016-03-10 Fowler's Concise Dictionary of Modern English Usage is an invaluable reference work that offers the best advice on English usage. Known in previous editions as the 'Pocket Fowler', this third edition is a descendant of the original 1926 edition of A Dictionary of Modern English Usage by Henry Fowler. Based on the unrivalled evidence and research of the Oxford Languages Programme, the new edition answers your most frequently asked questions about language use. Should you use a split infinitive, or a preposition at the end of a sentence? Is it infer or imply? Who or whom? What are the main differences between British and American English? Over 4,000 entries offer clear recommendations on issues of grammar, pronunciation, spelling, confusable words, and written style. Real examples are drawn from OUP's vast database of classic and contemporary literary sources, newspapers and magazines, and the Internet. Jeremy Butterfield has judiciously revised the text to reflect the English usage practices and con

"Right Makes Might" Wolfgang Mieder,2019-04-04 "A powerful and timely addition to the literature of rhetoric and folklore." —Choice In 1860, Abraham Lincoln employed the proverb Right makes might—opposite of the more aggressive Might makes right—in his famed Cooper Union address. While Lincoln did not originate the proverb, his use of it in this critical speech indicates that the fourteenth century phrase had taken on new ethical and democratic connotations in the nineteenth century. In this collection, famed scholar of proverbs Wolfgang Mieder explores the multifaceted use and function of proverbs through the history of the United States, from their early beginnings up through their use by such modern-day politicians as Barack Obama, Hillary Rodham Clinton, and Bernie Sanders. Building on previous publications and unpublished research, Mieder explores sociopolitical aspects of the American worldview as expressed through the use of proverbs in politics, women's rights, and the civil rights movement—and by looking at the use of proverbial phrases, Mieder demonstrates how one traditional phrase can take on numerous expressive roles over time, and how they continue to play a key role in our contemporary moment.

A more equal society? Hills, John,Stewart, Kitty,2005-01-12 This major new book provides, for the first time, a detailed evaluation of policies on poverty and social exclusion since 1997, and their effects. Bringing together leading experts in the field, it considers the challenges the government has faced, the policies chosen and the targets set in order to assess results. Drawing on research from the Centre for Analysis of Social Exclusion, and on external evaluations, the book asks how children, older people, poor neighbourhoods, ethnic minorities and other vulnerable groups have fared under New Labour

and seeks to assess the government both on its own terms - in meeting its own targets - and according to alternative views of social exclusion.
