UFOs Karl Svozil, 2023-08-01 Unidentified phenomena in space, in the Earth's atmosphere, and in waters are too important to leave their exploration to the military and scientific laypersons. Their proper scientific study is important for a variety of reasons; in particular, scientists and the public at large need to know the basic facts, to be informed about the way evidence is recorded, and to understand the difference between reliable evidence and fiction, as well as between plausible explanations and fantasy. With this objective, the book surveys the history of UFO observations, the variety of recorded phenomena, and recounts the efforts of investigative commissions and their published findings. Although wild rumors are demystified in the process, this is not an exercise in rumor-bashing. An open and at the same time critical mindset is the key. Many narratives and hypothesis appear implausible relative to our present state of knowledge; but this alone should not lead to their outright exclusion. Thus the author also pays attention to UFO sightings that have so far eluded explanation in terms of known physics or meteorology. Here the reader will encounter some of the more speculative but scientifically tenable proposals, for example, relating to sudden zigzag motion without apparent inertia or recognizable propulsion, yet always with a clear guide to their plausibility. Last but not least, the book outlines plans and suggestions for future research capable of revealing the existence and intentions of extraterrestrial intelligences, outer-space engineers, or technologies so far known only from science fiction.

raising spiritual vibration and increasing our body's innate healing ability. The Art of Deception is the Rule of Life Albert Amao Soria Ph.D.,2024-07-09 This book is a spiritual journey of self-discovery for those open-minded and willing to embrace the truth, even if it means confronting deep-rooted false beliefs inherited from our ancestors. It is a call to step out of the comfort of blissful ignorance and into the light of personal enlightenment. Ignoring the truth may provide temporary solace, but it can lead to greater despair and fear in the long term. This existential gap is usually filled with religions, myths, and legends; however, these stories may not be entirely factual. Nevertheless, they provide solace and a sense of purpose in life, so they are often considered well-intentioned, pious fiction. Many desire to know the truth, but few are genuinely prepared to handle it. This book challenges many core beliefs and convictions held as accurate; it may lead to existential conflict. As King Solomon wisely said, "For with much wisdom comes much sorrow; the more knowledge, the more grief" (Ecclesiastes 1:18). These words resonate with the essence of this book, inviting you to embark on a journey of self-discovery and truth-seeking. It highlights the transformative potential of this process, as those who can confront the truth honestly undergo a psychological catharsis—a liberation of erroneous assumptions. Thus, this book is not for the faint of heart. More than 2,500 years ago, Buddha stated that life is an illusion, and today's most accurate science, quantum physics, asserts that we live in virtual reality. The truth can challenge our deepest convictions and induce confusion because we live based on false assumptions imposed by our ancestors, mass media, outdated education systems, and traditional erroneous beliefs.

Cosmism: A New Hope for Humanity is a thorough exploration of human belief and creed through history, accompanied by an exhaustive detailing of a new way, a new understanding, and an inspired approach to life. Cosmism is a Space Age philosophical model and belief system that is built upon the aspects of intelligence and consciousness present in the universe. It sees the entire Cosmos as God and humans as part and parcel of this great orderly system we seem to live in. Cosmists believe that since we are part of this Cosmos, we have the capacity to influence its life and evolution, and our relationship with this greatest system is something important to recognize and cherish in our lives. Hard-hitting, thought-provoking, and entertaining, Cosmism: A New Hope for Humanity will challenge readers to explore their place in the Cosmos and their relationship with its other inhabitants.

The New Circlemakers Andrew Collins,2009-03 What is the mystery of the crop circles? Are they manmade or

supernatural? Today the majestic crop formations grace the very same pastures of southern England that in the past were the haunts of fairies, hobgoblins, and mysterious lights. Here, too, are some of Britain's most spectacular prehistoric landscapes: Stonehenge, Avebury, and Silbury Hill all act as ominous backdrops to the crop circle phenomenon. Did our ancestors know something about this beguiling, enchanting landscape that we are only now waking up to for the first time? Is there a higher intelligence responsible for such creations, and if so, who are they and what are they trying to tell us? Bizarrely, the answer might lie not here on earth, but 37,000 light years away in the constellation of Cygnus, the Northern Cross, where lurks a star perhaps responsible not only for the foundation of the world's earliest stone monuments but for the emergence of humanity itself.

Gods of Eden William Bramley, 1993-03-01 They Came To Earth Millions Of Years Ago To Spread The Poison Of Hatred, War And Catastrophe... They Are With Us Still... Human history is a seemingly endless succession of bloody conflicts and devastating turmoil. Yet, inexplicably, in the light of astonishing intellectual and technological advancement, Man's progress has been halted in one crucial area: he still indulges the primitive beast within and makes war upon his neighbors. As a result of seven years of intense research, William Bramley has uncovered the sinister thread that links humanity's darkest events - from the wars of the ancient pharaohs to the assassination of JFK. In this remarkable, shocking and absolutely compelling work, Bramley presents disturbing evidence of an alien presence on Earth -- extraterrestrial visitors who have conspired to dominate Humankind through violence and chaos since the beginning of time...a conspiracy which continues to this very day.

Gobekli Tepe: Genesis of the Gods Andrew Collins, 2014-05-01 An exploration of the megalithic complex at Göbekli Tepe, who built it, and how it gave rise to legends regarding the foundations of civilization • Details the layout, architecture, and exquisite carvings at Göbekli Tepe • Explores how it was built as a reaction to a global cataclysm • Explains that it was

the Watchers of the Book of Enoch and the Anunnaki gods of Sumerian tradition who created it • Reveals the location of the remains of the Garden of Eden in the same region Built at the end of the last ice age, the mysterious stone temple complex of Göbekli Tepe in Turkey is one of the greatest challenges to 21st century archaeology. As much as 7,000 years older than the Great Pyramid and Stonehenge, its strange buildings and rings of T-shaped monoliths--built with stones weighing from 10 to 15 tons--show a level of sophistication and artistic achievement unmatched until the rise of the great civilizations of the ancient world, Sumer, Egypt, and Babylon. Chronicling his travels to Göbekli Tepe and surrounding sites, Andrew Collins details the layout, architecture, and exquisite relief carvings of ice age animals and human forms found at this 12,000-year-old megalithic complex, now recognized as the oldest stone architecture in the world. He explores how it was built as a reaction to a global cataclysm--the Great Flood in the Bible--and explains how it served as a gateway and map to the sky-world, the place of first creation, reached via a bright star in the constellation of Cygnus. He reveals those behind its construction as the Watchers of the Book of Enoch and the Anunnaki gods of Sumerian tradition. Unveiling Göbekli Tepe's foundational role in the rise of civilization, Collins shows how it is connected to humanity's creation in the Garden of Eden and the secrets Adam passed to his son Seth, the founder of an angelic race called the Sethites. In his search for Adam's legendary Cave of Treasures, the author discovers the Garden of Eden and the remains of the Tree of Life--in the same sacred region where Göbekli Tepe is being uncovered today.

Eden's Bridge David B. Doty, 2012-01-01 Eden's Bridge: The Marketplace in Creation and Mission explores a biblically based theology of the marketplace implicit in the creation narrative of Genesis 1-2. The thesis validates the calling and ministry of all marketplace Christians. David Doty invites readers to rethink and redirect the purposes of vocation, trade, and profit toward the purposes of God's Kingdom, as they were revealed in the beginning and are to be restored in Christ's reign. This book is eye-opening and inviting as it explores how God is moving to reclaim the marketplace for His Kingdom, and His redeeming purposes for the world of commerce. The marketplace holds untold potential if business is conducted according to God's plan: poverty can be eradicated, abundant living can be shared among all people, and shalom can prevail. Eden's Bridge offers hope for recovering from the recent collapse of the global economic system by envisioning a new view of how wealth is made and how the marketplace is yet to serve God's purposes in His mission to the world.

Magicians of the Gods Graham Hancock, 2015-09-10 TV presenter Graham Hancock's multi-million bestseller Fingerprints of the Gods remains an astonishing, deeply controversial, wide-ranging investigation of the mysteries of our past and the evidence for Earth's lost civilization. Twenty years on, Hancock returns with a book filled with completely new,

scientific and archaeological evidence, which has only recently come to light... The evidence revealed in this book shows beyond reasonable doubt that an advanced civilization that flourished during the Ice Age was destroyed in the global cataclysms between 12,800 and 11,600 years ago. Near the end of the last Ice Age 12,800 years ago, a giant comet that had entered the solar system from deep space thousands of years earlier, broke into multiple fragments. Some of these struck the Earth causing a global cataclysm on a scale unseen since the extinction of the dinosaurs. At least eight of the fragments hit the North American ice cap, while further fragments hit the northern European ice cap. The impacts, from comet fragments a mile wide approaching at more than 60,000 miles an hour, generated huge amounts of heat which instantly liquidized millions of square kilometres of ice, destabilizing the Earth's crust and causing the global Deluge that is remembered in myths all around the world. A second series of impacts, equally devastating, causing further cataclysmic flooding, occurred 11,600 years ago, the exact date that Plato gives for the destruction and submergence of Atlantis. But there were survivors - known to later cultures by names such as 'the Sages', 'the Magicians', 'the Shining Ones', and 'the Mystery Teachers of Heaven'. They travelled the world in their great ships doing all in their power to keep the spark of civilization burning. They settled at key locations - Gobekli Tepe in Turkey, Baalbek in the Lebanon, Giza in Egypt, ancient Sumer, Mexico, Peru and across the Pacific where a huge pyramid has recently been discovered in Indonesia. Everywhere they went these 'Magicians of the Gods' brought with them the memory of a time when mankind had fallen out of harmony with the universe and paid a heavy price. A memory and a warning to the future... For the comet that wrought such destruction between 12,800 and 11,600 years may not be done with us yet. Astronomers believe that a 20-mile wide 'dark' fragment of the original giant comet remains hidden within its debris stream and threatens the Earth. An astronomical message encoded at Gobekli Tepe, and in the Sphinx and the pyramids of Egypt, warns that the 'Great Return' will occur in our time...
