Quote Me the Book of All New Quotes Joseph Julius Bonkowski, Jr.,2009-07 Born 8-30-58 in Cleveland Ohio, graduated from Lincoln-West high school in 1977 (Honor Roll), and was on the chess and track team, and started working for the city of Cleveland water dept. in 1977 and retired in 2007. I write short stories, slogans, saying, philosophy, songs, and comedy, restore paintings and comic books, and I can invent almost anything technical. I jog and it seems like I don't age; do to mixing a Dr Jackal and Mr. Hide type concoction when I was 20 years old. My parents are Joseph and Dorothy Bonkowski. I wrote The secrets of mind reading revealed (Howell Press), and Casablanca 2 (Unpublished), the Theory of Relativity 2, which expands on Einstein's Theory of Relativity (Only 200 copies printed.) My future plans are to keep on writing, and start a career in comedy. I still have thousands of unpublished quotes and saying, and if this book sells well I will write a second book lord willing.

Non-violent Communication and Narrative Medicine for Promoting Sustainable Health Maria Giulia Marini,2024-05-29 The Covid-19 pandemic and current international circumstances have left many individuals feeling vulnerable, both economically and psychologically. At the same time, pressure is put on healthcare systems, particularly in Europe, resulting in doctor shortages, heavy workloads, and low salaries for healthcare workers. Patients are experiencing longer waiting lists, shorter visiting times, and emergency rooms that underestimate patients' clinical problems. As a result, episodes of self-violence and violence resulting from different causes are happening more frequently, also in hospitals. However, there is hope, and it starts with sharing our needs, thoughts, and feelings. This is where narrative medicine comes into play, as it helps bring stories to light, listen, ask open questions, analyze the spoken words, metaphors, and timing of communication, and promote a non-violent narrative. The key is to transition from violent to non-violent narratives and the consideration of relationship as a fundamental part of the therapeutic process, deserving an in-depth educational program.

This is even more true if one considers that the ecosystem of health, together with the inclusion of diversity and the promotion of peace, is one of the main pillars of the UN Sustainable Development Goals. This book aims to inspire care for one another through the narratives of people with disabilities, patients, nurses, doctors, students, carers, and individuals who meet otherness and resolve conflicts.

Words Are Made Up! (And Other Thoughts That Hurt To Think) Jay Norry, 2018-07-25 Not everyone feels the need to point out ridiculous things when they see them, or make jokes about very serious things; but some of us do. This book is for us. Not everyone wakes up in the morning wondering who uttered the first word, how weather forecasters can be wrong so often and not lose their jobs, or how voters don't have time to read what they vote on; but some of us do. This book is for us, too. Not everyone likes to think about situations beyond their control, especially when those things could invade their lives at any time; but some of us do. This book is definitely for us. You should get this book, if you're one of us.

America's Revolutionary Mind C. Bradley Thompson, 2019-11-05 America's Revolutionary Mind is the first major reinterpretation of the American Revolution since the publication of Bernard Bailyn's *The Ideological Origins of the American Revolution* and Gordon S. Wood's *The Creation of the American Republic*. The purpose of this book is twofold: first, to elucidate the logic, principles, and significance of the Declaration of Independence as the embodiment of the American mind; and, second, to shed light on what John Adams once called the real American Revolution; that is, the moral revolution that occurred in the minds of the people in the fifteen years before 1776. The Declaration is used here as an ideological road map by which to chart the intellectual and moral terrain traveled by American Revolutionaries as they searched for new moral principles to deal with the changed political circumstances of the 1760s and early 1770s. This volume identifies and analyzes the modes of reasoning, the patterns of thought, and the new moral and political principles that served American Revolutionaries first in their intellectual battle with Great Britain before 1776 and then in their attempt to create new Revolutionary societies after 1776. The book reconstructs what amounts to a near-unified system of thought—what Thomas Jefferson called an “American mind” or what I call “America’s Revolutionary mind.” This American mind was, I argue, united in its fealty to a common philosophy that was expressed in the Declaration and launched with the words, “We hold these truths to be self-evident.”

Citizens' Rights and the Right to Be a Citizen Ernst Hirsch Ballin, 2014-01-23 Ernst Hirsch Ballin discusses the significance of citizens' rights against the backdrop of ongoing migration and urbanization in the beginning of the 21st century. The traditional view that each state has the sovereign power to give or withhold citizenship, puts the full enjoyment of human rights at risk whenever exclusion is based on differences in nationality. Citizens' rights are the essential connecting link between human rights and life in a democratic society. Citizens have an individual right, as a citizen, to take part in the democratic process and in the structures of solidarity of the state where they are effectively at home. By recognizing everyone's right to the citizenship of the state in which they can make these rights a reality, citizens' rights can bridge the gap between the universality of human rights and the changing political and social settings of people's lives. Limits on dual citizenship are counterproductive, European citizenship paves the way for transnational citizenship. Hirsch Ballin's book is very important for academics and practitioners in the field of citizenship. It embraces the complexity of citizenship with all its academic, practical and emotional meanings. Hopefully, Hirsch Ballin's work can serve as a compass for new directions in immigration and naturalisation debates. Katja Swider in: Journal of European Integration, Vol 38. nr. 4, 2016

The Mindset Required for the Teens PRAVEEN BV, 2024-05-12 We are building a house in our old age, but they are becoming billionaires during this period. This made me wonder: how did these things work? - How do they do this? - What are we missing? This way of thinking transformed my life in ways I never expected, which is why I wrote this book. All humans are born with the same brain, so why do some people's cars cost more than some could ever earn in their lifetime? Why do car companies quote prices that exceed some people's lifetime wealth? After considering all of these factors, super wealthy people figured out something about the world that I don't yet understand. But once I knew all of this, my perspective shifted dramatically. I can no longer view things in the same way I did previously. These thoughts followed me around wherever I went. Until now, I've stated that those things shifted my perspective, but I've never described what it was. So, what is that? If you want to figure out what's going on, start reading this book right away.

court cases, legislation, testimony, and much more.

Hope this Helps Benjy Kusi, 2023-02-02 The world can often feel like a very scary, complicated and messy place. It's not always clear what is the correct thing to say, the best thing to do or the right way to be. HOPE THIS HELPS offers an easy guide that can help you feel and do better, and gives guidance on things that can appear incredibly difficult to navigate. Centring tolerance, kindness and empathy, the book takes us back to our roots as a human race of simply wanting to connect, be heard and enjoy life. Written in short, bite-sized entries, you can turn straight to the section you need depending on the challenge you're facing. Benjy Kusi will provide insight on . . . - Why it's not selfish to choose yourself - Why it's OK to change your opinion as you learn - Why impact means more than intent - Why we should listen to others more - How we can be kinder online And much, much more. More than anything this book reminds you that not everyone can be everything all the time, but the little things each of us can do to make the world slightly better can amount to something incredible. We hope this helps.
