Democracy in Picturebooks from Sweden and United States, 2000-2020 Mary Alice Barksdale,Getahun Yacob Abraham,2021-10-18 Democracy in Picturebooks from Sweden and the United States, 2000-2020 explores democracy-themed picturebooks written for children between the ages of three and ten. With multiple analyses of picturebooks throughout the twenty-first century, the authors illustrate how picturebooks can play a vital role in the development of children's perceptions about the different principles of democracy. From a holistic perspective, these books can be seen as the starting point for socializing children who will come to lead and participate in democratic societies themselves. The multi-pronged approach in this research introduces: (a) concepts underlying the role of picturebooks in familiarizing children with concepts about democracy, (b) research methods for picturebook analyses, (c) exploration of specific exemplar picturebooks that address democratic principles, (d) how picturebooks link democracy with human qualities, (e) utilizing democracy-themed picturebooks in the home and the school. This project holds the promise of promoting meaningful instruction of democracy through the use of picturebooks.

Arts-Based Multiliteracies for Teaching and Learning Peters, Beryl, 2024-10-17 The current educational landscape demands more than traditional literacy skills to equip learners with the necessary tools to thrive in the modern world. The traditional focus on reading and writing print text may not be sufficient to comprehend the diverse forms of meaning-making necessary for effective communication and understanding in diverse communities. This poses a crucial challenge for educators who aspire to foster engaged and critically aware learners who can navigate the complexities of contemporary society. *Arts-Based Multiliteracies for Teaching and Learning* offers a transformative solution by advocating for a pedagogy of multiliteracies centered on arts-based approaches. By redefining literacy to encompass diverse modalities such as dance, drama, music, visual arts, and multi-media, this book challenges educators to expand their understanding of literacy beyond traditional boundaries. The book provides a compelling rationale for integrating arts-based multiliteracies across all levels and curricular areas.

Each lesson uses children's literature to make challenging, abstract concepts relevant to children's lives, inviting them to learn these concepts while responding to a story's illustrations, theme, characters, and plot. The lessons also demonstrate how teachers can use children's literature to meet national standards in math, science, and social studies. Chapters 1 through 5 set the stage for using picture books, discussing the effective, imaginative integration of literature into the classroom. Teachers will learn to create an environment that ensures that when children and books come together, the experience is enjoyable and thought provoking.
