An Anthology of Spanish Poetry John A. Crow, 1980-12-01 John A. Crow, a leading Hispanist, has culled the best translations available--by such poets as Richard Franschawe, Edward Fitzgerald, Percy Bysshe Shelley, Lord Byron, Henry Wadsworth Longfellow, William Cullen Bryant, Robert Southey, and many distinguished modern poets--of poems ranging from the eleventh century to the present to make this the most complete collection of both Spanish and Spanish American poetry in English translation. Represented here is work by such twentieth century poets as Gabriela Mistral, Octavio Paz, Federico García Lorca, César Vallejo, Pablo Neruda, Anotnio Machado, and Juan Ramón Jiménez, many of whom the editor has known personally. The inclusion of many contemporary poets whose verse has never before appeared in English makes this anthology a particularly valuable collection.

The Feminist Encyclopedia of Spanish Literature: N-Z Janet Pérez, Maureen Ihrle, 2002 Spanish literature includes some of the world's greatest works and authors. It is also one of the most widely studied. This reference looks at the literature of Spain from the perspective of women's studies. Though the volume focuses on the literature of Spain written in Castilian, it also includes survey entries on the present state of women's literature in Catalan, Galician, and Basque. Included are hundreds of alphabetically arranged entries for numerous topics related to Spanish literature, including: -Literary periods and genres -Significant characters and character types -Major authors and works -Various specialized topics Each entry discusses how the topic relates to women's studies. Entries for male authors discuss their attitudes toward women. Female writers are considered for the restrictive cultural contexts in which they wrote. Specific works are examined for their

representations of female characters and their handling of women's issues. Each entry is written by an expert contributor and closes with a brief bibliography. The volume concludes with a list of works for further reading.

In the Footsteps of Dante Teresa Bartolomei, Joao R. Figueiredo, 2023-01-30 Dante, the pilgrim, is the image of an author who stubbornly looks ahead, seeking and building the Great Beyond (Manguel). Following in his footsteps is therefore not a return to the past, going à rebours, but a commitment to the future, to exploring the potential of humanity to transhumanise. This dynamic of self-transcendence in Dante's humanism (Ossola), which claims for European civilisation a vocation for universalism (Ferroni), is analysed in the volume at three crucial moments: Firstly, the establishment of an emancipatory relationship between author and reader (Ascoli), in which authorship is authority and not power; secondly, the conception of vision as a learning process and horizon of eschatological overcoming (Mendonça); finally, the relationship with the past, which is never purely monumental, but ethically and intertextually dynamic, in an original rewriting of the original scriptural, medieval, and classical culture (Nasti, Bolzoni, Bartolomei). A second group of contributions is dedicated to the reconstruction of Dante's presence in Portuguese literature (Almeida, Espírito Santo, Figueiredo, Marnoto, Vaz de Carvalho): they attest to the innovative impact of Dante's work even in literary traditions more distant from it.

Selected Poems of Luis de Góngora Luis de Góngora, 2008-09-15 Making Luis de Góngora's work available to contemporary English-language readers without denying his historical context, *Selected Poems of Luis de Góngora* presents him as not only one of the greatest and most complex poets of his time, but also the funniest and most charismatic. From longer works, such as "The Fable of Polyphemus and Galatea," to shorter ballads, songs, and sonnets, John Dent-Young's free translations capture Góngora's intensely musical voice and transmit the individuality and self-assuredness of the poet. Substantial introductions and extensive notes provide personal and historical context, explain the ubiquitous puns and erotic innuendo, and discuss translation choices. A significant edition of this seminal and challenging poet, *Selected Poems of Luis de Góngora* will find an eager audience among students of poetry and scholars studying the history and literature of Spain.

Dreams of Waking Vincent Barletta, Mark L. Bajus, Cici Malik, 2013-03-22 In this anthology, Vincent Barletta, Mark L. Bajus, and Cici Malik treat the Iberian lyric in the late Middle Ages and early modernity as a deeply multilingual, transnational genre that needs to break away from the old essentialist ideas about language, geography, and identity in order to be understood properly. More and more, scholars and students are recognizing the limitations of single-language, nationalist, and period-bound canons and are looking for different ways to approach the study of literature. The Iberian Peninsula is an excellent site for this approach, where the history and politics of the region, along with its creative literature,

need to be read and studied together with the way the works were composed by poets and eventually consumed by readers. With a generous selection of more than one hundred poems from thirty-three poets, *Dreams of Waking* is unique in its coverage of the three main languages—Catalan, Portuguese, and Spanish—and lyrical styles employed by peninsular poets. It contains new translations of canonical poems but also translations of many poems that have never before been edited or translated. Brief headnotes provide essential details of the poets' lives, and a general introduction by the volume editors shows how the poems and languages fruitfully intersect. With helpful annotations to the poetry, as well as a selected bibliography containing the most important editions and translations from all three of the main Iberian languages, this volume will be an indispensable tool for both specialists and students in comparative literature.

Companion to Music in the Age of the Catholic Monarchs ,2016-10-05 The Companion to Music in the Age of the Catholic Monarchs, edited by Tess Knighton, offers a major new study that deepens and enriches our understanding of the forms and functions of music that flourished in late medieval Spanish society. The fifteen essays, written by leading authorities in the field, present a synthesis based on recently discovered material that throws new light on different aspects of musical life during the reign of Ferdinand and Isabel (1474-1516): sacred and secular music-making in royal and aristocratic circles; the cathedral music environment; liturgy and power; musical connections with Rome, Portugal and the New World; theoretical and unwritten musical practices; women as patrons and performers; and the legacy of Jewish musical tradition. Contributors are Mercedes Castillo Ferreira, Giuseppe Fiorentino, Roberta Freund Schwartz, Eleazar Gutwirth, Tess Knighton, Kenneth Kreitner, Javier Marín López, Ascensión Mazuela-Anguita, Bernadette Nelson, Pilar Ramos López, Emilio Ros-Fábregas, Juan Ruiz Jiménez, Richard Sherr, Ronald Surtz, and Jane Whetnall.
