Règlement de sécurité incendie commenté des bâtiments d'habitation Socotec,2022-04-27 Rassemblant

l'ensemble de la réglementation relative à la sécurité incendie des bâtiments d'habitation – maisons individuelles, bâtiments d'habitation collectifs, logements-foyers –, cet ouvrage présente et commente notamment le Code de la construction et de l'habitation et l'arrêté du 31 janvier 1986 modifié ; il éclaire ainsi tous types de profils d'acteurs concernés par cette problématique à travers 80 fiches qui regroupent les articles législatifs et réglementaires par thème. Cette 2e édition intègre le décret n° 2021-872 du 30 juin 2021 recodifiant la partie réglementaire du livre Ier du CCH publié en application de l'ordonnance n° 2020-71 du 29 janvier 2020. Elle prend également en compte l'arrêté du 11 septembre 2020 qui introduit l'obligation de mise en place de douches accessibles sans ressaut et l'arrêté du 4 mars 2021 relatif aux installations de gaz combustible des bâtiments d'habitation individuelle ou collective, y compris les parties communes. Afin d'avoir une vision globale des dispositions applicables, des textes complémentaires à l'arrêté du 31 janvier 1986 sont présentés au sein de chapitres thématiques : bâtiments d'habitation à usage spécifique ou répondant à un classement particulier, performances au feu, équipements techniques, installations électriques, chaufferies, gaz combustibles et hydrocarbures, ICPE et parcs de stationnement. Les nombreux schémas, commentaires et synthèses rédigées par Socotec, permettent de déjouer les difficultés d'application du règlement. Les maîtres d'ouvrage, concepteurs et exploitants trouveront ainsi l'ensemble des obligations qui leur incombent et les solutions à mettre en oeuvre. Les professionnels de la prévention et du contrôle s'y référeront pour réaliser leurs vérifications réglementaires.

Dictionnaire du droit de l'urbanisme Norbert Foulquier, 2024-09-25 L'ordonnance du 17 juin 2020 relative à la rationalisation de la hiérarchie des normes applicable aux documents d'urbanisme, celle du même jour relative à la modernisation des schémas de cohérence territoriale, la loi « Climat et résilience » du 22 août 2021, la loi du 10 mars 2022 pour l'accélération de la production d'énergies renouvelables (EnR), l'ordonnance du 8 février 2023 relative au bail réel solidaire d'activité ainsi que la loi « 3 DS », celle du 23 octobre 2023 sur l'industrie verte ou encore celle du 9 avril 2024 visant à l'accélération et à la simplification de la rénovation de l'habitat dégradé et des grandes opérations d'aménagement ont bouleversé le droit de l'urbanisme depuis 2019, date de publication de la précédente édition de cet ouvrage. La quatrième édition du Dictionnaire du droit de l'urbanisme analyse les principaux concepts et notions du droit de l'urbanisme et le décrypte dans son environnement juridique ; elle traite également des matières connexes tels les droits du patrimoine, de l'environnement, de l'expropriation et celui de l'aménagement (ZAC, concessions d'aménagement, lotissements, etc.), matières fondamentales à l'organisation du territoire et aux modalités de mise en place de tous les projets d'aménagement et de construction. Avec plus de 650 entrées, ce dictionnaire incontournable offre une approche à la fois théorique, pratique et didactique du droit de l'urbanisme. Il fournit des définitions exhaustives permettant d'en maîtriser toutes les aspérités juridiques : planification urbaine, autorisations d'urbanisme, aménagement du territoire, protection du patrimoine bâti et non bâti, dark store, urbanisme transitoire, recul du trait de côte, ZAN, etc. Chaque définition présente le cadre législatif et

réglementaire de la notion ainsi que la jurisprudence y afférente et décrit les bonnes pratiques à observer. Grâce à cet ouvrage, les professionnels et futurs professionnels – qu'ils soient maîtres d'ouvrage, maîtres d'oeuvre, urbanistes, etc. – disposent, dans un document unique, de tous les outils pour sécuriser le déroulement d'une opération d'aménagement ou de construction.

Le transport des hydrocarbures liquides et gazeux par canalisation Jacques Vincent-Genod,1980

Règlement de sécurité incendie ERP avec historique des versions Robert Berrih,2022-08-09 Depuis sa parution le 25 juin 1980, le règlement de sécurité contre les risques d'incendie et de panique dans les établissements recevant du public (ERP) a fait l'objet de très nombreuses modifications. 92 versions de ce règlement se sont ainsi succédé au cours des 42 dernières années. Le chapitre IV du CCH traitant des ERP a, quant à lui, été modifié à 16 reprises. Les dernières en date, dont tient compte cette 2e édition, font suite à la publication du décret n° 2021-872 du 30 juin 2021 qui recodifie la partie réglementaire du livre 1er du CCH, et de l'arrêté du 7 février 2022 modifiant l'arrêté du 25 juin 1980 portant approbation des dispositions générales du règlement de sécurité contre les risques d'incendie et de panique dans les ERP. L'accès aux versions précédentes du règlement est fondamental dans le cadre d'opérations de contrôle technique, d'interventions avant travaux ou d'expertises puisque les bâtiments existants relèvent des exigences du règlement à l'époque de leur construction. Cet ouvrage très complet propose donc le regroupement inédit des versions du règlement en vigueur depuis 1980, pour chacun des articles de ce règlement, mais aussi pour les articles du Code de la construction et de l'habitation associés et pour les instructions techniques publiées en annexe du règlement. Cela représente environ 1 600 articles en vigueur, soit près de 3 000 versions d'articles, ce qui permet un accès à des textes parfois difficiles à trouver et ouvre la possibilité de comparer entre elles ces versions successives. Chaque version est introduite par un tableau récapitulant sa date d'entrée en vigueur et sa date de fin d'application, ainsi que la référence du texte officiel l'ayant créée ou modifiée. Tous les établissements, de tous les types, sont traités, y compris les établissements spéciaux. Cette version « expert » du règlement incendie intéressera les acteurs de la construction qui doivent appliquer les règles (maîtres d'ouvrage, exploitants, concepteurs, maîtres d'oeuvre, bureaux d'études, architectes, entreprises, etc.) ou évaluer la conformité des bâtiments (contrôleurs et vérificateurs techniques, experts, coordinateurs SSI, autorités administratives, services de sécurité, membres des commissions de sécurité, etc.).

Le financement de l'aménagement par les taxes et participations Alain Bartoli,Jean-Pierre Guin,1988-01-01T00:00:00+01:00 Ce dossier Berger-Levrault vise à présenter, de manière simple mais complète, les

différents aspects du financement de l'aménagement par les taxes et participations. Il intègre les dispositions légales les plus récentes, en particulier celles précisant les principes et les modalités de ce financement. Un bref commentaire, un court aperçu historique, permettent - chaque fois que cela est nécessaire - d'en faire apparaître clairement les motifs. Ainsi, apparaît dans sa cohérence l'économie du système, destiné à faciliter la réalisation des équipements locaux, mais aussi à définir, en regard de leurs obligations, les droits des titulaires de permis de construire. La méthode d'exposition choisie, conduit à analyser - successivement - les différentes taxes existantes et les diverses formes de participation prévues. Ce parti pris est essentiellement pratique. Il fait de l'ouvrage, à la fois, un instrument de travail particulièrement utile aux élus, aux services des collectivités locales et de l'équipement, aux constructeurs, aux cabinets d'étude et de conseil, et un livre de référence en matière de formation et d'information pour les étudiants et candidats aux concours administratifs. Nul doute que tous les particuliers trouveront aussi, dans sa lecture, un guide précieux de leurs droits et démarches.
