Driven by the Movement JoNina Abron-Ervin, 2025-08-05 A collective portrait of the Black Power movement by radical journalist and former Black Panther JoNina Abron-Ervin *Driven by the Movement* collects the stories of twenty ordinary people who did extraordinary things for the Black liberation struggle during the pivotal decade of 1965–1975. These activists came from across the US and all walks of life—single working mothers, clergy, students, teachers, military veterans—to organize against police brutality, poverty, hunger, substandard schools, and colonialism in Africa. Drawing from her own experience at the heart of the movement, JoNina Abron-Ervin’s on-the-ground reporting offers a rare look into the pragmatism, optimism, compromise, and contradiction and the everyday acts of dedication that animated the Black Power era. This new edition includes expanded material on the history of the Black Panther newspaper as a source of mass political education and on the Black Panther Party’s legendary survival programs, such as its Free Breakfast for Children and healthcare programs. A foreword by writer and organizer William C. Anderson connects two torchbearers of the Black radical tradition across generations.

The Unraveling of America Allen J. Matusow, 2009 In a book that William E. Leuchtenburg, writing in the *Atlantic*, called “a work of considerable power,” Allen Matusow documents the rise and fall of 1960s liberalism. He offers deft treatments of the major topics—anticommunism, civil rights, Great Society programs, the counterculture—making the most, throughout, of his subject’s tremendous narrative potential. Matusow’s preface to the new edition explains the sometimes critical tone of his study. *The Unraveling of America*, he says, “was intended as a cautionary tale for liberals in the hope that when their hour struck again, they might perhaps be fortified against past error. Now that they have another chance, a look back at the 1960s might serve them well.”

Bartlett's Familiar Black Quotations Retha Powers, 2025-05-01 A comprehensive, all-new collection bringing together the most thoughtful, inspiring, and wisest voices from the Black diaspora across history. *Bartlett's Familiar Black Quotations* paints a rich canvas of Black history through time. Five thousand quotes are culled from the time of Ancient Egypt through American slavery, Jim Crow, the Civil Rights Era, Apartheid, to the present day. With a foreword by Henry Louis Gates, Jr. and passages from authors, artists, scientists, philosophers, theologians, activists, politicians, and many others, *Bartlett's Familiar Black Quotations* will appeal not only to quote aficionados and researchers, but also to history buffs. *Aesop's Fables*

and the Holy Bible are in the same company as Nelson Mandela and President Obama; Maya Angelou and Toni Morrison; Bob Marley and Jay-Z. A wonderful reference tool and gift, Bartlett's Familiar Black Quotations is sure to follow in the footsteps of Bartlett's Familiar Quotations, becoming a beloved authority.

Up Against the Wall Curtis J. Austin, 2008-03-01 Curtis J. Austin's *Up Against the Wall* chronicles how violence brought about the founding of the Black Panther Party in 1966 by Huey P. Newton and Bobby Seale, dominated its policies, and finally destroyed the party as one member after another—Eldridge Cleaver, Fred Hampton, Alex Rackley—left the party, was killed, or was imprisoned. Austin shows how the party's early emphasis in the 1960s on self-defense, though sorely needed in black communities at the time, left it open to mischaracterization, infiltration, and devastation by local, state, and federal police forces and government agencies. Austin carefully highlights the internal tension between advocates of a more radical position than the Panthers took, who insisted on military confrontation with the state, and those such as Newton and David Hilliard, who believed in community organizing and alliance building as first priorities. Austin interviewed a number of party members who had heretofore remained silent. With the help of these stories, Austin is able to put the violent history of the party in perspective and show that the "survival" programs, such as the Free Breakfast for Children program and Free Health Clinics, helped the black communities they served to recognize their own bases of power and ability to save themselves.

Ending Extreme Inequality Scott Myers-Lipton, 2015-11-17 Poverty and inequality are at record levels. Today, forty-seven million Americans live in poverty, while the median is in decline. The top 20 percent now controls 89 percent of all wealth. These conditions have renewed demands for a new economic Bill of Rights, an idea proposed by F. D. Roosevelt, Truman and Martin Luther King, Jr. The new Economic Bill of Rights has a coherent plan and proclaims that all Americans have the right to a job, a living wage, a decent home, adequate medical care, good education, and adequate protection from economic fears of unemployment, sickness and old age. Integrating the latest economic and social data, *Ending Extreme Inequality* explores each of these rights. Each chapter includes: an analysis of the social problems surrounding each right; a historical overview of the attempts to right these wrongs; and assessments of current solutions offered by citizens, community groups and politicians. These contemporary, real-life solutions to inequality can inspire students and citizens to become involved and open pathways toward a more just society.

Black Panther Party True History Therlee Gipson, 2018-08-21 This book tells the true story of The Black Panther Party True History: When I was in the U. S. Navy stationed on the USS Ranger CVA 61 docked at Alameda, California, I would go on 7th Street in Oakland for liberty. I ran across a group of Black youngster who wanted donations to their Church to help fund The Black Panthers Program in their Pentecostal Church in the late 1950s. The Black Panther Party achieved National and International notoriety through its involvement in the Black Power Movement and U.S. Politics of the 1960s and 1970s.

The group's provocative rhetoric, militant posture, and Cultural and Political flourishes permanently altered the contours of American Identity. Founded in Oakland, California by Bobby Seale and Huey Newton on October 15, 1966, the Organization initially set forth a Doctrine calling primarily for the protection of African American neighborhoods from Police brutality.

Birmingham and the Long Black Freedom Struggle Robert W. Widell, Jr., 2013-09-18 Birmingham, Alabama looms large in the history of the twentieth-century black freedom struggle, but to date historians have mostly neglected the years after 1963. Here, author Robert Widell explores the evolution of Birmingham black activism into the 1970s, providing a valuable local perspective on the long black freedom struggle.

The Black Panther Party and Transformative Pedagogy Omari L. Dyson, 2013-11-14 The Black Panther Party and Transformative Pedagogy: Place-Based Education in Philadelphia, by Omari L. Dyson, is the first scholarly text to detail the social relief efforts of the Philadelphia, Pennsylvania Branch of the Black Panther Party. Through a postcolonial lens, this story captures the lived resistances, highlights the socio-historical context, and examines the discourse of former members of the Black Panther Party and local residents of Philadelphia from 1968-1974. Overall, this book provides insight from a multiplicity of sources to better capture the identity(-ies) and complexity of the organization. Not only does this text resolve a dearth in the literature that highlights the multiple facets of the Black Panther Party (especially at the local level), but it serves as a template on effective strategies for researchers, educators, and policymakers to implement on their quest for social and educational transformation.

Visionary Women Writers of Chicago's Black Arts Movement Carmen L. Phelps, 2013 A disproportionate number of male writers continue to be credited for constructing the iconic and ideological foundations for what would be perpetuated as the Black Art Movement (BAM). Though an increasing amount of scholarship has recognised leading women artists, activists, and leaders of this period, these new perspectives have yet to recognise adequately the ways women aspired to far more than a mere dismantling of male-oriented ideals. This book examines the work of several women artists working in Chicago, a key focal point for the energy and production of the movement.

Drugs as Weapons Against Us John L. Potash, 2015-05-25 Drugs as Weapons Against Us meticulously details how a group of opium-trafficking families came to form an American oligarchy and eventually achieved global dominance. This oligarchy helped fund the Nazi regime and then saved thousands of Nazis to work with the Central Intelligence Agency. CIA operations such as MK-Ultra pushed LSD and other drugs on leftist leaders and left-leaning populations at home and abroad. Evidence supports that this oligarchy further led the United States into its longest-running wars in the ideal areas for opium crops, while also massively funding wars in areas of coca plant abundance for cocaine production under the guise of a &“war on drugs&” that is actually the use of drugs as a war on us. Drugs as Weapons Against Us tells how scores of undercover U.S. Intelligence agents used drugs in the targeting of leftist leaders from SDS to the Black Panthers, Young Lords, Latin Kings,

and the Occupy Movement. It also tells how they particularly targeted leftist musicians, including John Lennon, Jimi Hendrix, Kurt Cobain, and Tupac Shakur to promote drugs while later murdering them when they started sobering up and taking on more leftist activism. The book further uncovers the evidence that Intelligence agents dosed Paul Robeson with LSD, gave Mick Jagger his first hit of acid, hooked Janis Joplin on amphetamines, as well as manipulating Elvis Presley, Eminem, the Wu Tang Clan, and others.

Black Liberation in the Midwest Kenneth Jolly, 2013-10-23 This book offers a response to the inadequate examination of the Midwest in Civil Rights Movement scholarship - scholarship that continues to ignore the city of St. Louis and the Black liberation struggle that took place there. Jolly examines this local movement and organizations such as the Black Liberators, Mid-City Congress, Jeff Vander Lou Community Action Group, DuBois Club, CORE, Zulu 1200s, and the Nation of Islam to illuminate the larger Black liberation struggle in the Midwest in the mid- and late 1960s. Furthermore, this work details the larger atmosphere and conditions in St. Louis, Missouri and the Midwest from which this local movement developed and operated. This work raises important questions about periodizing and locating Black liberation and Black Nationalism. As racial oppression in the United States was equated with neo-colonialism and internal-colonialism, this discussion reveals the global nature of white supremacy, race and class oppression and exploitation, as well as the material and ideological relationship between local and transnational liberation movements.

Nine Tony D. Flash, 2020-05-30 This is my intro to the world of art. I'm a strong believer that any form of poetry, is artwork at its best. On every one of these pages you'll find a different story, a different feeling, and a different lesson. You'll find happiness, and strength, love and hate, as well as sadness and failure. During my creative process, I've found writing to be a tool in which allows us to be anyone, think anything, and feel as deeply as you wish with no limitations. I only hope that each person has a chance to experience the depths that writing can take you. I would like to thank all the people that I've spoken with who shared their stories with me. I would also like to extend that thank you to the people who sat down and gave me some words of advice. I appreciate your support and I appreciate all the lessons. I love the entire human race and hope you can enjoy these poems created from many different experiences throughout this lifetime.
