Blackhearts Richard Symanski,2000-01-01 This fascinating book is a firsthand account of the adventures of an ornithological field team studying long-tailed finches in outback Australia. In 1991, Nancy Burley, a noted behavioral ecologist, and her husband, Richard Symanski, went to Australia with their one-year-old son and four American students hired as field assistants and babysitter. The social relationships and problems that developed among these individuals in confined and exotic settings and the scientific discoveries that did—and did not—take place form the heart of the book. Symanski begins by telling how he and his wife set up this elaborate field expedition—including the hiring of what seemed to be qualified, compatible, and knowledgeable field assistants. He then describes the harsh realities of their circumstances in Australia: primitive living conditions on an outback cattle station; field sites and subjects for study that were not as expected; and students who were not prepared for the rigors of field life and who became unenthusiastic about the work for which they had been hired. And he tells how he and his wife strove to overcome all the different challenges with which they were confronted. The book provides insight into the demands of professor-student-based fieldwork, particularly when generational conflicts, differing expectations, and culture shock complicate the “business” of doing science.

Well, they could if you were Christine, because Christine's life is complicated. In fact she has been living two lives, one as Chris-girl, the other as Chris-boy. Now the police think that Chris-girl has murdered Chris-boy and they have all the CCTV evidence, witnesses, her gun, a knife and forensics to prove it. As prosecutions go, this one should be a slam dunk! And Christine can't produce her own body to prove that she isn't dead because if she does Jade will die. Jade is Chris-boy's girlfriend's daughter and she has been kidnapped by the real murderer, her grandfather, who also happens to be her father. He has also murdered his daughter, who is also Jade's mother, and is busily trying to get Christine framed for this murder too. It's a murder, it's a kidnapping and it's a romance, but above all, it's an adventure.

Unapologetic Beauty Joanna Frueh, 2019-02-05 A startlingly powerful collaboration reimagines female beauty What is beauty without pain? Compromise is what our culture offers women: cinching, pinching, cutting, shaving, scraping, starving, and, of course, lifting and separating, all in service of one sharply circumscribed model purported to be pleasing—but not to most, if any, women. This extraordinary book reimagines beauty at its most provocative and fetishized locus: the female breast. Artist, writer, and scholar Joanna Frueh scrutinizes ideals of beauty and sensuality, often motivated by her experiences with breast cancer. Frances Murray, her friend and collaborator for more than thirty years, documents Frueh's journey of unapologetic beauty in a series of intimate, dazzlingly original photographs before and after her bilateral mastectomy and chemotherapy. Reflecting with insight, directness, and humor—and with contributions from a breast surgeon, an oncologist, and artists and scholars who have had breast cancer—Frueh arrives at a new, liberating view of beauty and of the sensual pleasure found in transformative self-acceptance. Central to this reckoning is her documentation and critique of the notion of hyperbeauty (the flash of flesh appeal, hyperthin, hyperfeminine, hyperbosomy, hypersexy, and hyperyoung sold at the global 24/7 beauty bazaar) and her playful, inventive presentation of tools for remaking minds and hearts disfigured by self-denying ideals. In its bracing critique, passionate argument, and compelling narrative—all illustrative of its own unapologetic beauty—this collaboration is a performance of startling power, stirring to consider and a pleasure to behold.
