

Tafsir Al Ahlam Ibn Sirin

Elizabeth Sirriyeh

Dreaming in Christianity and Islam Kelly Bulkeley, Kate Adams, Patricia M. Davis, 2009 Throughout history to the present day, religion has ideologically fueled wars, conquests, and persecutions. Christianity and Islam, the world's largest and geopolitically powerful faiths, are often positioned as mortal enemies locked in an apocalyptic clash of civilizations. Rarely are similarities addressed. *Dreaming in Christianity and Islam*, the first book to explore dreaming in these religions through original essays, fills this void. The editors reach a plateau by focusing on how studying dreams reveals new aspects of social and political reality. International scholars document the impact of dreams on sacred texts, mystical experiences, therapeutic practices, and doctrinal controversies.

The Dream in Islam Iain R. Edgar, 2011-05-01 The war in the Middle East is marked by a lack of cultural knowledge on the part of the western forces, and this book deals with another, widely ignored element of Islam—the role of dreams in everyday life. The practice of using night dreams to make important life decisions can be traced to Middle Eastern dream traditions and practices that preceded the emergence of Islam. In this study, the author explores some key aspects of Islamic dream theory and interpretation as well as the role and significance of night dreams for contemporary Muslims. In his analysis of the Islamic debates surrounding the role of “true” dreams in historical and contemporary Islamic prophecy, the author specifically addresses the significance of Al-Qaeda and Taliban dream practices and ideology. Dreams of “heaven,” for example, are often instrumental in determining Jihadist suicidal action, and “heavenly” dreams are also evidenced within other contemporary human conflicts such as Israel-Palestine and Kosovo-Serbia. By exploring patterns of dreams within this context, a cross-cultural, psychological, and experiential understanding of the role and significance of such contemporary critical political and personal imagery can be achieved.

The Qur'an Oliver Leaman, 2006-05-02 A RUSA 2007 Outstanding Reference Title The Qur'an is the source of inspiration for one of the world's major religions, followed today by over a billion people. It plays a central role in Islam and ever since it appeared fourteen hundred years ago has been the subject of intense debate. Some of this has been carried out by Muslims and some by those hostile or indifferent to Islam, producing a very wide range of views. Authored by forty-three international experts, the objective of *The Qur'an: An Encyclopedia* is to present this diversity of thought, approach and school without priority, in order to give a strong appreciation of the range of response that the text has provoked throughout its history and

providing students and researchers with a powerful one-volume resource covering all aspects of the text and its reception. Islam and the Qur'an are much in the news today and there is a public debate going on in which things are said about the Qur'an without much knowledge or understanding of the book. Every effort has been made to help the reader use the Encyclopedia as an investigative tool in Quranic studies. The volume assumes no previous knowledge of the Qur'an, Islam or Arabic. Technical terms are explained in the text itself and the style of each entry is designed to be as self-contained as possible. Entries are cross-referenced and many include a brief bibliography. At the end of the work there is a substantial annotated bibliography providing a detailed guide to the most significant books, journals and articles in Qur'anic Studies. There is a full index. The readership will include those seeking basic information on the Qur'an, however the substantial number of longer entries means that it will also be used by specialists.

The Oxford Handbook of Mary Chris Maunder, 2019-08-07 *The Oxford Handbook of Mary* offers an interdisciplinary guide to Marian Studies, including chapters on textual, literary, and media analysis; theology; Church history; art history; studies on devotion in a variety of forms; cultural history; folk tradition; gender analysis; apparitions and apocalypticism. Featuring contributions from a distinguished group of international scholars, the Handbook looks at both Eastern and Western perspectives and attempts to correct imbalance in previous books on Mary towards the West. The volume also considers Mary in Islam and pilgrimages shared by Christian, Muslim, and Jewish adherents. While Mary can be a source of theological disagreement, this authoritative collection shows Mary's rich potential for inter-faith and inter-denominational dialogue and shared experience. It covers a diverse number of topics that show how Mary and Mariology are articulated within ecclesiastical contexts but also on their margins in popular devotion. Newly-commissioned essays describe some of the central ideas of Christian Marian thought, while also challenging popularly-held notions. This invaluable reference for

students and scholars illustrates the current state of play in Marian Studies as it is done across the world.

Africanism Nader Kadhem, 2023-09-15 Anti-blackness has until recently been a taboo topic within Arab society. This began to change when Nader Kadhem, a prominent Arab and Muslim thinker, published the first in-depth investigation of anti-black racism in the Arab world in 2004. This translation of the new and revised edition of Kadhem's influential text brings the conversation to the English-speaking world. Al-Istifraq or Africanism, a term that is analogous to Orientalism, refers to the discursive elements of perceiving, imagining, and representing black people as a subject of study in Arabic writings. Kadhem explores the narratives of Africanism in the Arab imaginary from the Middle Ages to the nineteenth century to show how racism toward black people is ingrained in the Arab world, offering a comprehensive account of the representations of blackness and black people in Arab cultural narratives – including the Quran, the hadith, and Arabic literature, geography, and history. The book examines the pejorative image of black people in Arab cultural discourse through three perspectives: the controversial anthropological concept that culture defines what it means to be human; the biblical narrative of Noah cursing his son Ham's descendants – understood to be darker-skinned – with servitude; and Greco-Roman physiognomy, philosophy, medicine, and geography. Describing the shifting standards of inclusion that have positioned Arab identity in opposition to blackness, Kadhem argues that in the cultural imaginary of the Arab world, black people are widely conflated with the Other. Analyzing canonical Arabic texts through the lens of English, French, and German theory, Africanism traces the history of racism in Arab culture.

Dreams and Visions in the World of Islam Elizabeth Sirriyeh, 2015-01-28 People in Western societies have long been interested in their dreams and what they mean. However, few non-Muslims in the West are likely to seek interpretation of those dreams to help them make life-changing decisions. In the Islamic world the situation is quite different. Dreaming and the import of visions are here of enormous significance, to the degree that many Muslims believe that in their dreams they are receiving divine guidance: for example, on whether or not to accept a marriage proposal, or a new job opportunity. In her authoritative new book, Elizabeth Sirriyeh offers the first concerted history of the rise of dream interpretation in Islamic culture, from medieval times to the present. Central to the book is the figure of the Prophet Muhammad - seen to represent for Muslims the perfect dreamer, visionary and interpreter of dreams. Less benignly, dreams have been exploited in the propaganda of Islamic militants in Afghanistan, and in apocalyptic visions relating to the 9/11 attacks. This timely volume gives an important, fascinating and overlooked subject the exploration it has long deserved.

Histories of the Hidden God April D DeConick, Grant Adamson, 2016-04-08 In Western religious traditions, God is conventionally conceived as a humanlike creator, lawgiver, and king, a being both accessible and actively present in history.

Yet there is a concurrent and strong tradition of a God who actively hides. The two traditions have led to a tension between a God who is simultaneously accessible to humanity and yet inaccessible, a God who is both immanent and transcendent, present and absent. Western Gnostic, esoteric, and mystical thinking capitalizes on the hidden and hiding God. He becomes the hallmark of the mystics, Gnostics, sages, and artists who attempt to make accessible to humans the God who is secreted away. 'Histories of the Hidden God' explores this tradition from antiquity to today. The essays focus on three essential themes: the concealment of the hidden God; the human quest for the hidden God, and revelations of the hidden God.

Martyrdom in Islam David Cook,2007-01-15 In recent times Islamic martyrdom has become associated with suicide missions conducted by extremists. However, as David Cook demonstrates, this type of martyrdom is very different from the classical definition which condemned suicide and stipulated that anyone who died a believer could be considered a martyr. Ideas about martyrdom have evolved to suit prevailing circumstances, and it is the evolution of these interpretations that Cook charts in this fascinating history. The book covers the earliest sources on martyrdom including those from the Jewish and Christian traditions, discussions about what constituted martyrdom, and differences in attitudes between Sunnis and Shi'ites. A concluding section discusses martyrdom in today's radical environment. There is no other book which considers the topic so systematically, and which draws so widely on the literary sources. This will be essential reading for students of Islamic history, and for those looking for an informed account of this controversial topic.

Ambiguities of Domination Lisa Wedeen, 2015-09-09 Treating rhetoric and symbols as central rather than peripheral to politics, Lisa Wedeen's groundbreaking book offers a compelling counterargument to those who insist that politics is primarily about material interests and the groups advocating for them. During the thirty-year rule of President Hafiz al-Asad's regime, his image was everywhere. In newspapers, on television, and during orchestrated spectacles. Asad was praised as the "father," the "gallant knight," even the country's "premier pharmacist." Yet most Syrians, including those who create the official rhetoric, did not believe its claims. Why would a regime spend scarce resources on a personality cult whose content is patently spurious? Wedeen shows how such flagrantly fictitious claims were able to produce a politics of public dissimulation in which citizens acted as if they revered the leader. By inundating daily life with tired symbolism, the regime exercised a subtle, yet effective form of power. The cult worked to enforce obedience, induce complicity, isolate Syrians from one another, and set guidelines for public speech and behavior. Wedeen's ethnographic research demonstrates how Syrians recognized the disciplinary aspects of the cult and sought to undermine them. In a new preface, Wedeen discusses the uprising against the Syrian regime that began in 2011 and questions the usefulness of the concept of legitimacy in trying to analyze and understand authoritarian regimes.

The Bin Laden Papers Nelly Lahoud, 2022-04-12 An inside look at al-Qaeda from 9/11 to the death of its founder—told through the words of Bin Laden and his closest circle As seen on 60 Minutes "A comprehensive, meticulously constructed and eye-opening look at bin Laden as husband, father and leader-in-hiding. . . . An engaging and persuasive read."—Karen J. Greenberg, Washington Post "Never less than gripping. . . . [Offers] an extraordinary insight into the inner workings of al-Qaeda, both before and after 9/11, and lays bare the terrorist organisation's closely guarded plans, ambitions and frustrations."—Saul David, Sunday Telegraph Usama Bin Laden's greatest fear was not capture or death but the exposure of al-Qaeda's secrets. At great risk to themselves and the entire mission, the U.S. Special Operations Forces, who carried out the Abbottabad raid that killed Bin Laden, took an additional eighteen minutes to collect Bin Laden's hard drives and thereby expose al-Qaeda's secrets. In this groundbreaking book, Nelly Lahoud dives into Bin Laden's files and meticulously distills the nearly 6,000 pages of Arabic private communications. For the first time, al-Qaeda's closely guarded secrets are laid bare,

shattering misconceptions and revealing how and what Bin Laden communicated with his associates, his plans for future attacks, and al-Qaeda's hostility toward countries such as Saudi Arabia, Iran, and Pakistan. Lahoud presents firsthand accounts of al-Qaeda from 9/11 until the elimination of Bin Laden, in his own words and those of his family and closest associates.

Power, Marginality, and the Body in Medieval Islam Fedwa Malti-Douglas, 2022-04-19 From rulers to uninvited guests, from women to thieves, from dreams to names, from blindness to torture - in a series of ground-breaking studies, *Power, Marginality, and the Body in Medieval Islam* explores the multi-layered and complex textual universe of medieval Islam. The power of the ruler sits alongside the power of the trickster, as games of detection and verbal erudition are displayed for the edification of the reader. Humour is not lacking either as male and female characters indulge in various forms of wit that redefine and recast the sacred. For much of this world, the body reigns supreme: not only in illness and miracle cures but in displays of transgression and torture. Covering the range of literature from sacred text to history, biography and anecdote, this book provides a stimulating analysis of the world of medieval Islamic mentalités.
