The Earth Chronicles Expeditions Zecharia Sitchin, 2007-05-29 Reveals the course of archaeological adventures and insights that resulted in The Earth Chronicles series • Explores links between the Old world and the New in search of evidence of extraterrestrial gods in the artifacts and murals of ancient civilizations • Reveals archaeological cover-ups concerning Olmec origins in Mexico and ancient UFO artifacts in Turkey In this autobiographical book, the internationally acclaimed author Zecharia Sitchin reveals the foundational research and the adventurous expeditions that resulted in his writing the bestselling The Earth Chronicles series. Ranging from Mayan temples in Mexico to hidden artifacts in Istanbul, Turkey, from biblical tunnels in Jerusalem to the mysteries of Mt. Sinai, from the abode of a Sumerian goddess to Greek islands, the Expeditions' destinations and amazing discoveries unmasked established fallacies, detected the fate of mysterious artifacts, and revealed ancient connections to modern space facilities. For the first time, Sitchin shares with the reader not only his encompassing knowledge of antiquity and his field experiences, but also the concrete evidence for his conclusions that ancient myths were recollections of factual events, that the gods of ancient peoples were visitors to Earth from another planet, and that we are not alone in our own solar system. Accompanied by photographs from his personal archive, here is Sitchin's own story and his inner feelings about the cord that binds him to his ancestral past.

When Time Began (Book V) Zecharia Sitchin, 1994-03-01 Night and day, month after month, year after year, our ancestors dutifully recorded the passage of time on clay tablets, watching the heavens from stage towers and pyramids and from megalithic monuments whose incredible size and precise architecture boggle the mind. . . . Who were the builders of these mysterious structures? What was their purpose? Whose signature is indelibly written on these timeless stones, and who was the Divine Architect? Why was Stonehenge and its likes built by ancient civilizations at the very same time--4,100 years ago? What is their message for our time? With these questions in mind, Zecharia Sitchin, renowned researcher of past ages, takes us on a journey through the records of time in this, the fifth book of his Earth Chronicles series. Drawing deeply on Sumerian and Egyptian writings, millenia-old artifacts, and sacred architecture ranging from ancient Mesopotamia to pre-Columbian civilizations in the Americas, this bestselling scholar provides astounding insights into the origins of the calendar, astronomy, and astrology. He takes readers to the climax circa 2100 b.c. when Marduk, the Babylonian national god, attained supremacy on Earth and proclaimed the New Age of Aries--after which society, religion, science, and the status of women were never the same.

The Lost Realms (Book IV) Zecharia Sitchin, 1990-09-01 The Earth Chronicles series is based on the premise that

mythology is not fanciful but the repository of ancient memories; that the Bible ought to be read literally as a historic/scientific document; and that ancient civilizations--older and greater than assumed--were the product of knowledge brought to Earth by the Anunnaki, Those Who from Heaven to Earth Came. The 12th Planet, the first book of the series, presents ancient evidence for the existence of an additional planet in the Solar System: the home planet of the Anunnaki. In confirmation of this evidence, recent data from unmanned spacecraft has led astronomers to actively search for what is being called Planet X. The subsequent volume, The Stairway to Heaven, traces man's unending search for immortality to a spaceport in the Sinai Peninsula and to the Giza pyramids, which had served as landing beacons for it--refuting the notion that these pyramids were built by human pharaohs. Recently, records by an eye witness to a forgery of an inscription by the pharaoh Khufu inside the Great Pyramid corroborated the book's conclusions. The Wars of Gods and Men, recounting events closer to our times, concludes that the Sinai spaceport was destroyed 4,000 years ago with nuclear weapons. Photographs of Earth from space clearly show evidence of such an explosion. Such gratifying corroboration of audacious conclusions has been even swifter for The Lost Realms. In the relatively short interval between the completion of the manuscript and its publication, archaeologists, linguists, and other scientists have offered a coastal theory in lieu of the frozen trekking one to account for man's arrival in the Americas--in ships, as this volume has concluded. These experts have suddenly discovered 2,000 years of missing civilization in the words of a Yale University scholar--confirming this book's conclusion--and are now linking the beginnings of such civilizations to those of the Old World, as Sumerian texts and biblical verses. For the first time, the entire Earth Chronicles series is now available in a hardcover collector's edition.

The 12th Planet (Book I) Zecharia Sitchin, 1991-05-01 Over the years, startling evidence has been unearthed, challenging established notions of the origins of Earth and life on it and suggesting the existence of a superior race of beings who once inhabited our world. The product of thirty years of intensive research, The 12th Planet is the first book in Zecharia Sitchin's prophetic Earth Chronicles series--a revolutionary body of work that offers indisputable documentary proof of humanity's extraterrestrial forefathers. Travelers from the stars, they arrived eons ago, and planted the genetic seed that would ultimately blossom into a remarkable species...called Man. The 12th Planet brings to life the Sumerian civilization, presenting millennia-old evidence of the existence of Nibiru, the home planet of the Anunnaki and of the landings of the Anunnaki on Earth every 3,600 years, and reveals a complete history of the solar system as told by these early visitors from another planet. Zecharia Sitchin's Earth Chronicles series, with millions of copies sold worldwide, deal with the history and prehistory of Earth and humankind. Each book in the series is based upon information written on clay tablets by the ancient civilizations of the Near East. The series is offered here, for the first time, in highly readable, hardbound collector's editions with enhanced maps and diagrams.

The Anunnaki Chronicles Zecharia Sitchin, 2015-09-17 An insider's look into the decades of research behind Zecharia

Sitchin's books as well as an in-depth overview of his theories and discoveries • Includes carefully selected chapters from the Earth Chronicles series as well as never-before-published letters, articles, and lectures • Each piece includes an introduction, offering context and insight into Sitchin's passionate work and revealing the man behind the theories • Explains the genesis of The 12th Planet, the Anunnaki influences on the Sumerian civilization, the orbit of Nibiru, the prehistory of the Americas, the extraterrestrial origins of modern man, and much more What if the tales from the Old Testament and other ancient writings, such as those from Sumer, Babylon, Egypt, and Greece, were not myths or allegory but accounts of actual historical events? Known for his ability to read and interpret ancient Sumerian and Akkadian clay tablets, Zecharia Sitchin (1920-2010) took the words of our most ancient ancestors as fact and, through decades of meticulous research, showed that they revealed a coherent narrative about the true origins of humanity and civilization. Drawing both widespread interest and criticism, his Earth Chronicles series of books, beginning with The 12th Planet, detailed how humanity arose after the arrival of the Anunnaki ("those who from Heaven to Earth came"), alien "gods" who created modern man in their own image and imparted gifts of civilizing knowledge. Providing an insider's look into the decades of research behind Zecharia Sitchin's complete works as well as an in-depth overview of his theories, this collection includes carefully selected chapters from the Earth Chronicles series as well as never-before-published letters, articles, and lectures. We learn about the genesis of The 12th Planet in "The Book as a Story," the Sumerians and their Anunnaki influences in "The Sudden Civilization," the orbit of Nibiru in "UFOs, Pyramids, and the 12th Planet," the prehistory of the Americas in "Cities Lost and Found," the extraterrestrial origins of modern man in "The Cosmic Connection--DNA," and much more. We get to read never-before-published lectures, culled from Sitchin's decades of presentations, as well as the article that spurred the writing of There Were Giants Upon the Earth. Each piece includes an introduction by Sitchin's niece, offering context and insight into Sitchin's passionate work. These introductions reveal the man behind the theories, a world traveler known for his scholarship, dry humor, and precisely chosen words. If his theories are true, as Sitchin wholeheartedly believed, then this collection presents some of the most important knowledge we have of our origins and future.

The End of Days Zecharia Sitchin, 2007-04-03 Why is it that our current twenty-first century a.d. is so similar to the twenty-first century B.C.? At a time when religious fanaticism and a clash of civilizations raise the specter of a nuclear Armageddon, many ask: Is history destined to repeat itself? What does the future hold? Will biblical prophecies come true, and if so, when? Ever since Zecharia Sitchin, in his first trailblazing book The 12th Planet, brought to life the Sumerian civilization and its record of the Annunaki—the extraterrestrials who had come to Earth from their planet Nibiru, fashioned mankind, and gave us civilization and religion—questions have abounded. Are the ancient gods still here, or did they leave? Will they return? What will happen then? Will there be another Deluge or Apocalypse when Nibiru meets Earth? What about "Planet X" and the Mayan 2012? What about Jesus? In The End of Days, a masterwork that required thirty years of additional

research, Sitchin dares to give the answers by presenting compelling new evidence that the Past is the Future—that mankind and its planet Earth are subject to a predetermined cyclical Celestial Time. Tracing historical events from the messianic fervor and use of nuclear weapons in the twenty-first century B.C., Sitchin resolves ancient enigmas like the Nazca Lines or the origin and significance of the Cross, the Fishes, and the Chalice, places in context the events of the Last Supper and hidden clues like those in Da Vinci's painting, explains the space-related reasons for the everlasting centrality of Jerusalem, and—following in the footsteps of Sir Isaac Newton—deciphers the Time Code in the books of Daniel and Revelation and of the Day of the Lord and the End of Days prophecies. In this remarkable and relevant conclusion to his bestselling The Earth Chronicles series, Sitchin shatters perceptions and uses history to reveal what is to come at The End of Days.

Twelfth Plan Zecharia Sitchin, 2007-03-27 Over the years, startling evidence has been uncovered, challenging established notions of the origins of life on Earth—evidence that suggests the existence of an advanced group of extraterrestrials who once inhabited our world. The first book of the revolutionary Earth Chronicles series offers indisputable documentary evidence of the existence of the mysterious planet Nibiru and tells why its astronauts came to Earth eons ago to fashion mankind in their image. The product of more than thirty years of meticulous research, The 12th Planet treats as fact, not myth, the tales of Creation, the Deluge, the Tower of Babel, and the Nefilim who married the daughters of man. By weaving together the biblical narrative with Sumerian and Babylonian clay-tablet texts, it challenges the established notions of the origins of Earth and mankind, and offers a compelling alternative history and prehistory of both.

The Twin Earth Chronicles Andrew Pessin, Sanford Goldberg, 1996-06-20 In 1975, Putnam published a paper called The Meaning of 'Meaning', which challenged the orthodox view in the philosophies of language and mind. The article's Twin Earth conclusions about meaning, thought and knowledge were shocking. This work contains writings on the subject of Twin Earth.

The 12th Planet Zecharia Sitchin, 1978 Over the years, startling evidence has been unearthed, challenging established notions of the origins of Earth and life on it, and suggests the existence of a superior race of beings who once inhabited our world. The product of thirty years of intensive research, The 12th Planet is the first book in Zecharia Sitchin's prophetic Earth Chronicles series -- a revolutionary body of work that offers indisputable documentary proof of humanity's extraterrestrial forefathers. Travellers from the stars, they arrived eons ago, and planted the genetic seed that would ultimately blossom into a remarkable species...called Man.

The Wars of Gods and Men (Book III) Zecharia Sitchin, 1992-06-01 The Earth Chronicles series, in six volumes, deals with the history and prehistory of Earth and humankind. Each book in the series, based upon information written on clay tablets by the ancient civilizations of the Near East, records the fantastic and real battles that occurred between the original creator gods over control of planet Earth. Asserting the premise that mythology is not fanciful but the repository of ancient

memories, The Earth Chronicles series suggests that the Bible ought to be read literally as a historic/scientific document, and that ancient civilizations--older and greater than assumed--were the product of knowledge brought to Earth by the Anunnaki, Those Who from Heaven to Earth Came. The 12th Planet, the first book of the series, presents ancient evidence for the existence of an additional planet in the Solar System: the home planet of the Anunnaki. In confirmation of this evidence, recent data from unmanned spacecraft has led astronomers to actively search for what is being called Planet X. The subsequent volume, The Stairway to Heaven, traces man's unending search for immortality to a spaceport in the Sinai Peninsula and to the Giza pyramids, which had served as landing beacons for it--refuting the notion that these pyramids were built by human pharaohs. Recently, records by an eye-witness to a forgery of an inscription by the pharaoh Khufu inside the Great Pyramid corroborated the book's conclusions. In The Wars of Gods and Men, the third volume of his series, Zacharia Sitchin recounts events closer to our times, concluding that the Sinai spaceport was destroyed 4,000 years ago with nuclear weapons. Photographs of Earth from space clearly show evidence of such an explosion. The Wars of Gods and Men additionally embraces Canaanite, Hittite, and Hindu sources to include in these investigations the incidents of The Great Flood, the Tower of Babel, and the upheaval of Sodom and Gomorrah. Sitchin's unique reexamination of ancient mysteries explains these past cataclysmic events in the history of humanity, opening insights into our future.

Everything That Stands: The Late-Earth Chronicles Trilogy Isaac Israel, 2009-07-23 The first three Chronicles in the Late-Earth Chronicles series: THE STORM, VALLEY OF THE SHADOW and MACHINES OF LOVING GRACE, now newly revised and together in one volume! wars of Zecharia Sitchin, 2007-03-27 Thousands of years ago, the Earth was a battlefield. These were the wars that would shape man's destiny—terrible conflicts that began lifetimes earlier on another planet. Parting the mists of time and myth, the internationally renowned scholar Zecharia Sitchin takes us back in this volume to the violent beginnings of the human story, when gods—not men—ruled the Earth. In a spellbinding reconstruction of epic events preserved in legends and ancient writings, he traces the conflicts that began on another world, continued on Earth, and culminated in the use of nuclear weapons—an event recorded in the Bible as the upheaval of Sodom and Gomorrah.

The Cosmic Code (Book VI) Zecharia Sitchin, 2002-03-01 Reveals Zecharia Sitchin's groundbreaking research into the code left behind by the creators of humanity. • Explains how the Anunnaki were not merely the mythical gods of the Sumerians, but rather the founders of human life on Earth. • Using Biblical and ancient Sumerian sources, explains how to decode these messages our star ancestors left behind. Daring to challenge our long-held beliefs about the origins of man, Zecharia Sitchin suggests that humans are not the children of God, but rather the children of the Anunnaki, an ancient race from the planet Nibiru. His revolutionary theories are supported by his intense scrutiny of not only ancient Sumerian texts but also stone structures all over the world. The similarities and astrological significance of these formations suggests that rather than looking for guidance from leaders here on Earth, humanity should instead look to the sky for answers. The Earth Chronicles deal with the history and prehistory of Earth and humankind. Each book in the series is based upon information written on clay tablets by the ancient civilizations of the Near East. For the first time, the entire Earth Chronicles series is now available in a hardcover collector's edition.

Forbidden Theology Miles Augustus Navarr, 2012-08-09 Over 75% of the people who live on this planet are followers of one of the three major monotheistic religions. They all consider Abraham as the father of their race and religion. They all believe in one singular, all powerful, all knowing benevolent god. The Hebrew call him Yahweh, the Christians refer to him as Father or Lord and Muslims call him Allah, and yet millions and millions of people have been murdered, maimed and tortured

by the followers of this single entity to prove that their version of this single god is better than the other two versions. Sounds ridiculous, and yet sadly enough, more people have died in the name of religion than any other cause in the history of humanity. Each and every one of us at one time or another has asked or thought about such fundamental questions as, Is there a God? Where did humans come from? Why out of millions of species on earth, only humans reached this level of sophistication? Is there a life after death? Is there a purpose to life? Why are we here? Are the scriptures truly the words of god? More importantly, is there any way we could find answers to such questions? The fact is, the answer to most of these questions, and many more, that we thought unanswerable, have been written down on clay tablets by our ancient ancestors who lived in Mesopotamia over 7000 years ago. These records are readily available to those who are willing to step outside the dogmatic belief system of the establishment, and are prepared, mentally and spiritually, to tolerate a totally different rendering of the oldest written historical records about mankind's origin, purpose and the truth about god, our maker. The subject matter of this book is an attempt to investigate the circumstances under which Mankind was made, and to trace the beginning and development of such concerns as the emergence of the concept of god and the formation of what later became known as religion. This is done primarily by relying on our scriptural texts, particularly the Old Testament, as well as other ancient manuscripts such as Sumerian, Akkadian and Babylonian Creation and Genesis epics. The first chapter begins by examining the behaviour, commands and instructions given by Yahweh to his chosen people. These commands and instructions are then evaluated and compared with basic accepted human rights standards practised and observed by almost all communities and societies, past and present. The question is then asked, How could an entity, powerful enough to have created the entire universe, issue such cruel and sadistic commands against some of his own creations? Furthermore, Yahweh's behaviour is decidedly pro Hebrew, and shows no regards or thought about non Hebrew masses. How could the universal god show such bias towards a tiny fraction of his creatures, with total disregard for the rest? Finally the characteristics and personalities of Yahweh is analysed by scrutinising his behaviour, actions and directives as stated in the Old Testament, before examining the god of Christianity. In investigating the role and characteristics of God in Christianity, the first thing that immediately becomes apparent is the absence of a prominent role for God the Father, as we had witnessed in Judaism. The Christians, or more specifically Saint Paul, who was the founder and designer of Christianity as we know it today, in order to distance his creation from the Hebrews and religion of Yahweh, invented a new Godhead and named him Jesus Christ (Ancient Greek: Isous). Born of a virgin, with powers to heal the sick, give sight to the blind and even raise the dead, who was crucified but resurrected three days later. These were all characteristics borrowed from various religions and cults prevalent at the time in the Levant, from Mithraism to the cult of Apoll
