America Aflame David Goldfield, 2011-03-15 In this spellbinding new history, David Goldfield offers the first major new interpretation of the Civil War era since James M. McPherson's *Battle Cry of Freedom*. Where past scholars have limned the war as a triumph of freedom, Goldfield sees it as America's greatest failure: the result of a breakdown caused by the infusion of evangelical religion into the public sphere. As the Second Great Awakening surged through America, political questions became matters of good and evil to be fought to the death. The price of that failure was horrific, but the carnage accomplished what statesmen could not: It made the United States one nation and eliminated slavery as a divisive force in the Union. The victorious North became synonymous with America as a land of innovation and industrialization, whose teeming cities offered squalor and opportunity in equal measure. Religion was supplanted by science and a gospel of progress, and the South was left behind. Goldfield's panoramic narrative, sweeping from the 1840s to the end of Reconstruction, is studded with memorable details and luminaries such as Harriet Beecher Stowe, Frederick Douglass, and Walt Whitman. There are lesser known yet equally compelling characters, too, including Carl Schurz—a German immigrant, war hero, and postwar reformer—and Alexander Stephens, the urbane and intellectual vice president of the Confederacy. *America Aflame* is a vivid portrait of the fiery trial that transformed the country we live in.

War is All Hell Randall J. Bedwell, 2004 *War Is All Hell* is a no-holds-barred look at the American Civil War through the words of the people who endured it. Filled with more than 470 quotations from persons directly involved in the war and arranged with dozens of illustrations to convey the character of the war to present-day readers, it captures the thoughts and emotions of the times in a way that no ordinary history can do. Here in their own words are the thoughts, emotions, and curses of a nation at war with itself. Drawing on the well-known leaders such as Lincoln, Grant, Sherman, Davis, and Longstreet, it also contains a rich sampling of the common soldiers' observations and insights of the war. Each chapter begins with a brief introduction, highlighting significant events and describing the progress of the war. Both the eastern and western theaters are covered, with particular attention being paid to the great battlefield confrontations. The result is a surprisingly thorough coverage of the war's events and those who wore the blue and the gray.

"A House Divided..." Edward L. Ayers, Kate Cohen, 1997-10-09 Contains quotes from both sides of the Civil War on a

variety of topics, including secession and the Confederacy, Jefferson Davis, a soldier's life, food and drink, and Reconstruction.

What Caused the Civil War? Edward L. Ayers, 2016-11-08 “An extremely good writer, [Ayers] is well worth reading . . . on the South and Southern history.”—Stephen Sears, Boston Globe The Southern past has proven to be fertile ground for great works of history. Peculiarities of tragic proportions—a system of slavery flourishing in a land of freedom, secession and Civil War tearing at a federal Union, deep poverty persisting in a nation of fast-paced development—have fed the imaginations of some of our most accomplished historians. Foremost in their ranks today is Edward L. Ayers, author of the award-winning and ongoing study of the Civil War in the heart of America, the Valley of the Shadow Project. In wide-ranging essays on the Civil War, the New South, and the twentieth-century South, Ayers turns over the rich soil of Southern life to explore the sources of the nation's and his own history. The title essay, original here, distills his vast research and offers a fresh perspective on the nation's central historical event.

Greene describes Custer attack on the Cheyenne at the Washita River-its causes, conduct, and consequences--even as he addresses the multiple controversies surrounding the conflict.

America in Quotations Howard J. Langer, 2002-02-28 This is history from the inside out. What did Americans say about the great events in their own lifetimes? This book is a grassroots look at the country, as real people tell the story of America in their own voices. Quotations from more than 350 individuals are taken from speeches, interviews, editorials, letters, jokes, songs, and eyewitness accounts represent American thought from the ground up. This compendium includes the words of everyone from politicians and generals, to Native Americans, ethnic minorities, women, labor representatives, and slaves.

The book is divided into 18 traditional historical periods from the pre-Columbus explorers to the terrorist attacks of September 11, 2001. We hear the voices of Jefferson, Lincoln, Teddy and FDR, but also of Joe McCarthy, Huey Long, and Susan B. Anthony. We hear American law in action through watersheds like *Brown v. the Board of Education*, the Scopes case, the prosecution of Sacco and Vanzetti, and the Salem witch trials. Then there are the grace notes, the forgotten but significant stories—a black woman beaten and humiliated for encouraging others to vote; the G.I. who overthrew a German bunker at Normandy; the last letter of a Union soldier soon to die in battle. Their words are woven into American history, remembered and illuminated in this kaleidoscopic collection.

American Visions: The United States, 1800-1860 Edward L. Ayers, 2023-10-24 “An inspiring book.... American Visions beautifully shows how remarkably resilient dreams of a better republic remained even in the darkest of times.” —Christoph Irmscher, Wall Street Journal A revealing history of the formative period when voices of dissent and innovation defied power and created visions of America still resonant today. With so many of our histories falling into dour critique or blatant celebration, here is a welcome departure: a book that offers hope as well as honesty about the American past. The early decades of the nineteenth century saw the expansion of slavery, Native dispossession, and wars with Canada and Mexico. Mass immigration and powerful religious movements sent tremors through American society. But even as the powerful defended the status quo, others defied it: voices from the margins moved the center; eccentric visions altered the accepted wisdom, and acts of empathy questioned self-interest. Edward L. Ayers’s rich history examines the visions that moved Frederick Douglass, Margaret Fuller, the Native American activist William Apess, and others to challenge entrenched practices and beliefs. So, Lydia Maria Child condemned the racism of her fellow northerners at great personal cost. Melville and Thoreau, Joseph Smith and Samuel Morse all charted new paths for America in the realms of art, nature, belief, and technology. It was Henry David Thoreau who, speaking of John Brown, challenged a hostile crowd Is it not possible that an individual may be right and a government wrong? Through decades of award-winning scholarship on the Civil War, Edward L. Ayers has himself ventured beyond the interpretative status quo to recover the range of possibilities embedded in the past as it was lived. Here he turns that distinctive historical sensibility to a period when bold visionaries and critics built vigorous traditions of dissent and innovation into the foundation of the nation. Those traditions remain alive for us today.

Jewish Soldiers in the Civil War Adam D. Mendelsohn, 2022-11-15 Offers an engaging account of the experiences of Jewish soldiers in the Union Army during the Civil War What was it like to be a Jew in Lincoln’s armies? The Union army was as diverse as the embattled nation it sought to preserve, a unique mixture of ethnicities, religions, and identities. Almost one Union soldier in four was born abroad, and natives and newcomers fought side-by-side, sometimes uneasily. Yet though scholars have parsed the trials and triumphs of Irish, Germans, African Americans, and others in the Union ranks, they have remained largely silent on the everyday experiences of the largest non-Christian minority to have served. In ways visible and

invisible to their fellow recruits and conscripts, the experience of Jews was distinct from that of other soldiers who served in Lincoln's armies. Adam D. Mendelsohn draws for the first time upon the vast database of verified listings of Jewish soldiers serving in the Civil War collected by The Shapell Roster, as well as letters, diaries, and newspapers, to examine the collective experience of Jewish soldiers and to recover their voices and stories. The volume examines when and why they decided to enlist, explores their encounters with fellow soldiers, and describes their efforts to create community within the ranks. This monumental undertaking rewrites much of what we think we know about Jewish soldiers during the Civil War.

Lee In the Shadow of Washington Richard B. McCaslin, 2001-10-01 ?

The Geopolitics of American Insecurity Francois Debrix, Mark Lacy, 2009-01-13 This edited volume examines the political, social, and cultural insecurities that the United States is faced with in the aftermath of its post-9/11 foreign policy and military ventures. The contributors critically detail the new strategies and ideologies of control, governance, and hegemony America has devised as a response to these new security threats. The essays explore three primary areas. First, they interrogate the responses to 9/11 that resulted in an attempt at geopolitical mastery by the United States. Second, they examine how the US response to 9/11 led to attempts to secure and control populations inside and outside the United States,

resulting in situations that quickly started to escape its control, such as Abu Ghraib and Katrina. Lastly, the chapters investigate links between contemporary regimes of state control and recently recognized threats, arguing that the conduct of everyday life is increasingly conditioned by state-mobilized discourses of security. These discourses are, it is argued, ushering in a geopolitical future characterized by new insecurities and inevitable measures of biopolitical control and governance.
