Manual práctico de patología del lenguaje Isabel Leiva Madueño,Julia Vázquez De Sebastián,2018-01-27 El lenguaje es un aspecto esencial para el desarrollo humano. Este libro es un manual de utilidad clínica tanto para la actualización de aquellos profesionales que se dedican a la patología del lenguaje en población adulta o infantil, como para aquellos que desean iniciarse. Abarca desde la introducción a la psicolingüística, que aporta las bases para el análisis y conocimiento del desarrollo natural del lenguaje, hasta el estudio de las causas, sintomatología y clasificación de los distintos síndromes afásicos. La lectura proporcionará al lector herramientas para un adecuado planteamiento de la evaluación del paciente —tanto de las dimensiones del lenguaje como de otros aspectos cognitivos, emocionales y conductuales relacionados— y los conocimientos necesarios para diseñar un programa de intervención basado en la evidencia científica actual.

Manual de la afasia y de terapia de la afasia Nancy Helm-Estabrooks,Martin L. Albert,2005 Se ofrece a especialistas e investigadores un instrumento para comprender los trastornos del lenguaje en personas con lesiones cerebrales, con el propósito de mejorar su comunicación y su calidad de vida.

Introducción a la evaluación clínica neuropsicológica del adulto Salazar Montes, Ana María,Canal, José Santiago,Amarillo, Johana,Cabrera, Edna,Cardoza, Jenifer,Guzmán, Jenny,2020-07-07 El estudio de los procesos cognoscitivos se ha convertido en un reto de profundización, dada su injerencia en ámbitos clínico-patológicos de la enfermedad mental y el daño cerebral. Muchos textos académicos han descrito los procesos de evaluación neuropsicológica; sin embargo, pocos están dirigidos a la formación básica del quehacer del neuropsicólogo. La presente publicación apunta en esa dirección. Cada capítulo aborda una función específica: el proceso de evaluación neuropsicológica, la entrevista clínica y el estudio de funciones cognoscitivas como la memoria, el lenguaje, la percepción, la atención, las funciones ejecutivas, su

alteración y evaluación. Se trata de una obra dirigida de forma específica a estudiantes y profesionales que quieran profundizar en el campo de la neuropsicología clínica del adulto, y de manera más general, de una herramienta de apoyo y consulta para profesionales del área de la salud, psicólogos y neuropsicólogos.

Tratado de medicina paliativa y tratamiento de soporte del paciente con cáncer Manuel González Barón,2007 El espíritu integrador de una medicina en permanente evolución es el eje central de esta nueva edición del Tratado de Medicina Paliativa. En este sentido, se han contemplado los distintos e importantes cambios en el enfoque terapéutico del enfermo así como los enfoques diagnósticos y patogénicos de la Oncología, pero sin olvidar el objetivo central y aglutinante de la obra: el control de síntomas y la calidad de vida del paciente. El resultado de todos estos cambios se plasma en la colaboración de un extenso y diverso grupo de especialidades cuyos miembros han contribuido a trascender el ámbito individual. Prueba de ello es la creación de organizaciones colectivas, como la European Society of Medical Oncology (ESMO), cuyo objetivo es integrar la Medicina Paliativa y de Soporte con la Oncología Médica, que han abocado en una concepción más integral de atención, entendida ésta en un ámbito biológico, psicológico y social. Este también es el origen y naturaleza de la Sección de Cuidados Continuos de la SEOM.

Terapia Ocupacional aplicada al Daño Cerebral Adquirido Begoña Polonio López,2010-09-03 La atención al daño cerebral adquirido puede tomar la forma de rehabilitación, de medidas orientadas al incremento en la participación social, de

estrategias para el cuidado de personas dependientes y de programas de educación para familiares, entre otras. Nuestros sistemas de ayuda a las personas con enfermedades distinguen entre la atención sanitaria y el apoyo social. El desarrollo y la universalización de este último ha recibido un importante impulso con la Ley de promoción de la autonomía personal y atención a las personas en situación de dependencia. Ambos sistemas de ayuda, el sanitario y el social, están pendientes en realidad de definir su cartera de servicios para las personas con daño cerebral.
