Creating Texts Walter Nash, David Stacey, 2014-09-25 Creating Texts emphasises a practical approach to composition and enables students to understand what is involved in the creation of a text and to learn from the practice of other writers. Extensively rewritten and updated from Walter Nash's earlier volume, Designs in Prose, attention is paid to the general theory of composition, in both traditional and original terms, so that students are made familiar with the basic resources of composition, in grammar and in the lexicon. The essence of every chapter is the discussion of examples of text, sometimes devised by the authors, but more often drawn from the work of authors writing in diverse styles of English. This practical approach is most evident in the final section of the book where detailed suggestions for projects and exercises reinforce the connection between theory and practice, and encourage students to develop their creative sense and to adapt their style of

writing to fit the particular audience and context. In addition, this section is cross-referenced to the main text to allow students to consult easily the relevant chapter.

A Dictionary of Selected Synonyms in the Principal Indo-European Languages Carl Darling Buck,2008-07-03 Originally published in 1949 and appearing now for the first time in a paperbound edition, Buck's Dictionary remains an indispensable tool for diachronic analysis of the Indo-European languages. Arranged according to the meaning of words, the work contains more than 1,000 groupings of synonyms from the principal Indo-European languages. Buck first tabulates the

words describing a particular concept and then discusses their etymological and semantic history, tracing changes in meaning of the root words as well as presenting cases indicating which of the older forms have been replaced by expressions of colloquial or foreign origin.

Reise Know-How Kauderwelsch German - word by word (Deutsch als Fremdsprache, englische Ausgabe): Kauderwelsch-Sprachführer Band 46 Bob Ordish, 2015-10-05 Germany isn't all fairy-tale castles, beer halls and boat trips along the Rhine. Without at least some knowledge of the language, and therefore the ability to raise yourself above the immediate tourist circuit, the essence of the country will pass you by. Even in Germany, a great many people don't speak enough English to hold a proper conversation and even if your own German is limited, you'll get people on your side by at least making the effort. You'd be amazed how much goodwill a basic knowledge of German is worth. Kauderwelsch language guides focus on the really important things you need to know about a language, somewhere between your standard travel phrase book and a self-study book. ----- Kauderwelsch Sprachführer bieten einen schnellen Einstieg in fremde Sprachen und vermitteln Wissenswertes über Land und Leute. Alle fremdsprachigen Sätze im Buch werden zusätzlich zur sinngemäßen Übersetzung ins Deutsche auch einmal Wort für Wort übersetzt. Dadurch wird das Verständnis für die fremde Sprache erleichtert, und einzelne Wörter lassen sich schnell austauschen. Die Grammatik wird kurz und verständlich erklärt, soweit es für einen einfachen Sprachgebrauch nötig ist. Das Wörterbuch am Ende hält einen Grundwortschatz und wichtige Begriffe für Reisende bereit. Kauderwelsch-Bücher sind viel mehr als übliche Reisesprachführer. Ziel ist es, schon nach kurzer Zeit tatsächlich sprechen zu können, wenn auch nicht immer druckreif. Kauderwelsch Sprachführer von Reise Know-How: handlich, alltagstauglich, für über 150 Sprachen.

Shari'a and Custom in Libyan Tribal Society Aharon Layish, 2005-01-01 This volume presents annotated English translations of 72 court decisions handed down by the Shari'a Courts of Adjabiya and Kufra roughly during the period 1930-1970; the original texts (facsimiles and edited documents) appeared in A. Layish, Legal Documents on Libyan Tribal Society in Process of Sedentarization (Wiesbaden, 1998). The documents address personal status, succession, homicide and bodily injury, property, obligation, and attest to the interaction between the shari'a representing normative Islam, and tribal customary law, representing social reality in Cyrenaica during the aforementioned period. They also exemplify the qadi's role of bringing a Bedouin society within the orbit of normative Islam. A. Borg's essay Orality, Languages, and Culture in Arabic Juridical Discourse addresses cultural aspects of orality on the language of these documents. The study is intended for Orientalists, Islamologists, legal and social historians, social scientists, and lawyers interested in Islamic and comparative law.
