

Far Beyond The Sun Guitar Tab

Julia Schneider

Shred! Rich Maloof, Pete Prown, 2006 With lessons covering more than a dozen sure-fire techniques, this book/CD combo is designed to light a fire under any player's fingers. Shredding is difficult, but Shred! breaks it down by demystifying guitar solos that sound intimidating on record. The book is about technique first, with a fearsome roster of shred's biggest stars revealing their tricks. Each chapter tackles one killer technique in depth. Guitarists are walked through these skill sets with a hands-on approach, and are shown connections to the monster players who employ the technique. With this book, guitarists can switch gears from careful chord progressions by unleashing their inner shredder, ready to blister the paint right off the walls and annihilate any nonbelievers.

One-Hit Wonders Sarah Hill, 2022-02-24 The one-hit wonder has a long and storied history in popular music, exhorting listeners to dance, to teach the world to sing in perfect harmony, to ponder mortality, to get a job, to bask in the sunshine, or just to get up and dance again. Catchy, memorable, irritating, or simply ubiquitous, one-hit wonders capture something of the mood of a time. This collection provides a series of short, sharp chapters focusing on one-hit wonders from the 1950s to the present day, with a view toward understanding both the mechanics of success and the socio-musical contexts within which such songs became hits. Some artists included here might have aspired to success but only managed one hit, while others

enjoyed lengthy, if unremarkable, careers after their initial chart success. Put together, these chapters provide not only a capsule history of popular music tastes, but also ruminations on the changing nature of the music industry and the mechanics of fame.
