The Next-door House Mrs. Molesworth, 1892

The House Next Door Anne Rivers Siddons, 2007-05 The house next door to the Kennedy's is haunted by an all pervasive evil-an evil that takes away whatever the occupants hold dearest. They are about to become witnesses to an overwhelming force that will strip away the veneer of civilization that protects them.

The House Next Door Darcy Coates, 2017-03-15 Josephine began to suspect something was wrong with the crumbling gothic monstrosity next door when its family fled in the middle of the night, the children screaming, the mother crying. They never came back. No family stays at Marwick House for long. No life lingers beyond its blackened windows. No voices drift from its ancient halls. Once, Josephine swore she saw a woman's silhouette pacing through the upstairs room... but that's impossible. No one had been there in a long, long time. But now someone new has moved next door, and Marwick House is slowly waking up. Torn between staying away and warning the new tenant, Josephine only knows that if she isn't careful, she may be its next victim...

The Black Professional Middle Class Eric S. Brown,2013-11-07 Through an in-depth case study of the black professional middle class in Oakland, this book provides an analysis of the experiences of black professionals in the workplace, community, and local politics. Brown shows how overlapping dynamics of class formation and racial formation have produced historically powerful processes of what he terms racialized class formation, resulting in a distinct (and internally differentiated) entity, not merely a subset of a larger professional middle class.

Designing Zero Carbon Buildings Using Dynamic Simulation Methods Ljubomir Jankovic,2017-06-23 In addition to the application of fundamental principles that lead to a structured method for zero carbon design of buildings, this considerably expanded second edition includes new advanced topics on multi-objective optimisation; reverse modelling; reduction of the simulation performance gap; predictive control; nature-inspired emergent simulation leading to sketches that become 'alive'; and an alternative economics for achieving the sustainability paradigm. The book features student design work from a Master's programme run by the author, and their design speculation for a human settlement on Mars. Tasks for simple simulation experiments are available for the majority of topics, providing the material for classroom exercise and giving the reader an easy introduction into the field. Extended new case studies of zero carbon buildings are featured in the book, including schemes from Japan, China, Germany, Denmark and the UK, and provide the reader with an enhanced design toolbox to stimulate their own design thinking.

Under One Roof Emily K Graham,Angel Vargas,John Graham,2024-02-05 Explore the enormous opportunities and benefits of multigenerational living in this essential guide to the modern American family. This inventive guide to

multigenerational living arrives at a crucial time, as families cope with the stresses of a changing society and the tidal wave of baby boomer retirement. This book about the American family of today offers solutions, guidance, and assistance from three authors who bring their different experiences and expertise to this presentation of the challenges, realities, and benefits of multigenerational living. Under One Roof explores the current state of the American family, including fast-rising life expectancies, the growing costs of elder care, the increasing need for childcare, the frustrating lack of affordable housing, and the new familial disconnectedness. In response, this timely book also examines • designing communities and homes to accommodate a fast-graying America, • the positives of elders providing childcare, • handling relationships with aging parents, • privacy, space, and communication issues within multigenerational living situations, • the evolution of the American healthcare system, hiring home caregivers, increasing the ability to comfort in hospice, and • dealing with the death of a loved one. Under One Roof will bring you inspiration and exciting opportunities for invention as you and your modern American family tackle the challenges of the twenty-first century.

Vietnam: Socialist Republic Stephen Platt, 2018 went to Vietnam at very short notice to do a job for the World Bank about housing reconstruction after Typhoon Damrey in November 2017. Others on the team were reporting on transport, irrigation, agriculture, fisheries and economic development. Unfortunately I pulled a calf muscle at dawn on day one running along Nha Trang beach, as shown in the photo, so I didn't see as much of Vietnam as I would have liked. Nevertheless I did go north up the coast and inland to the highlands to see the effect of storm and progress in recovery. I loved Vietnam. I liked the food, the way the country is developing and the confidence and directness of the people. I wish I could have stayed a month and seen more.
