Ruby Dixon

Ice Planet Barbarians Ruby Dixon, 2021-11-30 The international publishing phenomenon Ice Planet Barbarians, now in a special print edition! Fall in love with the out-of-this-world romance between Georgie Carruthers, a human woman, and Vektal, an alien from another planet, in this expanded edition with bonus materials and an exclusive epilogue—in print only! You'd think being abducted by aliens would be the worst thing that could happen to me. And you'd be wrong. Because now the aliens are having ship trouble, and they've left their cargo of human women—including me—on an ice planet. We're not equipped for life in this desolate winter wasteland. Since I'm the unofficial leader, I head out into the snow to look for help. I find help all right. A big blue horned alien introduces himself in a rather . . . startling way. Vektal says that I'm his mate, his chosen female—and that the reason his chest is purring is because of my presence. He'll help me and my people survive, but this poses a new problem. If Vektal helps us survive, I'm not sure he's going to want to let me go.

Still Reading Romance Josefine Smith, Kathleen W. Taylor Kollman, 2025-04-01 In a world that commodifies feminism, is adapting romance novels for small and big screen projects, and the Romance Writers Association is evolving to a more inclusive representative group, it is imperative for researchers to reevaluate the cultural assumptions and gender norming work happening in the romance genre. It is time to question the cultural capital of traditional archetypes, explore the experience of romance readers, and question how romance and cultural studies researchers create quantitative, qualitative, and mixed methods research. This work centers around a data set collected with a revised version of Janice Radway's Reading the Romance survey that will be shared with all the authors of this anthology. By having access to this pool, authors will have the opportunity to explore different elements of reader experience and cultural norms in romance fiction, and potentially reflect on changes since Janice Radway's seminal work. The norms and negotiations readers experience while consuming romance is especially interesting as romancelandia becomes a more mainstream part of popular culture with the popularity of Bridgerton and romance series like Ice Planet Barbarians exploding on BookTok. No other book in romance or popular culture studies identifies a data set as the connecting element, and to do so creates an exciting opportunity to create a more inclusive study of popular romance, offer truly interdisciplinary research on the question of how readers read romance, and generate diverse areas of future scholarship. This edited volume explores multiple issues in romance fiction, based on survey data from real romance readers. An updated version of Janice Radway's influential survey looking at

romance readers in the early 1980s, this time scholars explore romance readers' habits and attitudes in the twenty-first century. Each contributor in this volume uses the same survey data to make unique statements about gender, intersectionality, popular fiction, and popular culture. By using a common data set but approaching it from different perspectives, this unique volume is able to apply multiple methodologies to the same subject.
