American Identity and the Politics of Multiculturalism Jack Citrin,David O. Sears,2014-08-11 The civil rights movement and immigration reform transformed American politics in the mid-1960s. Demographic diversity and identity politics raised the challenge of e pluribus unum anew, and multiculturalism emerged as a new ideological response to this dilemma. This book uses national public opinion data and public opinion data from Los Angeles to compare ethnic differences in patriotism and ethnic identity and ethnic differences in support for multicultural norms and group-conscious policies. The authors find evidence of strong patriotism among all groups and the classic pattern of assimilation among the new wave of immigrants. They argue that there is a consensus in rejecting harder forms of multiculturalism that insist on group rights but also a widespread acceptance of softer forms that are tolerant of cultural differences and do not challenge norms, such as by insisting on the primacy of English.

Theological Ethics and Moral Value Phenomena Steven C. van den Heuvel,Patrick Nullens,Angela Roothaan,2017-09-22 The experience of moral values is often side-lined in discussions about moral reasoning, and yet our values define a large part of our moral motives, standards and expectations. Theological Ethics and Moral Value Phenomena explores whether the

experience of a meeting point of the immanent and the transcendent, i.e. the moral self and God, can be the source of our values. The book starts by arguing for a greater theological engagement with value ethics, personalism and the phenomenological method by drawing on thinkers such as Max Scheler and William James. It then provides an understanding of the social and religious dimension of the valuing person, demonstrating the importance of the emotional, as well as the cognitive, dimension of value experience. Finally, this value perspective is utilised to engage with current moral issues such as professional ethics, environmental ethics, economical ethics and family ethics. Integrating the concepts of religious experience, moral motivation, and subjective and objective value within a broad framework of Christian theology and philosophy, this is vital reading for any scholar of Theology and Philosophy with an interest in ethics and moral reasoning.

*The Portable Curmudgeon* Various,1992-10-01 More than 1,000 outrageously irreverent quotations, anecdotes, and interviews on a vast array of subjects, from an illustrious list of world class grouches. "If you can't say anything good about someone, sit right here by me."—Alice Roosevelt Longworth

Reflection Guzziferno,2022-10-27 An updated view or summary of sociology in regards to our present human social direction, and how Statecraft evolution and Polity is impacting our social progress. This book attempts in a brief and simplistic way to map our social and political direction using history, and to understand human nature by studying the choice of direction taken thus far. Whether by varying levels of ignorance, indifference, love, concern, determination or greed, activity or inactivity, humanity will inevitably reveal its future strengths and weaknesses by the course of its own actions. This book attempts to discuss and ask why we still exhibit the same existing antiquated problems in modern day society despite our lessons from history and the many directions of political evolution experienced. These problems are now compounded with our new social values and runaway technical evolution which now heightens our perilous position in the 21 century, resulting with the deficiencies in our domestic and foreign policies and our rapidly changing ecology. Perhaps another appropriate title for this manuscript would be the power and nature of human greed. Finally the author attempts to describe the possible remedies from a simple citizen's point of view and in terms that would hopefully be understandable to other simple citizens, in a great country where simple citizens are supposed to be the active part of a people's government. A people's government that is supposed to Reflect the many rights and regulations of the Constitution of the United States of America.

Quotationary is a source of inspiration for every writer, book-lover and thinker. It contains the thoughts of many of the finest minds since ancient man started to express his wit and wisdom in aphoristic form. **Futurama: Looking Backward at Present Day America** Christian Schlegel, 2014-10-01 Matt Groening developed together with his friend and colleague David X. Cohen the TV-Show Futurama, set in New York in the year 3000. Groening describes his 'vision of the future' in Futurama as corporate, commercial and confusing which is not what he expects it to be, and it is not necessarily valuing this world as good or bad. Thus, the assumption of this study is that Futurama presents a stereotyped science fiction-world that deals with themes and problems of our present time. This becomes clear when looking at the excessive use of allusions and references to political and historical events as well as to popular and classical culture. The creators comment that way on topics that concern us – or at least should concern us – today. The task of this study is to identify these topics and references (focusing on America as a political entity), and thereby discuss the points of criticism Futurama raises.

**The Write Stuff** Sondra B. Willobee, 2009-01-16 In this book, gifted preacher Sondra Willobee shows how to enliven sermons by using the techniques of great writers. With clarity and wit, Willobee explores the joyful process of crafting effective sermons.

**Modern Virtue** Emily Dumler-Winckler, 2022 Modern Virtue is the first book length treatment of Mary Wollstonecraft's theology and religion, the first to show the centrality of each for her account of the virtues and revolution, and the first by a scholar in these fields. While Wollstonecraft is canonical in many other fields, she is mostly unknown or ignored in virtue ethics, theology, and religion. This book remedies this omission and the prevalent narratives sustained by it in the latter as well as predominant views of her religion and virtue in the former.
