Apple SWOT Analysis Adam Tar, 2013-06-13 Research Paper (undergraduate) from the year 2013 in the subject Business economics - Business Management, Corporate Governance, grade: A+, Webster University, course: BUSN 6120-2R, language: English, abstract: When reflecting on technology, and the progress that we have made in the last ten years, it is hard to imagine where we would be today without it. We as a society have integrated technology into our lives every single day. A large part of this is due to the ability to connect to the world with our fingertips whenever and wherever we may be. Whether we are surfing the web, listening to music, face timing with our friends and or loved ones, or simply checking in on our social networks. Technology has become a norm and a hygiene factor of our society that most of us could not live without. Apple Inc. and its former CEO, Steve Jobs deserve a substantial amount of credit for these changes. They have led the way in innovation, user friendliness, and ascetically pleasing products that many have tried to contend with and have had no success. Apple Inc. has created a brand so powerful, that their products themselves have become fashionable and almost a never-ending trend. Their brand loyalty is so deep that consumers will stand in lines for not hours but, days awaiting the release of the newest product, even if the changes that are made to it are minimal. They are the first and only company to create a line of products that seamlessly integrate together, and are accessible anywhere with a cellphone signal. However, many question the company's viability due to the recent passing of former CEO Steve Jobs. Will Apple Inc. be able to continue in its predecessor's footsteps? Or will Apple Inc. dwindle away like last years fashion trend? This paper will examine Apple Inc. using a SWOT Analysis, and will bring to light Apple Inc. areas of strengths, weaknesses, opportunities and threats.

Apple Inc. - An Analysis Md. Rajibul Hasan, 2013-01-15 Research Paper (undergraduate) from the year 2012 in the subject Business economics - Offline Marketing and Online Marketing, grade: A, University of Kent, course: Masters of Business Administration, language: English, abstract: This paper looks at Apple Inc., which primarily operates in U.S. and involves in development, design, and marketing of computers, portable digital music players, and media devices. It evaluates the macro environment in which Apple Inc. is operating with the help of the PESTLE analysis. Next, it studies the strength and competitive positions of Apple Inc with the help of Porter's five forces analysis. Later, a SWOT analysis is conducted to understand the micro environment of Apple Inc. Finally, Comprehensive analyses of financial ratios and share performance

are conducted to understand the financial condition and the stock performance of Apple Inc.

**Corporate Strategy for Apple Inc Company** Judith Zylla-Woellner, 2013-01-16 Seminar paper from the year 2011 in the subject Business economics - Business Management, Corporate Governance, grade: 2,1, Berlin School of Economics and Law (IMB), course: MBA Seminar, language: English, abstract: The story of Apple Inc. started in 1976 and is a quite successful one. The chief character Steve Jobs just recently resigned as Managing Director of this multinational company. These most recent news caused the apple stocks to drop which shows how much impact the cofounder Steve Jobs has on the company and its destiny. Apple Inc. is an American multinational company, which provides personal computers, software and especially consumer electronics. Nowadays this company hired 49 400 employees worldwide.<sup>1</sup> Additionally towards the end of the year 2010 the worldwide annual sales equal \$65.23 billion<sup>1</sup>. Apple Inc. has been so successful in these last decades thanks to its fresh, imaginative way to contemplate and do its business. This winning mixture of extraordinary products, great style and design, grand strategy, innovative marketing, inviting communications is basis of this papers analysis. Apple owes its overwhelming victory in the last years to the iPhone and to the smart iPod and iTunes product combination. In the 5 years between 2003 and 2008 the Apple share value increased 25 times, from \$7.5 to \$180 per share. In July 2008 prices, before the US Financial Crisis, Apple stock market capitalization was \$160 billion. In January 2010 Apple shares topped the \$210 mark. Just recently Apple was found to be the most valuable company of the world with share prizes of \$373. This simple number shows the immense success apple achieved during the past years. 2 [...] 1

**Tesla Motors. SWOT analysis and corporate strategy** Santiago Mas Mas, 2018-08-27 Seminar paper from the year 2016 in the subject Business economics - Offline Marketing and Online Marketing, grade: 1,3, University of Applied Sciences Essen, course: Master of Business Administration (MBA), language: English, abstract: In an era in which disruption is one of the most used words in business, Tesla Motors has been attracting media attention during the last few years, especially in North America and Europe, due to its innovative offering and the fresh air it has brought into the car manufacturing industry. This is the reason why we have decided to choose this company for our reflections on corporate strategy in the MBA. Our methodology in this assignment will be to critically analyze Tesla's current market approach as part of its global corporate strategy to be able to latter see how harmonized they both are and how likely they are to finally succeed given the current market conditions and competition. For this task we will firstly determine Tesla's potential market and then we will use one of marketing's most known tools, the SWOT analysis, divided up into an internal and external analysis of its strategic advantages and disadvantages, to get a clear picture of the company's competing position. We will also comment Tesla's pricing strategy using some of the pricing concepts reviewed during the MBA course syllabus. Lastly, we will adopt the role

of a business analyst to make some forecasts on the company future development and recommendations based on the outcomes of our analysis.

*Global Technology Management 4.0* Pratim Milton Datta,2022-05-21 Technology is pervasive in today's globalized world. Moreover, technology and globalization drive competitiveness and strategy, and must be managed well. This textbook uses technology management as the central theme to cover multiple business and social facets, including digital transformation, cybersecurity, international operations, marketing, finance, culture, human capital, and the political economy. The book is divided into four sections. Part 1 examines the confluence of globalization and technology from the first Industrial Revolution to the current Fourth Industrial Revolution. Part 2 introduces strategic and analytical metrics and models that are crucial to managerial decision-making. Part 3 discusses the basics of cybersecurity and combating cyber-threats to protect organization and its stakeholders. Part 4 focuses on sustainable operations, global projects, and digital transformation in a technology-centric, globalized world. The book will help students learn how to navigate business aspects of globalization and technology in the 4th Industrial Revolution (4IR). For instructors, the learning objectives and discussion questions help guide students in grasping the material.

Remaking the Real Economy Gordon Pearson,2020-10-21 Debunking the myths around the current economic belief systems, this book reveals how mainstream perspectives work for the benefit of the organised money establishment, while causing all manner of destructions, inequalities and frauds, all conspiring against the common good. Focused on the realities of organisational systems, Pearson offers a practical alternative to economic dogma. Written from a distinctive perspective that combines practitioner and academic expertise, this book is structured as a simple model of business strategy and identifies necessary systems change in order to achieve a truly sustainable future.
